*Great Seesaw* Geoffrey Blainey,1988-06-18 An argument for the existence of a mental see saw which in the last 250 years has affected a wide range of human attitudes and activities The author argues that the present economic crisis has close links with the seesaw though the seesaw itself helps to explain events that seem unconnected      *The Beatles* William

McKeen,1989-12-11 A reference tracing the Beatles career The first part contains a biographical essay chapters on the group s work and their influence on pop culture and a summary of what happened to each after dissolution of the group in 1970 The second part includes a discography bibliography and a list of concerts television appearances and film performances The final chapter is a chronology of events from 1940 1970 Annotation copyrighted by Book News Inc Portland OR      Catalog of Copyright Entries. Chunks Paul Hodson,2020-08-25 Very often history is thought of as that lesson we suffered through at school made into boring facts and figures rather than the rich and interesting tales that actually comprise it In *English and British History in 100 Bite size Chunks* history is enlivened and broken down into readable chunks that anyone can read and learn at their leisure Beginning at the beginning with the physical formation of these lands it ends where we are now with our current lifestyle government society beliefs complexities fears and hopes It charts the development of England s characteristics through the great and the good and ordinary men and women those who often get the glory and those who lived lives more hidden from history s storytellers It brings to life people places events and ideas and successes and failures This is not a story of England in splendid isolation but a more rounded picture touching on the influences from and on other places and nations for good or bad near and far in geography and time 100 Bitesize Chunks are followed by a recognition of historic themes and some conclusions and just a glimpse of the possible future history of a nation A commentary on history itself how we know how history works what we think of it and how we care for it or don t care for it this book is an encouragement to study history actively through the evidence we can see and touch and interpret in museums and in its real locations Ideal for anyone returning to history or for an enthusiast      Writers Directory NA NA,2016-03-05      **The Military and Social**
