Friendly Fascism The New Face Of Power In America

John W. Whitehead

Friendly Fascism The New Face Of Power In America:

Friendly Fascism Bertram M. Gross, 1980 *Friendly Fascism* Bertram Myron Gross, 1980 Widely acclaimed and hotly debated this provocative and original look at current trends in the United States presents a grim forecast of a possible totalitarian future a book that offers a very clear exposition of where America is and how we got there William Shirer

Friendly Fascism Gross Bertram Gross, 2020-07-19 The 8th November 2016 marked a startling new era in American political life After the creeping ascent of Right wing authoritarian parties in the UK and Europe Donald Trump's victory in the presidential election brought an alarming form of the alt right neo conservatism into the American political mainstream Many aspects of this descent into the darkness of fascism was predicted by Bertram Gross in *Friendly Fascism* a provocative and original critique of a subtle yet growing fascism in American political life Gross shows that the chronic problems faced by the U S in the late twentieth century required increasing collusion between big business and big government to manage society in the interests of the privileged and powerful The resulting friendly fascism Gross suggests lacks the dictatorships public spectacles and overt brutality of 20th century fascism but has at its root the same denial of individual freedoms and democratic rights No one who cares about the future of democracy can afford to ignore the frightening realities of *Friendly Fascism* *Friendly Fascism* Bertram Gross, 2016-03-08 A look at corporate authoritarianism that William Shirer called the best thing I've ever seen on how America might go fascist democratically In 1980 US capitalist politics wore a nice guy mask a troubling disguise to cover up a creeping despotism in which the ultra rich and corporate overseers were merging with a centralized state power in order to manage the populace This immanent corporate authoritarianism threatened to subvert constitutional democracy But unlike the violent and sudden usurpations that led to fascism in the days of Hitler Mussolini and the Japanese empire builders this new smiling American breed of fascism was gaining ground through gradual and silent infringements on the freedoms of the American people First published over three decades ago *Friendly Fascism* is uncannily predictive of the threats and realities of current political and economic power trends Author Bertram Gross a presidential adviser during the New Deal era traces the history and logic of declining democracy in First World countries and pinpoints capitalist transnational growth and inappropriate responses to global crises as the sources of late twentieth century despotism in America Gross issues ever urgent warnings about what happens when big business and big government become bedfellows chronic inflation recurring recession overt and hidden unemployment the poisoning of the environment and simultaneously proffers a practical shift of perspective that could help US citizens build a truer democracy He imagines an America in which heroes are no longer needed and the leadership is a group of non elitists who recognize the ignorance of the wise as well as the wisdom of the ignorant **Battlefield America** John W. Whitehead, 2015-04-14 Police forces across the United States have been transformed into extensions of the military Our towns and cities have become battlefields and we the American people are now the enemy combatants to be spied on tracked frisked and searched For those who resist the

consequences can be a one way trip to jail or even death Battlefield America The War on the American People is constitutional attorney John W Whitehead s terrifying portrait of a nation at war with itself In exchange for safe schools and lower crime rates we have opened the doors to militarized police zero tolerance policies in schools and SWAT team raids The insidious shift was so subtle that most of us had no idea it was happening This follow up to Whitehead s award winning A Government of Wolves is a brutal critique of an America on the verge of destroying the very freedoms that define it Hands up the police state has arrived

Science of Spirit Robert Donald Tonelli, 2011-01-17 Beyond the Secret Beyond the Power of Now is the Science of Spirit a Deeper look at life Why are we here alive on planet earth trapped in a life of 9 to 5 wage slavery Science of Spirit Lost Keys to the Kingdom of Heaven on Earth shows that all life on planet earth and in the universe is based on an evolution of consciousness from the beginning of time the Big Bang It clarifies the connectedness of all life with Science and to Spirit through the understanding of world old Hermetic Teachings in a balance of Reason and Faith Consciousness is the very fabric that all form is made out of and is the ground of all beingness of life Consciousness and the energy that makes up matter are inextricably combined or linked emerging in a sequence of events called occasions of experience that ultimately create our experiences in life and our reality The universe isnt made of things or particles Its a process Its made up of events The result of this evolution of consciousness is an Analogical Awareness of life living in the now moment of unlimited potentials for the growth of a new super conscious species of humanity moving through an Omega Point in time between 2011 2013 These Hermetic Teachings were clarified for me through the teaching of Ramtha and his Ancient Gnostic School much of what I have learned in 20 years my philosophy of life has its foundation in Ramthas philosophy Our accelerating consciousness is moving to a quantum existence of Spirit in Mass God Man realized alive with all the lower species of life specifically the Sheeple of Economic Western Society The Science of Spirit is based on my personal experience my research and my understanding of the ancient philosophy that this work comes from It uses from research the philosophy and experience of other very credible people that have studied different aspects of a Science of Spirit as a philosophy to live by I use this eclectic approach to build an accurate model of reality based in consciousness that allows us to create our own reality once we rid ourselves of the illusions of society This approach gives credibility to my overall viewpoint a modern interpretation of a very old philosophy and way of life A Science of Spirit that is inherent in Mother Nature It goes in depth about understanding What Consciousness Is An Analogical State of Awareness that is continuously evolving faster and faster to the eternal Now Moment It uses the discovery of a new perspective of the Mayan Calendar that is supposed to end in a religious Apocalypse at The Omega Point in time around 2012 as its foundational understanding of an Evolution of Consciousness on earth This philosophy and research show an Evolution of Consciousness a rising of an Analogical Awareness of life revealing a Science to the nature of Spirit It explains from a new perspective this battle between the Forces of Good and Evil at The End of Time This Ancient Science of Spirit philosophy explains how the primeval forces of life Spirit

that are inherent in Mother Earth growing for 16 4 billion years are pitted against the dogmatic stagnant god fearing personalities that runs the Engines of Commerce of our Global Society with their focus on monetary control of the people and the planet This is a real life battle between evolving evolutionary beings against the Anti Christ Social Consciousness of The Multi National Corporations Religious dogmas talk about an Apocalypse at the end of time to help warn us of our impending doom the remarkable thing is that the word Apocalypse means the lifting of a veil or a disclosure to certain privileged persons of something hidden from the majority of humankind I will show in this book that the lifting of a veil is a rising of consciousness that knows no fear of the unknown and clarifies ancient predictions of the end days and the real battle of Armageddon This ancient Science

Beyond Black and White Manning Marable,1995 A generation removed from the Civil Rights Movement and the Black Power explosion of the 1960s the pursuit of racial equality and social justice for African Americans seems more elusive than ever The realities of contemporary black America capture the nature of the crisis life expectancy for black males is now below retirement age median black income is less than 60 per cent that of whites over 600 000 African Americans are incarcerated in the US penal system 23 per cent of all black males between the ages of eighteen and 29 are either in jail on probation or parole or awaiting trial At the same time affirmative action programs and civil rights reforms are being challenged by white conservatism Confronted with a renascent right and the continuing burden of grotesque inequality Manning Marable argues that the black struggle must move beyond previous strategies for social change The politics of black nationalism which advocates the building of separate black institutions is an insufficient response The politics of integration characterized by traditional middle class organizations like the NAACP and Urban League seeks only representation without genuine power Instead a transformationist approach is required one that can embrace the unique cultural identity of African Americans while restructuring power and privilege in American society Only a strategy of radical democracy can ultimately deconstruct race as a social force *Beyond Black and White* brilliantly dissects the politics of race and class in the US of the 1990s Topics include the Clarence Thomas Anita Hill controversy the factors behind the rise and fall of Jesse Jackson s Rainbow Coalition Benjamin Chavis and the conflicts within the NAAPC and the national debate over affirmative action Marable outlines the current debates in the black community between liberals Afrocentrists and the advocates of social transformation He advances a political vision capable of drawing together minorities into a majority which can throw open the portals of power and govern in its own name

Antidote to Trumpism Luis Bernardo Mercado,2019-12-09 *Antidote to Trumpism* is a wide ranging collection of essays meant to help Americans embrace intellectual honesty improve their critical thinking skills and avoid being deceived by propaganda The most important chapters explore how to improve our understanding of the way our government functions how the Trump administration has attacked the rule of law and our Constitution the importance of protecting our democracy and our environment and interesting political religious and scientific concepts Other essays discuss how to deal with anxiety disorders food allergies

and rosacea Most of the chapters end with a list of recommended texts that will help those interested in learning more about the subjects discussed

Economic Globalisation as Religious War Michael McKinley, 2007-06-28 Using a critical theory approach to analyze the globalization of the world economy this provocative and topical new book presents economic globalization not as a recent development but rather as a familiar process that has occurred throughout history Michael McKinley argues that it is ultimately a self serving arbitrary and destructive imperial project that should be viewed as a religious war

A Theory of Global Capitalism William I. Robinson, 2004-03-12 Sure to stir controversy and debate A Theory of Global Capitalism will be of interest to sociologists and economists alike

Networks, Terrorism and Global Insurgency Robert J. Bunker, 2014-03-05 This new book brings together leading terrorism scholars and defence professionals to discuss the impact of networks on conflict and war Post modern terrorism and topics of global insurgency are also comprehensively covered The text is divided into four sections to cover the key areas introductory overview theory terrorism and global insurgency Al Qaeda focus and networks Eminent contributors include John Arquilla and David Ronfeldt Brian Jenkins Stephen Sloan Graham Turbiville and Max Manwaring This book was previously published as a special issue of the leading journal Low Intensity Conflict and Law Enforcement

The Routledge Handbook of Poverty in the United States Stephen Haymes, Maria Vidal de Haymes, Reuben Miller, 2014-12-17 In the United States the causes and even the meanings of poverty are disconnected from the causes and meanings of global poverty The Routledge Handbook of Poverty in the United States provides an authoritative overview of the relationship of poverty with the rise of neoliberal capitalism in the context of globalization Reorienting its national economy towards a global logic US domestic policies have promoted a market based strategy of economic development and growth as the obvious solution to alleviating poverty affecting approaches to the problem discursively politically economically culturally and experientially However the handbook explores how rather than alleviating poverty it has instead exacerbated poverty and pre existing inequalities privatizing the services of social welfare and educational institutions transforming the state from a benevolent to a punitive state and criminalizing poor women racial and ethnic minorities and immigrants Key issues examined by the international selection of leading scholars in this volume include income distribution employment health hunger housing and urbanization With parts focusing on the lived experience of the poor social justice and human rights frameworks as opposed to welfare rights models and the role of helping professions such as social work health and education this comprehensive handbook is a vital reference for anyone working with those in poverty whether directly or at a macro level

Reelpolitik II Beverly Merrill Kelley, 2004 With reference to eight classic American movies this text explores the political ideologies thrumming through the American psyche during the Cold War period

Pacifism as Pathology Ward Churchill, Michael Ryan, 2017-04-15 Pacifism as Pathology has long since emerged as a dissident classic Originally written during the mid 1980s the seminal essay Pacifism as Pathology was prompted by veteran activist Ward Churchill s frustration with what he diagnosed as a growing and deliberately self

neutralizing hegemony of nonviolence on the North American left The essay s publication unleashed a raging debate among activists in both the U S and Canada a significant result of which was Michael Ryan s penning of a follow up essay reinforcing Churchill s premise that nonviolence at least as the term is popularly employed by white progressives is inherently counterrevolutionary adding up to little more than a manifestation of its proponents desire to maintain their relatively high degrees of socioeconomic privilege and thereby serving to stabilize rather than transform the prevailing relations of power This short book challenges the pacifist movement s heralded victories Gandhi in India 1960s antiwar activists even Martin Luther King Jr s civil rights movement suggesting that their success was in spite of rather than because of their nonviolent tactics Churchill also examines the Jewish Holocaust pointing out that the overwhelming response of Jews was nonviolent but that when they did use violence they succeeded in inflicting significant damage to the nazi war machine and saving countless lives As relevant today as when they first appeared Churchill s and Ryan s trailblazing efforts were first published together in book form in 1998 Now along with the preface to that volume by former participant in armed struggle political prisoner Ed Mead postscripts by both Churchill and Ryan and a powerful new foreword by leading oppositionist intellectual Dylan Rodriguez these vitally important essays are being released in a fresh edition **The Future of Global Relations** T.

Paupp,2009-06-22 The collapse of US global hegemony means that the future of global relations will be defined by an integrated and mutually co operative world order of regions in which there are multiple centres of power These centres will continue to mature under the ideology of regionalism and through the long historical process of regionalization Australia in the Expanding Global Crisis Erik Paul,2020-01-24 This book is a study of the key components and contradictions of the escalating global crisis and their impact on modern Australia It elaborates the damage being done to democracy human rights and the fabric of society Racism is structured in the universality of the nation state and capitalism in the 21st century Racism is a process that discriminates and segregates the human species creating major conflicts and antagonisms It generates a global struggle for equality and social justice The global crisis is energised by the contradiction between a global capitalism that is in effect totalitarian and the imperatives of economic growth driving every nation state of the world Racism is embodied in the emergence of a new imperialism to maintain Western global hegemony a growing source of instability and violence in the world system endangering the survival of humanity The book advocates the promotion of full democratic participation in the struggle for social political and economic equality Struggling for the Soul of Our Country Preston M. Browning Jr.,2016-05-20 Struggling for the Soul of Our Country is a book in search of answers what does it mean to struggle for the soul of a country and how does the life of citizenship influence our common future While discussing major cultural and political issues Browning addresses the deeper questions haunting many of our citizens and reflects upon the spiritual dimension of the crises America faces today With titles such as American Global Hegemony vs the Quest for a New Humanity Why I Am a Christian Socialist and American Dystopia these essays examine aspects of American political and cultural life in

an effort to shed light on the pathologies that Browning claims undermine the health of the country's soul This book invites the reader to examine the development of America as a militaristic empire initiating multiple wars abroad including a disastrous war in Iraq and fostering at home a culture of violence that led to the assassination of an American president John F Kennedy by agents of the US government Antisemitism Steven Leonard Jacobs, 2020-06-29 With an overview essay timeline reference entries and annotated bibliography this resource is a concise one stop reference on antisemitism in today's society Stretching back to biblical times antisemitism is perhaps the world's oldest hatred of a group It has manifested itself around the world sometimes taking the form of superficially innocent jokes and at other times promoting such tragedies as the Holocaust Far from disappeared its continued existence in today's society is evidenced by vandalism of Jewish cemeteries and shootings at synagogues This book explores the causes and consequences of contemporary antisemitism placing this form of hatred in its historical political and social contexts An overview essay surveys the background and significance of antisemitism and provides historical context for discussions of contemporary topics A timeline highlights key events related to antisemitism Some 50 alphabetically arranged reference entries provide objective fundamental information about people events and other topics related to antisemitism These entries cite works for further reading and provide cross references to related topics An annotated bibliography cites and evaluates some of the most important resources on antisemitism suitable for student research *Politics of Fear* Manuel G. Gonzales, Richard Delgado, 2015-12-03 Lucidly written widely informed and uncompromisingly honest a valuable expose Michael Parenti Documents the stunning success of a network of wealthy donors and corporations in creating and sustaining a set of think tanks legal action groups and media strategies Gary Orfield Harvard University What explains the electoral success of Republicans particularly of the ascendant neoconservatives who now dominate the Party Based on a thorough and up to date examination of the New Right over twenty five years The Politics of Fear proposes some provocative answers including globalization new technologies and a far reaching network of right wing think tanks and foundations As the authors show all have opened the doors to a new politics of fear successfully waged by the neoconservatives By manipulating insecurity the New Right has created an extraordinarily successful populist conservative movement Utilizing extensive documentation the authors argue convincingly that the fear of immigrants and racial minorities has served as the most effective tactic in the GOP arsenal while their approach also implicates gays feminists and terrorists The book explains why Americans have willingly supported a party that promises them security just as it delivers greater economic and political insecurity The authors argue that despite their striking political successes neoconservatives have delivered to voters a set of policies harmful to working Americans in the way of regressive tax measures military exploits tort reform deregulation and environmental destruction *Robert F. Kennedy in the Stream of History* Terrence Edward Paupp, 2017-09-29 This assessment of the statesmanship principles and policies of Robert F Kennedy places him in the stream of history to assess what came before his time in political life what happened

during that time and what happened to his legacy after his assassination Terrence Edward Paupp evaluates the themes and issues RFK confronted responded to and for which he provided visionary solutions Paupp first chronicles the influence of Franklin D Roosevelt s legacy as a prologue to the New Frontier and Great Society During Robert F Kennedy s time in power both in his brother s administration and on his own in the US Senate he struggled with striking a balance between power and purpose In the years after John F Kennedy s assassination RFK emphasized the need to unite power and purpose national and international concerns ideals and practice Much of this has been ignored Paupp argues by what C Wright Mills called the power elite In assessing RFK s statesmanship Paupp examines his commitments to human and civil rights which linked themes and ideals within the US to those struggles taking place outside the country Robert F Kennedy brought zeal and passion to these problems by discussing the moral necessity of honouring human dignity while articulating practical solutions policies and programs to structural injustice His legacy remains a beacon of light intelligence and hope in today s world
