**^AEthics of Storytelling** Hanna Meretoja, 2017-11-30 Hanna Meretoja s The Ethics of Storytelling Narrative Hermeneutics History and the Possible develops a nuanced framework for exploring the ethical complexity of the roles narratives play in our lives Focusing on how narratives enlarge and diminish the spaces of possibilities in which we act think and re imagine the world together with others this book proposes a theoretical analytical framework for engaging with both the ethical potential and risks of storytelling **Narrative Hermeneutics, History, and Rhetoric**, 2024-12-23 David P Moessner has

pioneered the study of early Christian narrative both through the investigation of the principles and methods of good storytelling outlined by ancient authors and through the demonstration that Christians especially the author of Luke Acts used these principles and methods in crafting their own stories The contributors to this volume recognize Moessner s enormously valuable research and warm collegiality with twenty one essays on narrative hermeneutics characterization genre intertextuality and reception history Several focus fittingly on Luke and Acts while others press the implications of Moessner s work for comprehension of the wider world of Jewish Christian and Greco Roman storytelling **The Ethics of Storytelling** Hanna Meretoja, 2017 Against the backdrop of the polarized debate on the ethical significance of storytelling this work develops a nuanced framework for exploring the ethical complexity of the roles narratives play in human lives Focusing on how narratives enlarge and diminish the spaces of possibilities in which people act think and reimagine the world it proposes a theoretical analytical framework for engaging with both the ethical potential and the risks of storytelling

Hermeneutics, History, and Technology Armin Grunwald, Alfred Nordmann, Martin Sand, 2023-06-01 For better and worse the future is often conceived in technological terms Technology is supposed to meet the challenge of climate change or resource depletion And when one asks about the world in 20 or 100 years answers typically revolve around AI genome editing or geoengineering There is great demand to speculate about the future of work the future of mobility Industry 4 0 and Humanity 2 0 The humanities and social sciences science studies and technology assessment respond to this demand but

need to seek out a responsible way of taking the future into account This collection of papers interviews debates grew out of disagreements about technological futures speculative ethics plausible scenarios anticipatory governance and proactionary and precautionary approaches It proposes Hermeneutic Technology Assessment as a way of understanding ourselves through our ways of envisioning the future At the same time a hermeneutic understanding of technological projects and prototypes allows for normative assessments of their promises Is the future an object of design This question can bring together and divide policy makers STS scholars social theorists and philosophers of history and it will interest also the scientists and engineers who labor under the demand to deliver that future

**Narrative Methods for Organizational & Communication Research** David M Boje, 2001-05-15 The book is a unique and excellent introduction to postmodern narrative analyses Organization Studies This book should succeed in putting the metaphorical cat amongst just about every metaphorical pigeon that might imaginably take flight within the organization and communication research arenas Story time will never be the same again nor will interpretative research Stewart Clegg University of Technology Sydney Timely and first rate It nicely stretches a reader s thinking about the topic Thomas Lee University of Washington School of Business David Boje is a pioneering theorist in organization studies and management His book is yet another example of Boje s pioneering spirit and concern for exactitude His scholarly account of narrative and antenarrative methods is both corrective and exploratory of how stories must be understood in terms of their own internal dynamics and not viewed as static entities Boje s book is a magnificent start A book that breaks new ground in organizational analysis this is a must read for researchers and practitioners in the fields of organization and management studies Adrian Carr University of Western Sydney Boje masterfully shows how to analyze texts and ideas before they are reduced and fitted into the dominant ideological frameworks of the day He provides a powerful tool for achieving greater democracy in how we approach doing social science and liberates our capacity to make meanings for ourselves Paul Hirsch Northwestern University Kellogg Graduate School of Management This is an important book It is a major methodological contribution to critical postmodern studies of organizations and management It is essential reading for critical management scholars Robert P Gephart Jr University of Alberta School of Business David Boje has emerged as the leading postmodern thinker in management theory and organization science His prolific output lights the path for others to follow in a field awakening to the challenge of postmodern critical theory Updating and revising narrative theory for the prevailing postmodern condition Boje masterfully reconstructs the concepts and methods of storytelling as he subverts the dominant principles of modernist organization theory He offers a subtle and complex notion of narrative This impressive book should leave an indelible mark on management and organization studies Steven Best University of Texas El Paso An essential guide for academics and researchers needing to look at alternative discourse analysis strategies As a research tool narrative methods have become increasingly useful in organization studies where much research involves the interpretation of stories in some form This

methodology can be applied where qualitative story analyses can help to assess interview newspaper or web document stories for research projects In this book Boje sets out eight analysis options that can deal with storytelling recognizing that stories in organizations can be self destructing flowing networking and not at all static In so doing he shows ways in which narrative methods can be supplemented by antenarrative methods where fragmented and collective storytelling can be interpreted A valuable resource that will be widely used in organizational or communications research for graduate level qualitative methods seminars and by researchers wanting to do story analysis David Boje is Professor at the New Mexico State University He is also on the editorial board of the journal *Organization*

*Theology as History and Hermeneutics* Laurence W. Wood, 2005 This book offers in style and content an exciting new perspective on contemporary theology and its future in post modern times I welcome this new perspective The style is agreeable unpolemical and engages in dialogue with the best of Barth and Bultmann Ricoeur and Pannenberg Cobb and Moltmann showing what they have to offer to the larger theological community and transferring it like a ferry boat into the post modern age The purpose is to offer an evangelical theology which is at the same time genuinely evangelical and relevant for post modern ways of thinking Wood writes with admirable clarity J rgen Moltmann University of T bingen

*Hermeneutics and Early Christian Gospels* Todd Brewer , 2025-03-17

*The Hermeneutics of Suspicion* Dorothy Figueira, 2015-07-30 Through a unique combination of theoretical scope and material and historical breadth *The Hermeneutics of Suspicion* poses an original investigation into our understanding of alterity in Indian literature and history and significantly contributes to an emerging discourse on East West literary relations Hans Georg Gadamer s notion of hermeneutical consciousness seeks to open up a cultural context through which to engage the other It stands in opposition to the hermeneutics of suspicion advocated by recent popular theories such as colonial discourse analysis multiculturalism postcolonial theory the critique of globalism etc In his late work Paul Ricoeur charts a middle path between the hermeneutics of suspicion and a hermeneutical consciousness that addresses the

ontological and ethical categories of otherness His approach reflects concerns voiced elsewhere particularly in the historiography of Michel de Certeau and the ethics of Emmanuel Levinas This volume follows the path proposed by Ricoeur and alongside Certeau and Levinas provides an examination of varying representations of the Indian Other in classical Greek and Sanskrit sources the writings of Church Fathers apocryphal literature the Romance tradition Portuguese and Italian travel narratives and Jesuit mission letters In the various texts examined the problems of translation are highlighted together with the sense that understanding can be found somewhere between the different approaches of hermeneutical consciousness and critical consciousness This book not only looks at the European reception of the Indian other but also looks at the ancient Indian view of its others and the cross pollination of Indian concepts of otherness with the West *The Cambridge History of Literary Criticism: Volume 8, From Formalism to Poststructuralism* George Alexander Kennedy, Raman Selden, 1989 Volume 8 of The Cambridge History of Literary Criticism deals with the most influential and hotly debated areas of literary theory those developing in Europe but having their main impact in the Anglo American world of academic literary studies whose course they have fundamentally redirected The structuralism poststructuralism Russian formalism semiotics narratology hermeneutics phenomenology reception theory and speech act theory associated with European writers including Barthes Todorov Derrida and Iser are here described in the context of their original development but with an eye also to their eventual influence and the volume includes a reflective chapter by Richard Rorty on deconstruction Incorporating full bibliographies this volume engages systematically with the history of the twentieth century s most profound and extensive set of cross cultural intellectual movements **History and Hermeneutics** Murray Rae, 2005-01-01 Examines the relation between historiography and hermeneutics on three hundred years of western thought The author offers a theological account of what history is centred on the categories of creation and divine promise and proposes that it is within this theological conception of history that the Bible may be understood on its own terms *Revelation Scripture and Church Theological Hermeneutic Thought of James Barr Paul Ricoeur and Hans F* Richard R. Topping, 2007 How does God s involvement with the generation of Holy Scripture and its use in the life of the Christian church figure into the human work of Scripture interpretation This is the central question that this book seeks to address In critical conversation with the influential hermeneutic programs of James Barr Paul Ricoeur and Hans Frei Topping demonstrates how God s agency has been marginalized in the task of Scripture interpretation Divine involvement with the Bible is bracketed out Barr rendered in generic terms Ricoeur or left implicit Frei in these depictions of the hermeneutic field The result is that each of these hermeneutic programs is less than a realist interpretative proposal *The Cogito and Hermeneutics: The Question of the Subject in Ricoeur* D. Jervolino, 2012-12-06 by Paul Ricoeur It is already a piece of good fortune to find oneself understood by a reader who is at once demanding and benevolent It is an even greater fortune to be better understood by another than by one s own self In effect when I look back I am rather struck by the discontinuity among my works each of which takes on a

specific problem and apparently has little more in common with its predecessor than the fact of having left an overflow of unanswered questions behind it as a residue On the contrary Domenico Jervolino's interpretation of my works which extend over more than forty years stresses their coherence in spite of the gap in time between my present soon to be issued work *Temps et Recit* and my first *Philosophie de la Volonte le Volontaire et l Involontaire* Our friend finds the principle of coherence first of all in the recurrence of a problem the destiny of the idea of subjectivity caught in the cross fire between Nietzsche and Heidegger on one side and semiology psychoanalysis and the critique of ideology on the other He finds it likewise in the insistence on a method the mediating role played by interpretation mainly of texts with regard to reflexion on self

Jesus Christ, Hermeneutics, and Scripture Hans Burger, 2024-04-18 Soteriology not epistemology is the best entrance to theological hermeneutics and to the doctrine of Scripture The triune God uses Scripture to make the community of believers live in Christ We hear the words of Scripture in the light of Easter and Pentecost We understand Scripture from faith in Christ and with the mind of Christ At the same time we come to know Christ in Scripture and we receive the mind of Christ by reading Scripture We remain in Christ by remaining in the Word Understanding Scripture and Christlikeness mutually reinforce each other Living a Christian life with God and our neighbor in God's world will deepen our understanding of Scripture This book explores the complex relationships between Jesus Christ participation in Christ theological hermeneutics and the doctrine of Scripture It shows the necessity of a holistic approach of life knowledge understanding and renewal

*Hermeneutics After Ricoeur* John Arthos, 2018-12-27 There has been a renaissance of interest in the work and thought of Paul Ricoeur one of the great hermeneutic scholars of the twentieth century It is time to assess the future landscape for hermeneutics as a scholarly field and an educational curriculum after the momentous impact of Paul Ricoeur who extended and deepened its trans disciplinary reach and pushed its profile substantially beyond its German legacy There exists a misunderstanding that his thought is simply an extension or revision of Heidegger and Gadamer *Hermeneutics After Ricoeur* ably sets out the differences and tensions establishing the originality of Ricoeur's thought and its application beyond hermeneutic studies with a thematic focus on education the humanities and the liberal arts
