Broadcasting Freedom Arch Puddington, 2021-05-11 Among America's most unusual and successful weapons during the Cold War were Radio Free Europe and Radio Liberty RFE RL had its origins in a post war America brimming with confidence and secure in its power Unlike the Voice of America which conveyed a distinctly American perspective on global events RFE RL served as surrogate home radio services and a vital alternative to the controlled party dominated domestic press in Eastern Europe Over twenty stations featured programming tailored to individual countries They reached millions of listeners ranging from industrial workers to dissident leaders such as Lech Walesa and Vaclav Havel *Broadcasting Freedom* draws on rare archival material and offers a penetrating insider history of the radios that helped change the face of Europe Arch Puddington reveals new information about the connections between RFE RL and the CIA which provided covert funding for the stations during the critical start up years in the early 1950s He relates in detail the efforts of Soviet and Eastern Bloc officials to thwart the stations their tactics ranged from jamming attempts assassinations of radio journalists the infiltration of spies onto the radios staffs and the bombing of the radios headquarters Puddington addresses the controversies that engulfed the stations throughout the Cold War most notably RFE broadcasts during the Hungarian Revolution that were described as inflammatory and irresponsible He shows how RFE prevented the Communist authorities from establishing a monopoly on the dissemination of information in Poland and describes the crucial roles played by the stations as the Berlin Wall came down and the Soviet Union broke apart *Broadcasting Freedom* is also a portrait of the Cold War in America Puddington offers insights into the strategic thinking of the RFE RL leadership and those in the highest circles of American government including CIA directors secretaries of state and even presidents *A Freedom Budget for All Americans* Paul Le Blanc, Michael D. Yates, 2013-08 While the Civil Rights Movement is remembered for efforts to end segregation and secure the rights of African Americans the larger economic vision that animated much of the movement is often overlooked today That vision sought economic justice for every person in the United States regardless of race It favored production for social use instead of profit social ownership and democratic control over major economic decisions The document that best captured this vision was the *Freedom Budget for All Americans Budgeting Our Resources 1966 1975 To Achieve Freedom from Want* published by the A Philip Randolph Institute and endorsed by a virtual who's who of U S left liberalism and radicalism Now two of today's leading socialist thinkers return to the *Freedom Budget* and its program for economic justice Paul Le Blanc and Michael D Yates explain the origins of the *Freedom Budget* how it sought to achieve freedom from want

for all people and how it might be reimagined for our current moment Combining historical perspective with clear sighted economic proposals the authors make a concrete case for reviving the spirit of the Civil Rights Movement and building the society of economic security and democratic control envisioned by the movement's leaders a struggle that continues to this day The Russian Revolution, and Leninism Or Marxism? Rosa Luxemburg, 1961 A controversial Marxist Luxemburg here opposes the Bolsheviks quest for power *Thinking Freedom in Africa* Michael Neocosmos, 2016-12-01 Thinking Freedom in Africa conceives an emancipatory politics beginning from the axiom that people think Previous ways of conceiving the universal emancipation of humanity have in practice ended in failure Marxism anti colonial nationalism and neo liberalism all understand the achievement of universal emancipation through a form of state politics Marxism which had encapsulated the idea of freedom for most of the twentieth century was found wanting when it came to thinking emancipation because social interests and identities were understood as simply reflected in political subjectivity which could only lead to statist authoritarianism Neo liberalism and anti colonial nationalism have also both assumed that freedom is realizable through the state and have been equally authoritarian in their relations to those they have excluded on the African continent and elsewhere Thinking Freedom in Africa then conceives emancipatory politics beginning from the axiom that people think In other words the idea that anyone is capable of engaging in a collective thought practice which exceeds social place interests and identities and which thus begins to think a politics of universal humanity Using the work of thinkers such as Alain Badiou Jacques Rancière Sylvain Lazarus Frantz Fanon and many others along with the inventive thought of people themselves in their experiences of struggle the author proceeds to analyse how Africans themselves with agency of their own have thought emancipation during various historical political sequences and to show how emancipation may be thought today in a manner appropriate to twenty first century conditions and concerns **Marxism and Freedom** Raya Dunayevskaya, 2024-01-11 In this classic exposition of Marxist thought Raya Dunayevskaya with clarity and great insight traces the development and explains the essential features of Marx's analysis of history Using as her point of departure the Industrial and French Revolutions the European upheavals of 1848 the American Civil War and the Paris Commune of 1871 Dunayevskaya shows how Marx inspired by these events adapted Hegel's philosophy to analyze the course of history as a dialectical process that moves from practice to theory The essence of Marx's philosophy as Dunayevskaya points out is the human struggle for freedom which entails the gradual emergence of a proletarian revolutionary consciousness and the discovery through conflict of the means for realizing complete human freedom But freedom for Marx meant freedom not only from capitalist economic exploitation but also from all political restraints Continuing her historical analysis Dunayevskaya reveals how completely Marx's original conception of freedom was perverted through its adaptations by Stalin in Russia and Mao in China and the subsequent erection of totalitarian states The exploitation of the masses persisted under these regimes in the form of a new state capitalism Yet despite the profound derailment of Marxist political philosophy in the twentieth century Dunayevskaya

points to developments such as the Hungarian revolt of 1956 and the Civil Rights struggles in the United States as signs that the indomitable quest for freedom on the part of the downtrodden cannot be forever repressed. The Hegelian dialectic of events propelled by the spirit of the masses thus moves on inexorably with the hope for the future achievement of political, economic and social freedom and equality for all.

The Fight Over Freedom in 20th- and 21st-Century International Discourse Rita Augestad Knudsen, 2020-06-01. This book shows how international discourse citing self-determination over the last hundred years has functioned as a battleground between two ideas of freedom: a radical idea of freedom and a liberal-conservative idea of freedom. The book examines each of the major moments in which self-determination has been a central part of the language of high-level international politics and law: the early 20th-century discourse of V. I. Lenin and U.S. President Woodrow Wilson; the aftermath of the First World War and the formulation of the UN Charter; the 1950-1960s UN debates on self-determination; and the 2008-2010 International Court of Justice case on Kosovo's declaration of independence. At each of these moments in history, self-determination was at the top of the international agenda. And at each moment, a fight over the meaning of freedom played out in self-determination discourse. Besides providing insights into the historical times in which self-determination was prominently cited internationally, the book offers a recasting and renewal of international debates on freedom in international discourse.

Lenin: A Political Life Robert Service, 2016-07-27. The final volume of Robert Service's major trilogy on Lenin's political life takes the account from the Brest-Litovsk Treaty of 1918 to the Bolshevik leader's death in 1924. Attention is paid to the military, political, and economic conditions as they changed to the internal pressures of the party's politics to ideological imperatives and to one man's reaction to events and situations he had only imperfectly anticipated. The volume incorporates not only the post-1985 documentary revelations but also the results of the author's searches in the Moscow archives since 1991.

Speech and Society in Turbulent Times Monroe Price, Nicole Stremlau, 2017-12-07. This volume explores how societies are addressing challenging questions about the relationship between expression, traditional and societal values, and the transformations introduced by new information communications technologies. It seeks to identify alternative approaches to the role of speech and expression in the organization of societies, as well as efforts to shape the broader global information society. How have different societies or communities drawn on the ideas of philosophers, religious leaders, or politicians, both historical and contemporary, that addressed questions of speech, government, order, or freedoms and applied them with particular attention to applications in the digital age? The essays include a wide variety of cultural and geographic contexts to identify different modes of thinking. The goal is to both unpack the normative internet and free expression debate and to deepen understanding about why certain internet policies and

models are being pursued in very different local or national contexts as well as on a global level Lenin and the Logic of Hegemony Alan Shandro, 2014-07-10 In *Lenin and the Logic of Hegemony* by means of a careful textual and contextual analysis of the writings of Lenin and his Marxist contemporaries Alan Shandro traces the contours of the anti metaphysical event identified by Gramsci in Lenin's political practice and theory the emergence of the philosophical fact of hegemony In so doing he effectively disputes conventional caricatures of Lenin's role as a political actor and thinker and unearths the underlying parameters of the concept of hegemony in the class struggle He thereby clarifies the conceptual status of this pervasive but now increasingly elusive notion and the logic of theory and practice at work in it **Freedom** Slavoj Žižek, 2023-10-05 We are all afraid that new dangers pose a threat to our hard won freedoms so what deserves attention is precisely the notion of freedom The concept of freedom is deceptively simple We think we understand it but the moment we try and define it we encounter contradictions In this new philosophical exploration Slavoj Žižek argues that the experience of true radical freedom is transient and fragile Countering the idea of libertarian individualism Žižek draws on philosophers Hegel Kierkegaard and Heidegger as well as the work of Kandinsky and Agatha Christie to examine the many facets of freedom and what we can learn from each of them Today with the latest advances in digital control our social activity can be controlled and regulated to such a degree that the liberal notion of a free individual becomes obsolete and even meaningless How will we be obliged to reinvent or limit the contours of our freedom Tracing its connection to everything from capitalism and war to the state and environmental breakdown Žižek takes us on an illuminating and entertaining journey that shows how a deeper understanding of freedom can offer hope in dark times Freedom in the World: 1996-1997 Adrian Karatnycky, 2018-01-18 *Freedom in the World* is an institutional effort by Freedom House to monitor the progress and decline of political rights and civil liberties in 192 nations and 17 related and disputed territories These year end reviews of freedom began in 1955 when they were called the Balance Sheet of Freedom and still later the Annual Survey of the Progress of Freedom This program was expanded in the early 1970s and has been issued in a more developed context as a yearbook since 1978 Since 1989 this distinguished Survey project has been a year long effort produced by regional experts consultants and human rights specialists It derives its information from a wide range of authoritative sources Most valued of these are the many human rights activists journalists editors and political figures who keep the world informed of the human rights situation in their own countries Throughout the year Freedom House personnel regularly conduct fact finding missions to gain in depth knowledge of the vast political transformations affecting our world These investigations make every effort to include meetings with a cross section of political parties and associations human rights monitors religious figures representatives of both the private sector and trade union movement academics and journalists *Freedom in the World* is now the standard reference work for measuring progress or the lack thereof in the process of regime democratization and political maturity Adrian Karatnycky is the president of Freedom House Aili Piano is a senior researcher at Freedom House

Lenin 2017 V. I. Lenin, Slavoj Zizek, 2017-09-19 One hundred years after the Russian Revolution i ek shows why Lenin's thought is still important today V I Lenin's originality and importance as a revolutionary leader is most often associated with the seizure of power in 1917 But in this new study and collection of Lenin's original texts Slavoj i ek argues that his true greatness can be better grasped in the last two years of his political life Russia had survived foreign invasion embargo and a terrifying civil war as well as internal revolts such as the one at Kronstadt in 1921 But the new state was exhausted isolated and disorientated As the anticipated world revolution receded into the distance new paths had to be charted if the Soviet state was to survive With his characteristic brio and provocative insight i ek suggests that Lenin's courage as a thinker can be found in his willingness to face this reality of retreat unflinchingly In today's world characterized by political turbulence economic crises and geopolitical tensions we should revisit Lenin's combination of sober lucidity and revolutionary determination

Freedom's Progress? Gerard Casey, 2021-10-04 In Freedom's Progress Gerard Casey argues that the progress of freedom has largely consisted in an intermittent and imperfect transition from tribalism to individualism from the primacy of the collective to the fragile centrality of the individual person and of freedom Such a transition is he argues neither automatic nor complete nor are relapses to tribalism impossible The reason for the fragility of freedom is simple the importance of individual freedom is simply not obvious to everyone Most people want security in this world not liberty Libertarians writes Max Eastman used to tell us that the love of freedom is the strongest of political motives but recent events have taught us the extravagance of this opinion The herd instinct and the yearning for paternal authority are often as strong Indeed the tendency of men to gang up under a leader and submit to his will is of all political traits the best attested by history The charm of the collective exercises a perennial magnetic attraction for the human spirit In the 20th century Fascism Bolshevism and National Socialism were Casey argues each of them a return to tribalism in one form or another and many aspects of our current Western welfare

states continue to embody tribalist impulses Thinkers you would expect to feature in a history of political thought feature in this book Plato Aristotle Machiavelli Locke Mill and Marx but you will also find thinkers treated in Freedom s Progress who don t usually show up in standard accounts Johannes Althusius Immanuel Kant William Godwin Max Stirner Joseph Proudhon Mikhail Bakunin Pyotr Kropotkin Josiah Warren Benjamin Tucker and Auberon Herbert Freedom s Progress also contains discussions of the broader social and cultural contexts in which politics takes its place with chapters on slavery Christianity the universities cities Feudalism law kingship the Reformation the English Revolution and what Casey calls Twentieth Century Tribalisms Bolshevism Fascism and National Socialism and an extensive chapter on human prehistory
