## **From Earth To The Heavens Crossing Dimensions:**

Transitions-Earth, Death, the Afterlife Marianne Maynard, PhD, Marianne Maynard, 2007-05 Humanity is well on its way in embracing the path of enlightenment We have rejected the doomsday prophecies for earth and have taken back our power to create a more loving world We have the choice to change what has not worked and to create a new reality on earth There is no predestination only our agreement to experience what we have manifested In the year 2012 we are told that humanity has the potential of shifting to higher dimensions of thought and to participate in the global ascension of the human race The questions are What can we expect during this time of planetary changes How can we create a heaven on earth Is it possible to expand our consciousness to higher dimensions and plans such as inter dimensional communication with those in afterlife beyond death These and many more questions are addressed in this book which focus on the next step in the human ascension and evolutionary cycle *Starwalkers and the Dimension of the Blessed* William Henry, 2011-08-06 Behind all myths there is one message a timeless truth that mystic traditions point to our Earthly lives are a preparation for life as Starwalkers advanced interdimensional beings who travel the Dimension of the Blessed In this comprehensive study the first ever of its kind William Henry reconstructs the ancient beliefs in this Dimension from clues from Egypt to Sumeria to Greece to America When pieced together these myths create an adventure to a realm of incredible possibility A few of the enigmas this book explores are The Egyptian belief that interdimensional beings of light created humanity The meaning behind the reed the key term constantly repeated over thousands of years in these global myths How Moses parting of the Sea of Reeds while leading the Israelites to Canaan the Place of Reeds is an allegory for the opening of a gate to another realm The secret meaning behind Jesus performing his first miracle at Cana which means reed and the tearing open of the heavens at his baptism and crucifixion How the human body is capable of producing a spiritual substance that is made of space time and through which one can see other times and places How the study of other dimensions can affect our biology and will change our lives in the near future Chapters include A Cosmic Species The Dimension of the Blessed The Field Up Out of Egypt The Blessed Falcons The Divine Spark of the Blessed Atlantis The Blessed Land The Sea at the End of the World Manna and the Blessed Realm Blessed Sirius Gilgamesh Tearing Open the Dimension of the Blessed Judas and the Dimension of the Blessed more **Take Charge of Life Live Your Ideal** Marianne Maynard, 2005-11 Our life on earth is a short grand adventure with many challenges and lessons for personal and spiritual growth With knowledge and intuitive insight we can have a rewarding harmonious journey However it takes a clear understanding of your ideal focus intent and thought to manifest your goals and dreams The how to do this is spelled out in simple concise steps that enables you to live your ideal and express your magnificence **The Third Path** Bud Carroll, 2013-08-01 When I finished reading this book all I could say was WOW What a stunning piece of literary work It is concise brilliantly written backed by scientific findings with clear human logic and intelligence If this doesn't awaken the masses to delve into who and what they truly are I can't imagine what will

Jerry Issa teacher of metaphysics Trenton Michigan This book will change your life if you let it If we are accidental beings on a remote planet in a vast universe existing for merely a blip in cosmic time what s the point of living at all Until we learn life is too significant to be a short lived brilliance that rises out of nothing and ends in nothing we will continue to live out our lives in what Thoreau saw as quiet desperation We sense the materialistic wall when we ask the question Is that all there is Without resorting to miracles or magic this book provides compelling evidence of life beyond the physical world by logically investigating the limitations of matter in the universe by examining the gaps in scientific theories and by analyzing what the mystics already know about a spiritual existence It takes a dedicated seeker with no preconceived ideas and no intent on arriving to see beyond the materialistic wall This book is intended to expand your awareness of life here and hereafter hopefully providing the spark that will start you on your own personal pilgrimage The mystics tell us we will be guided to the next step along our spiritual path when we are ready Are you ready AWARENESS The following might be the thoughts of those at different levels of awareness as they walk through a rose garden I want I wonder how much I could get for these roses I believe God created roses when He created the world and everything in it I doubt Roses evolved from wild flowering shrubs but most garden varieties are hybrids I seek How could anything as beautiful as a rose happen purely by chance I know Roses like all life on Earth are physical manifestations of spirit **From Heaven to Earth** Adam

Heaven's Touch James B. Kaler, 2022-11-29 A breathtaking account of how the surrounding cosmos impacts life on Earth Did you know that as you read these words showers of high speed particles from exploding stars are raining down on you As you gaze into the starry sky you might feel isolated from the Universe around you but you're not This book reveals the startling ways life on Earth is touched by our cosmic environment and demonstrates why without such contact life itself wouldn't be possible Heaven's Touch embarks on an unforgettable journey across the cosmos beginning in near space with a look at the gentle ebb and flow of lunar and solar tides Acclaimed astronomer James Kaler describes their subtle effects on our world and also explores the Sun's more potent influences such as solar storms that cause auroras give comets their tails and knock out power grids on Earth He ventures across the Solar System to consider how the planets can act to produce climate change even global disaster Kaler shows how Jupiter's gravity can throw asteroids toward potentially devastating

collision with Earth and how even our whole Galaxy might hurl comet storms at us He then takes us into deepest space to describe the cosmic rays launched at us from exploding stars and considers not just how these exploders might harm us but how they also join together in the creation of stars and how they serve to populate the Universe with the very building blocks of life Informative and entertaining Heaven's Touch reveals how intimately connected we really are with the dynamic Universe in which we live
