From Idea To Maturity:

Engineering Entrepreneurship from Idea to Business Plan Paul Swamidass, 2016-10-26 This book is for engineers and scientists who have the aptitude and education to create new products that could become income producing businesses for themselves and for investors The book uses short chapters and gets directly to the point without lengthy and distracting essays The rapid growth in technology based business plan contests is a clear sign that there are many wealthy inventors looking to make substantial investments in start ups based on new inventions by inventors who lack the funds and knowledge to start a business The key features of this reference enable readers to sharpen their new idea turn an idea into a commercial product conduct patent search and complete a provisional patent application and collect requisite data and prepare a business plan based on a carefully selected business model Supporting materials are provided on the book's extensive website www.engineerentrepreneurbook.com

Managing Process Innovation: From Idea Generation To Implementation Thomas Lager, 2010-10-19 This book will take the reader through a systematic examination of the factors involved in process innovation It starts with the considerations to be initiated in the boardroom and at group management level and develops into a hands on guide for middle management and professional engineers directly involved in the innovation of process technology The book initially puts process innovation in a corporate perspective providing a framework for the development of a corporate process innovation strategy Some new methodological tools are also introduced which support the targeting and proper roadmapping of improved process capabilities and the progression of customer and end user product demands into raw material specifications in a well managed supply and demand chain Various aspects of the design of a process innovation organisation are reviewed in a later section In the context of the development of process technology this book advocates the importance of delineating and clarifying corporate work processes Various environments for development work are discussed from initial test work to pilot plant testing and the use of demonstration facilities to achieve lean process innovation The importance of an open collaborative approach is stressed This includes involving external equipment manufacturers at an early stage as well as collaborative development of customers use of the products in their production processes with a view to excellence in future application development Process innovation will not however generate profit or reduce operating costs until the new or improved process technology is operating well in the plant Best practice for start up of new process technology and process plants is examined starting with a fresh outlook on technology transfer in general This often neglected area of management of process innovation is in fact of an importance equivalent to that of a product launch in the development of new products The final part of the book closes the circle discussing how to implement and measure the strategic intent of process innovation Improving the general performance of corporate process innovation is then covered by going through success factors and key performance indicators and their aggregation on a corporate level

The Mantle of Maturity Christie W. Kiefer, 1988-01-01 Kiefer presents a comprehensive overview of the

key historical concepts of developmental psychology maturity and maturation The result of this historical focus is a view of maturity that accounts for both the social forces shaping beliefs and the social consequences of those beliefs Here is a bridge between developmental psychology history and contemporary society The author begins by presenting his view of the role of ideas in history and the importance of the idea of moral maturity in psychological science as well as in the process of understanding self The history of maturity as a moral ideal is presented beginning with primitive society Key features of Medieval Renaissance Enlightenment and modern Western society that have influenced ideas of maturity are considered in turn In part II Kiefer examines beliefs about the actual process of growth and development from earlier nonliterate society and into the present Attempts to unite the philosophic and scientific concepts of development are discussed such as the Platonic path of love as represented by Carol Gilligan the Aristotelian path of reason by Lawrence Kohlberg and Freud's path of conflict Cultural historical explanations are sought for the particulars of these interplays In the concluding section Plato's four indestructible stages of maturity and implications of modern life for the attainment of these stages are evaluated Kiefer makes a plea for an historically self-conscious psychology By bringing together concepts from anthropology philosophy psychology and history the author presents a synthetic view of maturing that has fundamental applications in the fields of human development social gerontology philosophy and psychotherapy **From Here to Maturity** Thomas E.

Bergler, 2014-11-26 Many American Christians today are not sure what spiritual maturity is or how to get there Thomas Bergler has written this accessible guide to help both individuals and whole faith communities to grow spiritually Bergler claims that spiritual maturity which he defines as basic competence in the Christian life is not only desirable but attainable and he identifies its character from pertinent New Testament passages He further offers a wealth of practical research-based guidance for effectively fostering spiritual maturity in Christian believers and entire congregations Publisher *Camels,*

From Redemption to Maturity Joana James, 2012-03-29 From Redemption to Maturity is a small collection of devotionals that are meant to encourage strengthen and stir the hearts of Christians towards maturity Many times we know exactly what the Bible says about a particular

situation but when we go through it ourselves we find it hard to cope This devotional touches on topics such as True Freedom Child like Faith Christian Maturity Trusting God Waiting on God and more With every story I have included my own person testimonies and experiences I wouldn't share something with the world that I don't believe or haven't experienced myself

The purpose of this devotional is to see Christians blossom and grow so may you flourish with each page **Exploratory Product Development: Executive Version** Mary Drotar, Kathy Morrissey, 2018-12-03 This executive version of Exploratory PD ExPD examines the organizational constraints imposed by a standard phased and gated product development process ExPD differs from the traditional phased and gated process in its fundamental redesign of the development process to reduce uncertainties and risks It is an adaptive approach that responds quickly to changes in uncertain fast changing and increasingly complex environments When companies try to maintain a traditional phased and gated process in a changing environment the product development team is unable to manage the scope timeline and budget approved at the outset The result usually includes changing product requirements unexpected problems rework schedule delays breaking the budget and commercial failure The product development team needs an approach that allows them to adapt to change in customer needs markets competition technology and more ExPD helps project teams identify evaluate and prioritize uncertainties and risks throughout a project It then helps the team determine how and when to resolve the uncertainty or when it is appropriate to kill a project Out of this process the authors developed the Business Fit Framework BFF software tool that helps project teams to identify evaluate and prioritize the most impactful product uncertainties and risks As well as tracking and resolving these risks The authors received an NSF STEM I Corp Grant through the University of Chicago for the BFF This grant enabled the authors to conduct further research on the topic of uncertainty and risk in product development and how mid to large cap companies currently cope with it Within this ExPD executive version we look at the lessons of the Manhattan Project a highly successful historical project We discuss the three major components of the ExPD process 1 Strategy 2 Ideas Selection 3 Explore Create We then provide a case study to illustrate the ExPD process in practice **The**
