 life must still go on Having been the proud owner of six hairdressing salons and being a florist she is an accomplished  
 businesswoman who has taken every opportunity that came her way She has travelled widely and experienced how different

 another 5 000 times William a 37 year old from El Gorri n Colombia Why and how do some people move out of poverty and  
 stay out while others remain trapped Most books on growth and poverty reduction are dominated by the perspectives of  
 policy makers and academic experts In contrast Moving Out of Poverty Success from the Bottom Up presents the experiences  
 of poor people who have made it out of poverty The book s findings draw from the Moving Out of Poverty research conducted  
 in communities in 15 countries in Africa East Asia Latin America and South Asia The authors synthesize the results of  
 qualitative and quantitative research based on discussions with over 60 000 people in rural areas They offer bottom up  
 perspectives on the processes and local institutions that play key roles in escapes from poverty The study finds that there are  
 no differences in the initiatives taken by the poor the rich and the upwardly mobile What then explains the difference in  
 outcomes The authors demonstrate how in the face of deep social inequalities that block access to economic opportunities  
 and local democracies individual initiative and empowerment by themselves are often not enough to escape poverty This  
 book will be of interest to all concerned with equity in an increasingly unequal world      *Friends to the Rescue* Nancy
