Jerome, 2010-01-07 Sometimes I have a difficult time accepting my good fortune to be living at this particular time nothing has made me feel more that way than reading Dr Jerome's fascinating realistic and informative book It is a treasure house of wonderful information useful knowledge and excellent writing This book essentially takes the basic religious truths that have been handed down to us over hundreds of years from our major world religions and shows how current findings in subatomic particle physics quantum theory and laser technology gives us a way of seeing how they may well be agreeing on the same basic truths that construct and maintain our matter and spiritual existence Larry Dossey M D President of Isthmus Institute and author of Space Time and Medicine and Beyond Illness has written an excellent introduction and endorses Dr Jerome's work I believe that any creditable scientist would do the same and certainly every New Thought student should be enthusiastic about the work This book is not another scientific text It is that of course but is so much more and such fun reading Take a look at this book which is entertaining informative and above all else a book which has great application to daily living Jack H Holland PhD D D Theologian Reviewer of scientific and theological literature for The New Thought Quarterly and Director of The Institute for Human Growth and Awareness Dr Jerome's book just might be one of the most important books of this era It explains the holographic nature of God's consciousness in terms that are understandable Tommy Sellers communications expert in computer science and laser research Dr Jerome personifies a new breed of human now emerging He is a scientist who realizes that his science represents only part of the path to understand his existence and his reality It is an essential part but incomplete in itself To be whole to be balanced in life he knows it is necessary to discover the path's other essential part As the parts of the path become visible before him Dr Jerome integrates them for us As he says in his preface If science is right and if religion is also right then they must allude to the same basic truths The quest to uncover this sameness is the goal of this book This is a sensitive and beautiful book written by an admirable man It deserves to be read then pondered then reread and finally referred to often John C Carls PhD in particle physics and author of What It Means To Be Human The doctrine of man Augustus Hopkins Strong, 1907 **Systematic Theology: Volume II - The Doctrine of Man** Augustus Hopkins Strong, 2017-04-09 This volume starts off by ending the last part of the first volume and then going into the human doctrine that is taught in the Bible Such topics such as the nature of humanity the nature of sin and what makes up the image of God within us is the bulk of the topics that are covered within this work Finishing off is some talk on the doctrine of the work and office of Christ and the topic of salvation and how that works out theologically *The Influence of Abraham Cohen*

de Herrera's Kabbalah on Spinoza's Metaphysics Miquel Beltran, 2016-06-21 In this book the author seeks to find historiographical and textual evidence that Abraham Cohen de Herrera's main kabbalistic work *Puerta del Cielo* influenced Spinoza's metaphysics as it is expounded in his later work the *Ethica*. Many of the most important ontological topics maintained by the philosopher like the concept of the first cause as substance the procession of the infinite modes the subjective or metaphorical reality of the attributes and the two different understandings of God were anticipated in Herrera's mystical treatise. Both shared a particular consideration of panentheism that entails acosmism. This influence is proven through a comparative examination of the writings of both authors as well as a detailed research on previous Jewish philosophical thought.

Excerpt

Under the influence of Ritschl and his Kantian relativism many of our teachers and preachers have swung off into a practical denial of Christ's deity and of his atonement. We seem upon the verge of a second Unitarian defection that will break up churches and compel secessions in a worse manner than did that of Channing and Ware a century ago. American Christianity recovered from that disaster only by vigorously asserting the authority of Christ and the inspiration of the Scriptures. We need a new vision of the Savior like that which Paul saw on the way to Damascus and John saw on the isle of Patmos to convince us that Jesus is lifted above space and time that his existence antedated creation that he conducted the march of Hebrew history that he was born of a virgin suffered on the cross rose from the dead and now lives forevermore the Lord of the universe the only God with whom we have to do our Savior here and our Judge hereafter. Without a revival of this faith our churches will become secularized mission enterprise will die out and the candlestick will be removed out of its place as it was with the seven churches of Asia and as it has been with the apostate churches of New England.
