University Museum Papers 1 *From Athens to Gordion* Keith de Vries, 1980 **The Mother of the Gods, Athens, and the Tyranny of Asia** Mark H. Munn, 2006-07-11 Among maternal deities of the Greek pantheon the Mother of the Gods was a paradox She is variously described as a devoted mother a chaste wife an impassioned lover and a virgin daughter she is said to be both foreign and familiar to the Greeks In this erudite and absorbing study Mark Munn examines how the cult of Mother of the Gods came from Phrygia and Lydia where she was the mother of tyrants to Athens where she protected the laws of the Athenian democracy Analyzing the divergence of Greek and Asiatic culture at the beginning of the classical era Munn describes how Kybebe the Lydian goddess who signified fertility and sovereignty assumed a different aspect to the Greeks when Lydia became part of the Persian empire Conflict and resolution were played out symbolically he shows and the goddess of Lydian tyranny was eventually accepted by the Athenians as the Mother of the Gods and as a symbol of their own sovereignty This book elegantly illustrates how ancient divinities were not static types but rather expressions of cultural systems that responded to historical change Presenting a new perspective on the context in which the Homeric and Hesiodic epics were composed Munn traces the transformation of the Asiatic deity who was the goddess of Sacred Marriage among the Assyrians and Babylonians equivalent to Ishtar Among the Lydians she was the bride to tyrants and the mother of tyrants To the Greeks she was Aphrodite An original and compelling consideration of the relations between the Greeks and the dominant powers of western Asia The Mother of the Gods Athens and the Tyranny of Asia is the first thorough examination of the way that religious cult practice and thought influenced political activities during and after the sixth and fifth centuries B C

Revolt and Resistance in the Ancient Classical World and the Near East John J. Collins, J.G. Manning, 2016-08-29 This collection of essays contains a state of the field discussion about the nature of revolt and resistance in the ancient world While it does not cover the entire ancient world it does focus in on the key revolts of the pre Roman imperial world Regardless of the exact sequence it was an undeniable fact that the area we now call the Middle East witnessed a sequence of extensive empires in the second half of the last millennium BCE At first these spread from East to West Assyria Babylon Persia Then after the campaigns of Alexander the direction of conquest was reversed Despite the sense of inevitability or of divinely ordained destiny that one might get from the passages that speak of a sequence of world empires imperial rule was always contested The essays in this volume consider some of the ways in which imperial rule was resisted and challenged in the Assyrian Persian and Hellenistic Seleucid and Ptolemaic empires Not every uprising considered in this volume would qualify as a revolution by this definition Revolution indeed was on the far end of a spectrum of social responses to empire building from resistance to unrest to grain riots and peasant rebellions The editors offer the volume as a means of furthering discussions on the nature and the drivers of resistance and revolution the motivations for them as well as a summary of the events that have left their mark on our historical sources long after the dust had settled

Attis Maria Lancellotti, 2015-08-24 This volume deals with the figure of Attis The work aims to reconsider the mythical and cultic information about this character trying to provide proof of the processes of construction and reconstruction that have contributed to the moulding of the different forms of Attis that developed as a result of various demands within different religious traditions After an introduction about the history of the studies the first part examines the oldest evidence on Attis resorting to comparison with religious traditions earlier than or contemporary with Phrygian culture The second part tackles the classical world and collects the elements of continuity and of innovation in respect of Asianic religious traditions The third part analyses the problem of the processes of reinterpretation of the traditional cults that both the pagan philosophers and the fathers of the Church effected The link between Attis and Death is discussed in the fourth part

Bachvarova,2016-03-10 This book provides a groundbreaking reassessment of the prehistory of Homeric epic It argues that in the Early Iron Age bilingual poets transmitted to the Greeks a set of narrative traditions closely related to the one found at Bronze Age Hattusa the Hittite capital Key drivers for Near Eastern influence on the developing Homeric tradition were the shared practices of supralocal festivals and venerating divinized ancestors and a shared interest in creating narratives about a legendary past using a few specific storylines theogonies genealogies connecting local polities long distance travel destruction of a famous city because it refuses to release captives and trying to

overcome death when confronted with the loss of a dear companion Professor Bachvarova concludes by providing a fresh explanation of the origins and significance of the Greco Anatolian legend of Troy thereby offering a new solution to the long debated question of the historicity of the Trojan War **Spear-Won Land** Andrea M. Berlin, Paul J. Kosmin, 2019-06-25 Sardis in western Turkey was one of the great cities of the Aegean and Near Eastern worlds for almost a millennium a political keystone with a legendary past Recent archeological work has revealed how the city was transformed in the century following Alexander's conquests from a traditional capital to a Greek polis setting the stage for its blossoming as a Roman urban center This integrated collection of essays by more than a dozen prominent scholars illuminates a crucial stage from the early fourth century to 189 BCE when it became one of the most important political centers of Asia Minor The contributors to this volume are members of the Hellenistic Sardis Project a research collaboration between long standing expedition members and scholars keenly interested in the site These new discussions on the pre Roman history of Sardis restore the city in the scholarship of the Hellenistic East and will be enlightening to scholars of classical archaeology

J. W. Barber, 1994 The author presents the previously untold human side of the story of prehistoric textiles the relations of women and their textile work to society and economics over the huge span of prehistoric and early historic times **Ornamental Wall Painting in the Art of the Assyrian Empire** Pauline Albenda, 2022-01-04 This study brings together the archaeological record and the pictorial documentation of ornamental wall painting produced in Assyria from the thirteenth to the seventh centuries B C Nimrud Khorsabad Til Barsip and Tell Sheikh Hamad are among the ancient sites where impressive wall paintings were discovered unfortunately most of these discoveries now exist in drawings and photographs only Ornamental wall painting created a colorful and meaningful visual impact to the rooms of residences belonging to the Assyrian kings The assembled material demonstrates that the polychrome and black and white decorated bands of geometric floral figural and animal motifs were arranged into a variety of formulaic designs Particular attention is given to the changing trends in the selection and combination of motifs some of which had symbolic meaning The chronology of the wall paintings at Til Barsip and the accompanying discussion of textile patterns are of special interest to the art historian This book illustrates the ornamental wall paintings as recorded in the excavation reports **The Catalogue of**

Women's Work: The First 20,000 Years Women, Cloth, and Society in Early Times Elizabeth Wayland Barber, 1995-09-17 A fascinating history of a craft that preceded and made possible civilization itself New York Times Book Review New discoveries about the textile arts reveal women's unexpectedly influential role in ancient societies Twenty thousand years ago women were making and wearing the first clothing created from spun fibers In fact right up to the Industrial Revolution the fiber arts were an enormous economic force belonging primarily to women Despite the great toil required in making cloth and clothing most books on ancient history and economics have no information on them Much of this gap results from the extreme perishability of what women produced but it seems clear that until now descriptions of prehistoric and early historic cultures have omitted virtually half the picture Elizabeth Wayland Barber has drawn from data gathered by the most sophisticated new archaeological methods methods she herself helped to fashion In a brilliantly original book Katha Pollitt Washington Post Book World she argues that women were a powerful economic force in the ancient world with their own industry fabric
