From Ezra To The Last Of The Maccabees Foundations Of Post Biblical Judaism:

From Ezra to the Last of the Maccabees Elias Bickerman, 1978 **From Ezra to the Last of the Maccabees** Elias Joseph Bickerman, 1970 **From Ezra to the Last of the Maccabees** Elias Joseph Bickerman, 1962 **From Ezra to the Last of the Maccabees** Elias Joseph Bickerman, 1947 **Heresy and Identity in Late Antiquity** Eduard Iricinschi, Holger M. Zellentin, 2008 The papers collected in this volume shift the focus away from heretics and heresy to heresiological discourse by contextualizing the late antique Jewish and Christian groups that produced our extant literature The contributors to the volume draw from multiple literary corpora and genres bringing a variety of late antique perspective to explore the discursive construction of the Other They unravel ethnic identities and re create the multiple voices textured in the dialogue between the orthodox and heretical writers **BOOK JACKET** **From Ezra to the Last of the Maccabees** Elias Joseph Bickerman, 1968 **From Ezra to the last of the Maccabees** Elias Bickermann, 1972 **A History of Biblical Interpretation, Volume 1** Alan J. Hauser, Duane F. Watson, 2003 A History of Biblical Interpretation provides detailed and extensive studies of the interpretation of the Scriptures by Jewish and Christian writers throughout the ages This first volume explores interpreters and their methods in the ancient period from the very earliest stages to the time when the canons of Judaism and Christianity gained general acceptance **Roots of Rabbinic Judaism** Boccaccini, 2002 In a bold challenge to the long held scholarly notion that Rabbinic Judaism already was an established presence during the Second Temple period Boccaccini argues that Rabbinic Judaism was a daring reform movement that developed following the destruction of the Jerusalem temple and took shape in the first centuries of the common era *Ancient Judaism in its Hellenistic Context* Carol Bakhtos, 2004-12-01 This volume explores the ways in which Jews lived within the Hellenistic and Greco Roman contexts how they negotiated their religious and social boundaries in their own distinctive manner Scholars demonstrate how the Jewish encounter with Hellenism led not to a conscious struggle with alien forces but rather in many instances to an active re tailoring and re shaping of tradition in light of their material ideological and philosophical surroundings That is to say the Jews a minority people maintained their identity by adapting the trappings to varying degrees of their milieu These essays also reflect many issues that emerge when we study the development of several aspects of Jewish Civilization through the ages in light of broad socio political cultural and philosophical contexts **From Ezra to the Last of He Maccabees** Elias Joseph Bickerman, 1968 **The Levite Singers in Chronicles and Their Stabilising Role** Ming Him Ko, 2017-08-10 This study focuses on the Chronicler's special interest in Levite singers It takes into consideration the socio ideological milieu of the Jerusalem temple community in the Persian period and the Mesopotamian elite professional norms and practices that nourished the singers and their music It also explores the conception of the earthly temple as representative of its heavenly counterpart and looks at the way in which this shaped the Chronicler's theological frame of reference The work is divided into two parts Part I examines the Mesopotamian scribal musical background to which Ko attributes the rise of music in

Chronicles Part II considers the Chronicler's ideological perspective the language of the temple and the educational scribal and liturgical services of Levite singers By focusing on the characterisation of the Levite singers in the light of their Mesopotamian counterparts Ko shows how they sought to foster cosmic stability according to the terms of the Davidic covenant

Finding Morality in the Diaspora? Charles D. Harvey, 2014-04-24 This volume explores issues of moral character found in the different text versions of the book of Esther First the study suggests the two most common approaches to perceived moral problems in the story of Esther avoidance and transformation Then it investigates selected portions of the Hebrew Masoretic Text the Greek Septuagint Text and the Greek Alpha Text stories of Esther focusing on issues of morality via character analysis Finally it concentrates on the moral ambiguity found in all three versions and on the ways in which moral character in the Greek stories has been transformed

Mark's Argumentative Jesus Caurie Beaver, 2018-05-22 The author claims that the gospel of Mark is a speech or sermon To prove this he shows how Mark used many of the elements of Aristotle's rhetoric Literary critics noticed these rhetorical features in Mark but remained with a literary critical model of that gospel instead of a rhetorical view that the evidence called for They continued to translate the first word of Mark *arche* as beginning to provide Mark's story of Jesus with a chronological beginning The author translates Mark's first word as guiding principle to provide Mark's persuasive speech or sermon with a logical starting point

Law and Ethics in Early Judaism

and the New Testament Stephen Westerholm, 2017-10-20 Pious Jews of the Second Temple period sought to conform their lives to Torah the law God had given Israel Their different sects disagreed however on how to interpret particular laws and even on the question of who had the authority to interpret them Jesus and his earliest followers while focusing primarily on what they believed God was doing in their own day were repeatedly confronted with issues raised by its relation to God's prior revelation in Torah This volume contains studies by Stephen Westerholm devoted to the meaning and place of Torah in Early Judaism as well as to New Testament understandings particularly those of the gospels and Pauline literature Attention is also given to the New Perspective on Paul to recent discussions of justification and Paul's relation to Judaism and to aspects of the transmission of Jesus tradition among his earliest followers *The Judaeo-Christian Tradition* Jack H. Hexter, 1995-01-01 J H Hexter's classic survey of the historical roots of Judaism and Christianity is now available with a new preface and updated bibliography The book defines the main components principal influences and most significant transformations of ancient Hebrew religious beliefs and then considers those of Christianity showing how early Christianity arose out of the Judaic heritage The first part of the book deals with the evolution of ancient Israel down to the end of the sixth century B C the second chronicles the transition from Judaism to Christianity and the struggle of the early Christian communities against the pressures and power of the Roman Empire Ranging over some 1500 years of ancient history the book illuminates the cultural and intellectual impact of the Judaeo-Christian tradition *The Social Archaeology of the Levant* Assaf Yasur-Landau, Eric H. Cline, Yorke Rowan, 2018-12-20 The volume offers a comprehensive introduction to the archaeology of the southern Levant modern day Israel Palestine and Jordan from the Paleolithic period to the Islamic era presenting the past with chronological changes from hunter gatherers to empires Written by an international team of scholars in the fields of archaeology epigraphy and bioanthropology the volume presents central debates around a range of archaeological issues including gender ritual the creation of alphabets and early writing biblical periods archaeometallurgy looting and maritime trade Collectively the essays also engage diverse theoretical approaches to demonstrate the multi-vocal nature of studying the past Significantly *The Social Archaeology of the Levant* updates and contextualizes major shifts in archaeological interpretation *The People of Ancient Israel* J. Kenneth Kuntz, 2009-07-01 Intended primarily as a textbook for undergraduates this volume has the following major divisions each divided into chapters I An introduction to the People including the essential stance of the biblical material methods of analysis and the geographical setting II The Origins of the People including a brief history of Old Testament criticism the patriarchal traditions the exodus event and the covenant at Sinai III The Growth of the People from the wilderness period to the time of Elijah IV The Demise of the People from the emergence of the literary prophets to the time of the exile V The Renewal of the People from the Second Isaiah through the end of the Old Testament period There is an extensive bibliography arranged topically and by chapters indexes of authors and subjects and photos and maps scattered appropriately throughout the volume Concerning many basic issues a range of

scholarly opinions is cited followed by a judicious evaluation and a list of the author's conclusions. Only occasionally may the average informed reader want to take serious issue with the author. Each chapter dealing with the biblical text is accompanied by a list of passages which the student is to read in conjunction with it, a helpful procedure. Treatment of a particular segment of biblical material often includes discussion of its theological stance. The author has included coverage of many more topics than introductions of comparable size. From *The Journal of Biblical Literature* review by Lloyd R Bailey, Duke University. Professor Kuntz has written a very helpful introductory text. The traditions and texts of the Hebrew Bible are set within a historical framework but the text is more than a history of ancient Israel. Kuntz presents in a succinct fashion major historiographical and interpretative positions. He has included an excellent bibliography which includes commentaries, atlases, journals as well as bibliographies structured along the lines of the table of contents. Kuntz has written a very readable and thorough introduction to the Hebrew Bible. From *The Journal of the American Academy of Religion* by Richard D Hecht, University of California Santa Barbara. Although the subtitle includes the three areas of literature, history and thought, this volume is primarily concerned with the literature of the Old Testament. A vast amount of information is made available in a breezy, well articulated and engaging style. Kuntz keeps his readers informed on presently controversial issues but he does not allow the intricacies of such current debates to obscure the flow of the work as a whole. Each chapter is amply footnoted and an extensive annotated bibliography concludes the volume. Some seventy photographs enhance an already clear and concise presentation. The vigorous and open stance of the work, evident in its lack of defensive or apologetic intent, finds confirmation in the author's statement to engage in the Old Testament hermeneutical task is to engage in a dialogue with ancient Israel. As that dialogue unfolds, the interpreter will be required to place his own view of the world on trial. Kuntz has ably demonstrated that the major task of introducing the Old Testament to the interested layperson can be accomplished successfully without jargon and sophisticated detail. This volume deserves a wide readership and will serve as a very fine foundation in introductory courses to the entire Old Testament. From *The Catholic Biblical Quarterly* by David P Reid, SS CC Washington Theological Coalition, Silver Spring, Maryland.
