From Figuration To Abstraction:

Mondrian Piet Mondrian, H. Henkels, 1987 Herbert Henkels provides an overview of Mondrian's transition from figuration to non-figurative art and recreates the cultural and intellectual background against which Mondrian's career and sense of mission as an artist unfolded. Copiously illustrated with archive photographs of Mondrian, his family, friends and studios, with pages from his sketchbooks and numerous reproductions of his works, the book also includes Mondrian's important essay *Plastic Art and pure Art* published in the English Constructivist group's book *Circle* in 1937. The 116 colour plates which form the heart of the volume are accompanied by selected quotations from Mondrian's essay *Dialogue and Trialogue of Neo Plasticism* published in *De Stijl* 1918-1920. Three interviews with the artist, an illustrated chronology with excerpts from Mondrian's letters and a select bibliography complete this handsome volume. back cover

From Figuration to Abstraction [Londen, 1986]. ,1986 Transformation from Figuration to Abstraction in the Work of an Artist/educator

Andrew A. Sirica, 1991 Figuration/Abstraction Charlotte Benton, 2017-07-05 The notion that the practice of abstraction was confined to Western Europe while a stereotyped form of figuration defined the art of the Eastern bloc continues to dominate art historical accounts of public sculpture of the post-war period. This book offers a number of alternative readings and demonstrates strategic uses of figuration and abstraction across East and West. Encompassing sites of memory including war memorials and Holocaust memorials, state civic and corporate sculpture as well as temporary and unexecuted projects, the book shows that persuasive advocates of figuration were to be found in the West while in the East imaginative experiments in abstraction were proposed in the name of Social Realism. Presenting fresh insights into sculptural practice in the period between 1945 and 1968, this book brings together a wide range of authors, some of whom have never before been published in English. Their essays are complemented by extracts from documentary texts which give a flavour of contemporary debates and a biographical section includes entries on many sculptors who will be unfamiliar to an English-speaking audience.

From Figuration to Abstraction ,1986 *Bay Area Figurative Art, 1950-1965* Caroline A. Jones, Hirshhorn Museum and Sculpture Garden, Pennsylvania Academy of the Fine Arts, 1990 Should be the classic central definitive work on the emergence of Bay Area Figurative painting. Paul Mills, author of *The New Figurative Painting* of David Park. Frank O'Hara and MoMA Matthew Holman, 2025-08-07 This is the first book to closely examine the curatorial work that the celebrated poet Frank O'Hara 1926-1966 undertook for the Museum of Modern Art in New York and abroad. Upon his premature death, the New York Times obituary ran with the headline *Frank O'Hara 40 Museum Curator Exhibitions Aide at Modern Art Dies*. Also a Poet. However, in the half a century since O'Hara's fascinating career as a curator, where he oversaw exhibitions of the likes of Jackson Pollock, Helen Frankenthaler, David Smith and Larry Rivers among others, has been eclipsed by the critical attention given over to his poetry. Drawing on a broad range of unpublished archival material, the book reveals the impact O'Hara's curatorial work had both on the reception of American modern art abroad and on the curatorial

profession itself It focuses on his travelling exhibitions for MoMA s International Program a vehicle for soft power during the fraught years of the cultural Cold War exposing him to new art artists and cities while developing important transnational networks far from New York from Madrid to Venice Zagreb to Otterlo Bringing together close readings of O Hara s poems and unpublished letters with a selection of archival illustrations Holman argues for O Hara s sense of exuberant continuity between life as a writer and a curator an American and a cosmopolitan revealing that he was so much more besides the quintessential New York poet It is perfect reading for anyone interested in American art in the mid 20th century curatorial and museum studies or simply this lesser known but fascinating aspect of the legendary poet s career **Mondrian** ,1987

Artworld Prestige Timothy Van Laar,Leonard Diepeveen,2013-01-09 Artworld Prestige examines the ways in which cultural arguments about value develop the processes by which some practices artists and media in the artworld win and others lose The authors argue that the concept of prestige although uncomfortable and consistently overlooked is an essential model for understanding artworld values as important as the more common models centered on economics or power

Across the Great Divide Rhys Davies,Christopher Townsend,Alexandra Trott,2014-10-21 There s nothing pure about modernism For all the later critical emphasis upon medium specificity modernist artists in their own times revel in the exchange of motifs and tropes from one kind of art to another they revel in staging events where different media play crucial roles alongside each other where different media interfere with each other to spark new and surprising experiences for their audiences This intermediality and multi media activity is the subject of this important collection of essays The authoritative contributions cover the full historical span of modernism from its emergence in the early twentieth century to its after shocks in the 1960s Studies include Futurism s struggle to create an art of noise for the modern age the radical experiments with poetry painting and ballet staged in Paris in the early 1920s the relationship of poetry to painting in the work of a neglected Catalan artist in the 1930s the importance of architecture to new conceptions of performance in 1960s Happenings and the complex exchange between film music and sadomasochism that characterises Andy Warhol s Exploding Plastic Inevitable

Where Heaven and Earth Meet W. Stoker,2012-01-01 Art has always been important for religion or spirituality Secular art displayed in museums can also be spiritual and it is this art that is the subject of this book Many of the works of art produced by Wassily Kandinsky Mark Rothko Andy Warhol and Anselm Kiefer are spiritual in nature These works reveal their own spirituality which often has no connection to official religions Wessel Stoker demonstrates that these artists communicate religious insights through images and shows how they depict the relationship between heaven and earth between this world and a transcendent reality thus clearly drawing the contours of the spirituality these works evince

Abstraction in Medieval Art Elina Gertsman,2025-10-01 Abstraction haunts medieval art both withdrawing figuration and suggesting elusive presence How does it make or destroy meaning in the process Does it suggest the failure of figuration the faltering of iconography Does medieval abstraction function because it is imperfect incomplete and uncorrected and

therefore cognitively visually demanding Is it conversely precisely about perfection To what extent is the abstract predicated on theorization of the unrepresentable and imperceptible Does medieval abstraction pit aesthetics against metaphysics or does it enrich it or frame it or both Essays in this collection explore these and other questions that coalesce around three broad themes medieval abstraction as the untethering of the image from what it purports to represent abstraction as a vehicle for signification and abstraction as a form of figuration Contributors approach the concept of medieval abstraction from a multitude of perspectives formal semiotic iconographic material phenomenological epistemological Modernism and the Occult John Bramble,2015-03-04 This study of modernism s high imperial occult exotic affiliations presents many well known figures from the period 1880 1960 in a new light Modernism and the Occult traces the history of modernist engagement with irregular heterodox and imported knowledge **A Dictionary of Modern and Contemporary Art** Ian Chilvers,John Graves-Smith,2009 This unique and authoritative reference work contains more than 2 000 clear and concise entries on all aspects of modern and contemporary art Its impressive range of terms includes movements styles techniques artists critics dealers schools and galleries There are biographical entries for artists worldwide from the beginning of the 20th century through to the beginning of the 21st from the Finnish architect Alvar Aalto to the French sculptor Jacques Zwobada With international coverage indications of public collections and publicly sited works and in depth entries for key topics for example Cubism and abstract art this dictionary is a fascinating and thorough guide for anyone with an interest in modern and contemporary culture amateur or professional Formerly the Dictionary of 20th Century Art the text has been completely revised and updated for this major new edition 300 entries have been added and it now contains entries on photography in modern art With emphasis on recent art and artists for example Damien Hirst it has an exceptionally strong coverage of art from the 1960s which makes it particularly ideal for contemporary art enthusiasts Further reading is provided at entry level to assist those wishing to know more about a particular subject In addition this edition features recommended web links for many entries which are accessed and kept up to date via the Dictionary of Modern Art companion website The perfect companion for the desk bedside table or gallery visits A Dictionary of Modern and Contemporary Art is an essential A Z reference work for art students artists and art lovers Generative Systems Art Francesca Franco,2017-10-05 In this unique book the author explores the history of pioneering computer art and its contribution to art history by way of examining Ernest Edmonds art from the late 1960s to the present day Edmonds inventions of new concepts tools and forms of art along with his close involvement with the communities of computer artists constructive artists and computer technologists provides the context for discussion of the origins and implications of the relationship between art and technology Drawing on interviews with Edmonds and primary research in archives of his work the book offers a new contribution to the history of the development of digital art and places Edmonds work in the context of contemporary art history *Reframing Modernism: Painting from Southeast Asia, Europe and Beyond* Low Sze

Wee,Horikawa Lisa,Phoebe Scott,2016-03-31 What is modernism in Southeast Asia What is modern art as embodied in the paintings of Southeast Asia These questions and more are answered in Reframing Modernism Painting from Southeast Asia Europe and Beyond published in conjunction with the exhibition of the same name Featuring 217 works in full colour by 51 Southeast Asian and European artists from the Centre Pompidou and National Gallery Singapore as well as other Southeast Asian collections in the region and beyond this catalogue tells the compelling story of modernism as it developed across continents and reveals artists powerful and sometimes surprising responses to modernity **Learning from Madness**

Kaira M. Cabañas,2018-09-21 Throughout the history of European modernism philosophers and artists have been fascinated by madness Something different happened in Brazil however with the art of the insane that flourished within the modernist movements there From the 1920s to the 1960s the direction and creation of art by the mentally ill was actively encouraged by prominent figures in both medicine and art criticism which led to a much wider appreciation among the curators of major institutions of modern art in Brazil where pieces are included in important exhibitions and collections Kaira M Caba as shows that at the center of this advocacy stood such significant proponents as psychiatrists Os rio C sar and Nise da Silveira who championed treatments that included painting and drawing studios and the art critic M rio Pedrosa who penned Gestaltist theses on aesthetic response Caba as examines the lasting influence of this unique era of Brazilian modernism and how the afterlife of this outsider art continues to raise important questions How do we respect the experiences of the mad as their work is viewed through the lens of global art Why is this art reappearing now that definitions of global contemporary art are being contested Learning from Madness offers an invigorating series of case studies that track the parallels between psychiatric patients work in Western Europe and its reception by influential artists there to an analogous but altogether distinct situation in Brazil **Abstract Painting and Abstraction**

Emyr Williams,2017-11-20 Abstract painting and abstraction can be a daunting and frustrating genre of art How should you approach a surface How can you use colour effectively How can you make better more expressive paintings This inspiring book answers these questions and many more Through a thorough analysis of his own work Emyr Williams covers practical theoretical and historical issues of abstract art and explains a wide range of working methods to help develop more demanding personal approaches to the making of abstract painting He emphasizes the relationship of colour to surface and the importance of seeking a profound connection with your art **Figure and Abstraction in Contemporary Painting**
