Historical Dictionary of Scandinavian Cinema John Sundholm, Isak Thorsen, Lars Gustaf Andersson, Olof Hedling, Gunnar Iversen, Birgir Thor Møller, 2012-09-20 Although relatively small the northern countries of Scandinavia have made a disproportionately large contribution to world cinema. Indeed some of their films are among the best known of all times including *The Seventh Seal*, *Dancer in the Dark* and *The Girl with the Dragon Tattoo*. And Scandinavian directors are also among the best known just to mention Ingmar Bergman and Lars von Trier. But there is much more to the cinema of Denmark, Norway, Sweden, Finland and Iceland than that and this book shows us what they have been accomplishing over more than a century from the beginnings of cinema until the present. The *Historical Dictionary of Scandinavian Cinema* shows just how long and busy this history has been in the chronology starting in 1896. The introduction then describes the situation in each one of the component countries all of which approached and developed the field in a similar but also slightly different manner. The dictionary section with over 400 substantial entries looks at the situation in greater detail with over 400 substantial entries on major actors, directors and others, significant films, various genres and themes and subjects such as animation, ethnicity, migration and censorship. Given its contribution to world cinema it is good to finally have an encyclopedia like this which can meet the interests of the scholar and researcher but also the movie fan. **No Trespassing** Eva

Hemmungs Wirtén, 2004-12-15 In this scholarly yet highly accessible work Eva Hemmungs Wirtén traces three main themes within the scope of cultural ownership: authorship as one of the basic features of print culture, the use of intellectual property rights as a privileged instrument of control and finally globalization as a pre-condition under which both operate. Underwritten by rapid technological change and increased global interdependence, intellectual property rights are designed to protect a production that is no longer industrial but informational. *No Trespassing* tells the story of a century of profound change in cultural ownership. It begins with late nineteenth century Europe exploring cultural ownership in a number of settings across both spatial and temporal divides and concludes in today's global knowledge-based society. Wirtén takes an interdisciplinary and international approach using a wide array of material from court cases to novels for her purposes. From Victor Hugo and the 1886 Berne Convention to the translation of Peter Heg's bestseller *Smilla's Sense of Snow*, Wirtén charts a history of intellectual property rights and regulations. She addresses the relationship between author and translator, looks at the challenges to intellectual property by the arrival of the photocopier, takes into account the media conglomerate's search for content as a key asset since the 1960s and considers how a Western legal framework interacts with attempts to protect traditional knowledge and folklore. *No Trespassing* is essential reading for all who care about culture and the future regulatory structures of access to it. Noir in the North Stacy Gillis, Gunnthorunn Gudmundsdóttir, 2020-10-01 What is

often termed Nordic Noir has dominated detective fiction film and television internationally for over two decades. But what are the parameters of this genre both historically and geographically? What is noirish and what is northern about Nordic noir?

The foreword and coda in this volume by two internationally bestselling writers of crime fiction in the north Yrsa Sigurðardóttir and Gunnar Staalesen speak to the social contract undertaken by writers of noir while the interview with the renowned crime writer Val McDermid adds nuance to our understanding of what it is to write noir in the North

Divided into four sections Gender and Sexuality Space and Place Politics and Crime and Genre and Genealogy *Noir in the North* challenges the traditional critical histories of noir by investigating how it functions transnationally beyond the geographical borders of Scandinavia The essays in this book deepen our critical understanding of noir more generally by demonstrating for example Nordic noir's connection to fin de siècle literatures and to mid century interior design and by investigating the function of the state in crime fiction
