**The Christian Moses** Phillip Rousseau, Janet A. Timbie, 2019-08-09 As it developed an increasingly distinctive character of its own during the first six centuries of the common era Christianity was constantly forced to reassess and adapt its relationship with the Jewish tradition The process involved a number of preoccupations and challenges the status of biblical and parabiblical texts several of them already debatable in Jewish eyes the nature and purposes of God patterns of prayer both personal and liturgical ritual practices ethical norms the acquisition and exercise of religious authority and the presentation of a religious face to the very different culture that surrounded and in many ways dominated both Christians and Jews The essays in this volume were developed within that broad field of inquiry and indeed make their contribution to it For among the many issues already mentioned there was also that of persons What was Christianity to do not just with Adam or Noah say but with Abraham David and Solomon the great prophetic figures of Jewish

history and of course with Moses As we move chapter by chapter across the early Christian centuries we see Moses gradually changing in Christian eyes and at the hands of Christian exegetes and theologians until he becomes the philosopher par excellence the forerunner of Plato the archetype of the lawgiver the model shepherd of the people of God yet all on the basis of a scriptural record that Jews would still have been able to recognize Written by a range of established scholars younger and older many of them highly distinguished The Christian Moses will appeal to graduate and senior students to those rooted in a range of disciplines literary historical art historical as well in theology and exegesis and to everyone interested in Jewish Christian relations in this early era

The Origins of Neoliberalism Dotan Leshem, 2016-06-04 Dotan Leshem recasts the history of the West from an economic perspective bringing politics philosophy and the economy closer together and revealing the significant role of Christian theology in shaping economic and political thought He begins with early Christian treatment of economic knowledge and the effect of this interaction on ancient politics and philosophy He then follows the secularization of the economy in liberal and neoliberal theory Leshem draws on Hannah Arendt's history of politics and Michel Foucault's genealogy of economy and philosophy He consults exegetical and apologetic tracts homilies and eulogies manuals and correspondence and Church canons and creeds to trace the influence of the economy on Christian orthodoxy Only by relocating the origins of modernity in Late Antiquity Leshem argues can we confront the full effect of the neoliberal marketized economy on contemporary societies Then he proposes a new political philosophy that re secularizes the economy will take shape and transform the human condition
