Algemeen politieblad van het koninkrijk der Nederlanden Netherlands,1898 **The Last German Victory** Aaron Bates,2021-12-22 Operation Market Garden the Allied airborne invasion of German occupied Holland in September 1944 is one of the most famous and controversial Allied failures of the Second World War Many books have been written on the subject seeking to explain the defeat Historians have generally focused on the mistakes made by senior commanders as they organized the operation The choice of landing zones has been criticized as has the structure of the airlift plan But little attention has been paid to the influence that combat doctrine and training had upon the relative performance of the forces involved And it is this aspect that Aaron Bates emphasizes in this perceptive closely argued and absorbing re evaluation of the battle As he describes each phase of the fighting he shows how German training which gave their units a high degree of independence of action better equipped them to cope with the confusion created by the surprise Allied attack In contrast the British forces were hampered by their rigid and centralized approach which made it more difficult for them to adapt to the chaotic situation Aaron Bates's thought provoking study sheds fresh light on the course of the fighting around Arnhem and should lead to a deeper understanding of one of the most remarkable episodes in the final stage of the Second World War in

western Europe **Dutch Girl** Robert Matzen, 2019-04-15 Twenty five years after her passing Audrey Hepburn remains the most beloved of all Hollywood stars known as much for her role as UNICEF ambassador as for films like *Roman Holiday* and *Breakfast at Tiffany's*. Several biographies have chronicled her stardom but none has covered her intense experiences through five years of Nazi occupation in the Netherlands. According to her son Luca Dotti, 'The war made my mother who she was Audrey Hepburn's war included participation in the Dutch Resistance working as a doctor's assistant during the Bridge Too Far battle of Arnhem, the brutal execution of her uncle and the ordeal of the Hunger Winter of 1944. She also had to contend with the fact that her father was a Nazi agent and her mother was pro Nazi for the first two years of the occupation. But the war years also brought triumphs as Audrey became Arnhem's most famous young ballerina. Audrey's own reminiscences, new interviews with people who knew her in the war, wartime diaries and research in classified Dutch archives shed light on the riveting untold story of Audrey Hepburn under fire in World War II. Also included is a section of color and black and white photos. Many of these images are from Audrey's personal collection and are published here for the first time.'

Crossing the Rhine Lloyd Clark, 2018-04-01 The fighting spirit of Allied paratroopers comes through with exciting clarity in this account of two separate invasions of Germany in World War II. Kirkus Reviews: 'A main selection of the Military Book Club. In September 1944 as the Allies drove across Europe after Normandy, British field marshal Bernard Montgomery launched Operation Market Garden to secure the lower Rhine, Germany's last great natural barrier in the west and passage to Berlin. Though Allied soldiers outnumbered Germans two to one, they suffered devastating casualties and were forced to retreat. Then in March 1945 Montgomery orchestrated another airborne attack on the Rhine called Operation Plunder. This time the Allies overwhelmed the German defenses, secured the eastern bank and began their final march into the heart of the Third Reich. Including detailed maps and personal accounts from those on both sides of the battle, this vivid war story examines Allied attempts to breach Germany's borders and illustrates how lessons learned from failure helped form the second plan of attack and seal Germany's defeat.' Publishers Weekly *The Library Catalogs of the Hoover Institution on War, Revolution, and Peace, Stanford University* Hoover Institution on War, Revolution, and Peace, 1969 *World War II: The Last War Heroes* Stephen Bull, 2011-11-11 The companion volume to the groundbreaking TV series, this book tells the story of the physical, emotional and psychological journey of Allied soldiers from the beaches of Normandy to the ruins of Berlin. In their own words, these brave men from Britain, the United States, Canada and Russia tell us what it was like to face the bullets, bombs, mortars, mines and artillery shells of Nazi Germany. Interviews with over 80 soldiers who fought in the conflict, totalling 150 hours, provide a new perspective on the experiences of 1944-45. Building on the high speed multi-camera filming of World War II weapons and munitions shown in the TV series, this book brings the terrifying reality of the war to life. Technical descriptions and the experiences of the men in the field explain the dramatic power and effect that this weaponry had on the battlefield, from the sinister simplicity of the deadly AP mine through to the immense firepower of the 88mm gun.

giving the modern historian a unique insight into the last days of the war for the troops on the frontline This is not a history of generals of armies manoeuvring and strategic objectives World War II The Last War Heroes is a book about the ordinary men put into incredible situations deprived of sleep and food and in constant fear of death on the long road to victory
