Perspectives on Writing in Grades 1-8 Shirley M. Haley-James, 1981 Summarizing the best current thinking about
what classroom approaches produce sound writing experiences in the first eight grades this book offers teachers a means of
checking on their own practices and perceptions about how writing can best be learned The first chapter of the book
presents a historical review of authoritative opinion regarding appropriate instruction in written composition The
recommendations of those authorities are distilled into eleven observations about effective writing instruction and these
observations in turn provide the philosophical framework for the remaining chapters Chapter two cites data gleaned in a
random survey of teaching practices in use in fourth grade classrooms and suggests that while some of the teaching
practices utilized are in concert with those recommended by the authorities cited in chapter one other practices are in direct
conflict with a substantial body of professional literature Reports of other successful classroom teaching practices and
writing programs are detailed in chapters three through six These chapters discuss the importance of a specific purpose and
audience for a piece of writing as well as the necessity of prewriting rewriting and evaluating writing Chapter seven details
the trends of writing related research in the past 50 years the role of the classroom teacher in such research more recent
developments in research practices and future research needs emphasizing the necessity of conducting writing research in
context HOD **The Publishers Weekly** ,1968 **Anthology of Children's Literature** ,1977 An anthology of nursery
