## **From Idea To Building Issues In Architecture:**

**From Idea to Building** Michael Brawne,1992 Both for architects and for general readers concerned with the effect of the built environment explores how the design process influences the architectural outcome of a building and how it fits into the overall artistic and technological state of the society Draws on recent work in the philosophy of architecture and on case studies many of them Brawne s own projects Highly illustrated Annotation copyright by Book News Inc Portland OR

Thinking Through Twentieth-Century Architecture Nicholas Ray,2023-02-08 Shortlisted for the Architectural Book Awards 2024 Thinking Through Twentieth Century Architecture connects the practice of architecture with its recent history and its theoretical origins those philosophical ideas that lay behind modernism and its aftermath By analyzing in straightforward and jargon free language the genesis of modernism and the complex reactions to it the book clarifies a continuing debate It has been specifically written to connect issues of theory history and contemporary practice and to allow students to make these connections easily This is a history of twentieth century architecture written with close critical attention to the theories that lie behind the works described Importantly unlike other historical accounts it does not take sides and urge the reader to identify with one strand of thinking or style of architecture at the expense of others but it presents a dispassionate view with persuasive arguments on behalf of different positions It pursues the history of European and American architecture chronologically but the history is interwoven with the philosophical ideas that informed both writers and architects and are essential for its understanding The book is relevant to current issues of contemporary practice and education showing that philosophical issues are fundamental and those relating to design decisions never go away It includes 200 illustrations and will appeal to all those interested in twentieth century architecture and to architectural students

Managing the Building Design Process Gavin Tunstall,2006-08-14 Managing the Building Design Process explains the designer s role in the creation of new buildings from the development of the plan through to completion One key case study is used throughout the book so that the reader can clearly follow the process leading to the creation of a new building This new edition expands on the first edition including sections on CAD and sustainability incorporating updates to legislation and adding new illustrations as well as discussion points and useful references at the end of every chapter Gavin Tunstall is an architect and a lecturer in the School of Architecture Design and the Built Environment at Nottingham Trent University UK

**Specifying Buildings** David T Yeomans,2007-08-22 Providing an overview of specifying from selecting materials and products to writing the specification documents Specifying Buildings is a new guide to this important part of the construction process Where it differs from most books is in covering the management of the specification process making sure that the design intent is transferred to the building assembly as specified Covering a wide range of practices Stephen Emmitt and David Yeomans have ensured the book has global relevance with specific differences between UK Australia and the US identified Case studies demonstrate how specifying works in practice This book will prove invaluable to students of

building construction and architecture as well as professionals in the industry      **Architectural Technology** Stephen Emmitt, 2009-02-12 This core textbook brings together for the first time the technical legal social and philosophical issues under the umbrella of architectural technology Part 1 covers the influences that affect the way we build the environmental agenda the human factors buildability time and costs Part 2 takes the reader through the life of a typical building project from briefing through design and assembly to use and eventual disassembly Part 3 tackles some of the underlying issues facing the architectural technologist from the communication of details to technological innovation Architectural Technology bridges the knowledge gap between design and construction enabling the architectural technologist to apply their unique skill in a creative and innovative way As a textbook aimed at those studying for membership of BIAT this is clearly very thorough and has the recommendation of their Vice President Education However it can also justifiably earn its place on the bookshelf of anybody involved in the construction process as a reference and to aid an understanding of others he she will be working with to develop an environment of which to be proud Building Engineer July 2002      **Precedents in Architecture** Roger H. Clark, Michael Pause, 2012-02-15 PRECEDENTS IN ARCHITECTURE A TIMELY UPDATE OF THE ARCHITECTURAL CLASSIC ON DESIGN ANALYSIS Precedents in Architecture Fourth Edition provides a vocabulary for architectural analysis that illuminates the works of leading architects and aids architects and designers in creating their own designs Thirty eight leading architects are represented in this updated edition through an analysis of more than 100 buildings that are assessed using a diagrammatic technique applicable to any building This impressive collection includes fourteen new buildings and seven new innovative architects distinguished by the strength quality and interest of their designs It delivers valuable guidance in analyzing architectural history as an evolutionary process by exploring the commonality of design ideas reflected in a broad range of structures by internationally renowned architects Both novices and seasoned professionals will find Precedents in Architecture Fourth Edition to be a very useful tool for enriching their design vocabulary and for the ongoing assessment of buildings found in today s evolving landscape      *Constructing a Place of Critical Architecture in China* Guanghui Ding, 2016-03-09 For the past 30 years The Chinese journal Time Architecture Shidai Jianzhu has focused on publishing innovative and exploratory work by emerging architects based in private design firms who were committed to new material theoretical and pedagogical practices In doing so this book argues that the journal has engaged in the presentation and production of a particular form of critical architecture described as an intermediate criticality as a response to the particular constraints of the Chinese cultural and political context The journal s publications displayed a dual critique a resistant attitude to the dominant modes of commercial building practice characterised by rapid and large scale urban expansion and an alternative publishing practice focusing on emerging independent architectural practitioners through the active integration of theoretical debates architectural projects and criticisms This dual critique is illustrated through a careful review and analysis of the history and programme of the journal By showing how the work of emerging architects

including Yung Ho Chang Wang Shu Liu Jiakun and Urbanus are situated within the context of the journal's special thematic editions on experimental architecture exhibition group design new urban space and professional system the book assesses the contribution the journal has made to the emergence of a critical architecture in China in the context of how it was articulated debated presented and perhaps even produced within the pages of the publication itself The protagonists of critical architecture have endeavoured to construct an alternative mode of form and space with strong aesthetic and socio-political implications to the predominant production of architecture under the current Chinese socialist market economy To rebel against certain forms of domination and suppression by capital and power is by no means to completely reject them rather it is to use those

data for design solutions and sociologists were courted by the most prestigious design schools to lecture and teach Twenty years later at the height of postmodernism it was passe to be concerned with the sociological aspects of architecture Currently the rising importance of sustainability in building not to mention an economical crisis brought on in part by a real estate bubble have forced architects to consider themselves in a less autonomous way perhaps bringing the profession full circle back to a close relationship with sociology Through all these rises and dips Robert Gutman was a strong and steady voice for both architecture and sociology Gutman a sociologist by training infiltrated architecture s ranks in the mid 1960s and never looked back A teacher for over four decades at Princeton s School of Architecture Gutman wrote about architecture and taught generations of future architects all while maintaining an outsider status that allowed him to see the architectural profession in an insightful unique way

Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download From Idea To Building Issues In Architecture has opened up a world of possibilities. Downloading From Idea To Building Issues In Architecture provides numerous advantages over physical copies of books and documents. Firstly, it is

incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading From Idea To Building Issues In Architecture has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download From Idea To Building Issues In Architecture. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading From Idea To Building Issues In Architecture. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading From Idea To Building Issues In Architecture, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download From Idea To Building Issues In Architecture has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
