From Honey to Ashes Claude Lévi-Strauss, 1973 **Introduction to a Science of Mythology: From honey to ashes**
Claude Lévi-Strauss, 1969 *FROM HONEY TO ASHES VOL 2 OF HIS INTRODUCTION TO A SCIENCE OF MYTHOLOGY.*
Claude Lévi-Strauss, 1973 Between Culture and Fantasy Gillian Gillison, 1993-07 The myths of the Gimi a people of the Eastern Highlands of Papua New Guinea attribute the origin of death and misery to the incestuous desires of the first woman or man as if one sex or the other were guilty of the very first misdeed Working for years among the Gimi speaking their language anthropologist Gillian Gillison gained rare insight into these myths and their pervasive influence in the organization of social life Hers is a fascinating account of relations between the sexes and the role of myth in the transition between unconscious fantasy and cultural forms Gillison shows how the themes expressed in Gimi myths especially sexual hostility and an obsession with menstrual blood are dramatized in the elaborate public rituals that accompany marriage death and other life crises The separate myths of Gimi women and men seem to speak to one another to protest alter and enlarge upon myths of the other sex The sexes cast blame in the veiled imagery of myth and then play out their debate in joint rituals cooperating in shows of conflict and resolution that leave men undefeated and accord women the greater blame for misfortune *Fighting As Real As It Gets* Michael Staack, 2019-07-25 Michael Staack s multi year ethnography is the first and only comprehensive social scientific analysis of the combat sport Mixed Martial Arts Based on systematic training observations the author meticulously analyses how Mixed Martial Arts practitioners conjointly create and immerse themselves into their own world of ultimate bodily combat With his examination of concentrative technique demonstrations cooperative technique train ings and chaotic sparring practices Staack not only provides a sociological illumination of Mixed Martial Arts culture s defining theme the quest of Fighting As Real As It Gets Rather further more he provides a compelling cultural sociological case study on practical social constructions of authenticity Oral Traditions of Anuta : A Polynesian Outlier in the Solomon Islands Richard Feinberg Professor of Anthropology Kent State University, 1998-04-28 Anuta is a small Polynesian community in the eastern Solomon Islands that has had minimal contact with outside cultural forces Even at the end of the twentieth century it remains one of the most traditional and isolated islands in the insular Pacific In Oral Traditions of Anuta Richard Feinberg offers a telling collection of Anutan historical narratives including indigenous texts and English translations This rich thorough assemblage is the result of a collaborative project between Feinberg and a large cross section of the Anutan community that developed over a period of twenty five years The volume s emphasis is ethnographic consisting of a number of texts as related by the island s most respected experts in matters of traditional history Feinberg s annotations which arm the reader with essential ethnographic and historical contexts clarify important linguistic and cultural issues that arise from the stories The texts themselves have important implications for the relationship of oral tradition to history and symbolic structures and afford new evidence pertinent to Polynesian language sub grouping

Further they provide insight into a number of Anutan customs and preoccupations while also suggesting certain widespread Polynesian practices dating back to the pre contact and early contact periods **Proceedings RMRS.** ,1998 *The Two Taríacuris and the Early Colonial and Prehispanic Past of Michoacán* David L. Haskell,2018-10-15 *The Two Taríacuris and the Early Colonial and Prehispanic Past of Michoacán* investigates how the elites of the Tarascan kingdom of Central Mexico sought to influence interactions with Spanish colonialism by reworking the past to suit their present circumstances Author David L Haskell examines the rhetorical power of the *Relación de Michoacán* a chronicle written from 1539 to 1541 by Franciscan friar Jerónimo de Alcalá based on substantial indigenous testimony and widely considered to be an extremely important document to the study of early colonial relations and the prehispanic past Haskell focuses on one such testimonial the narrative of the kingdom's Chief Priest relaying the history of the royal family This analysis reveals that both the structure of that narrative and its content convey meaning about the nature of rulership and how conceptualizations of rulership shaped indigenous responses to colonialism in the region Informed by theoretical approaches to narrative historicity structure and agency developed by cultural and historical anthropologists Haskell demonstrates that the author of the *Relación de Michoacán* shaped and was shaped by a culturally distinct conceptualization and experience of the time in which the past and the present are mutually informing The book asks How reliable are past accounts of events when these accounts are removed from the events they describe How do the personal agendas of past chroniclers and their informants shape our present understanding of their cultural history How do we interpret chronicles such as the *Relación de Michoacán* on multiple levels It also demonstrates that answers to these questions are possible when attention is paid to the context of narrative production and the narratives themselves are read closely *The Two Taríacuris and the Early Colonial and Prehispanic Past of Michoacán* makes a significant contribution to the scholarship on indigenous experience and its cultural manifestations in Early Colonial period Central Mexico and the anthropological literature on historicity and narrative It will be of interest to Mesoamerican specialists of all disciplines cultural and historical anthropologists and theorists and critics of narrative *Quadripartite Structures* Mark S. Mosko,1985-06-30 This book was the first detailed comprehensive study of Bush Mekeo culture and society *From the Enemy's Point of View* Eduardo Viveiros de Castro,2020-05-02 The Arawet are one of the few Amazonian peoples who have maintained their cultural integrity in the face of the destructive forces of European imperialism In this landmark study anthropologist Eduardo Viveiros de Castro explains this phenomenon in terms of Arawet social cosmology and ritual order His analysis of the social and religious life of the Arawet Tupi Guaraní people of Eastern Amazonia focuses on their concepts of personhood death and divinity Building upon ethnographic description and interpretation Viveiros de Castro addresses the central aspect of the Arawet's concept of divinity consumption showing how its cannibalistic expression differs radically from traditional representations of other Amazonian societies He situates the Arawet in contemporary anthropology as a people whose vision of the world is complex tragic and dynamic and whose society

commands our attention for its extraordinary openness to exteriority and transformation For the Arawet the person is always in transition an outlook expressed in the mythology of their gods whose cannibalistic ways they imitate From the Enemy s Point of View argues that current concepts of society as a discrete bounded entity which maintains a difference between interior and exterior are wholly inappropriate in this and in many other Amazonian societies Handbook of Ethnography Paul Atkinson,2007-05-14 I wish the Handbook of Ethnography had been available to me as a fledgling ethnographer I would recommend it for any graduate student who contemplates a career in the field Likewise for experienced ethnographers who would like the equivalent of a world atlas to help pinpoint their own locations in the field Journal of Contemporary Ethnography No self respecting qualitative researcher should be without Paul Atkinson s handbook on ethnography This really is encyclopaedic in concept and scope Many big names in the field have contributed so this has to be the starting point for anyone looking to understand the field in substantive topic theoretical tradition and methodology SRA News Ethnography is one of the chief research methods in sociology anthropology and other cognate disciplines in the social sciences This Handbook provides an unparalleled critical guide to its principles and practice The volume is organized into three sections The first systematically locates ethnography firmly in its relevant historical and intellectual contexts The roots of ethnography are pinpointed and the pattern of its development is demonstrated The second section examines the contribution of ethnography to major fields of substantive research The impact and strengths and weaknesses of ethnographic method are dealt with authoritatively and accessibly The third section moves on to examine key debates and issues in ethnography from the conduct of research through to contemporary arguments The result is a landmark work in the field which draws on the expertise of an internationally renowned group of interdisciplinary scholars The Handbook of Ethnography provides readers with a one stop critical guide to the past present and future of ethnography It will quickly establish itself as the ethnographer s bible Bathing - the Body and Community Care Julia Twigg,2002-01-04 Community care lies at the intersection of day to day life and the public world of service provision Using the lens of one particular activity bathing this book explores what happens when the public world of professionals and service provision enters the lives of older and disabled people In doing so it addresses wider issues concerning the management of the body the meaning of carework and the significance of body care in the ordering of daily life Bathing the Body and Community Care provides an engaging text for students and will be of interest to a wide range of audiences both social science and health science students and nursing and allied professionals **Ritual** Catherine Bell,2009-12-29 From handshakes and toasts to chant and genuflection ritual pervades our social interactions and religious practices Still few of us could identify all of our daily and festal ritual behaviors much less explain them to an outsider Similarly because of the variety of activities that qualify as ritual and their many contradictory yet in many ways equally legitimate interpretations ritual seems to elude any systematic historical and comparative scrutiny In this book Catherine Bell offers a practical introduction to ritual practice and its study

she surveys the most influential theories of religion and ritual the major categories of ritual activity and the key debates that have shaped our understanding of ritualism Bell refuses to nail down ritual with any one definition or understanding Instead her purpose is to reveal how definitions emerge and evolve and to help us become more familiar with the interplay of tradition exigency and self expression that goes into constructing this complex social medium Cremation, Corpses and Cannibalism Anders Kaliff, Terje Oestigaard, 2017-05-11 Death matters and the matters of death are initially and to a large extent the decaying flesh of the corpse Cremation as a ritual practice is the fastest and most optimal way of dissolving the corpse s flesh either by annihilation or purification or a combination Still cremation was not the final rite and the archaeological record testifies that the dead represented a means to other ends the flesh and not the least the bones have been incorporated in a wide range of other ritual contexts While human sacrifices and cannibalism as ritual phenomena are much discussed in anthropology archaeology has an advantage since the actual bone material leaves traces of ritual practices that are unseen and unheard of in the contemporary world As such this book fleshes out a broader and more coherent understanding of prehistoric religions and funeral practices in Scandinavia by focusing on cremation corpses and cannibalism **Cultural Anthropology** John H. Bodley, 2016-10-24 Cultural Anthropology provides students with the anthropological tools to question and understand their own culture and the world Key updates for the sixth edition include a shorter length and more streamlined focus China and Hindu South Asia combined into a single chapter a new chapter assessing imperialism and the breakdown of states and more Living with Animals Michael Pomedli, 2014-02-24 Within nineteenth century Ojibwe Chippewa medicine societies and in communities at large animals are realities and symbols that demonstrate cultural principles of North American Ojibwe nations Living with Animals presents over 100 images from oral and written sources including birch bark scrolls rock art stories games and dreams in which animals appear as kindred beings spirit powers healers and protectors Michael Pomedli shows that the principles at play in these sources are not merely evidence of cultural values but also unique standards brought to treaty signings by Ojibwe leaders In addition these principles are norms against which North American treaty interpretations should be reframed The author provides an important foundation for ongoing treaty negotiations and for what contemporary Ojibwe cultural figures corroborate as ways of leading a good integrated life **Cuba and the Tempest** Eduardo González, 2006 In a unique analysis of Cuban literature inside and outside the country s borders Eduardo Gonzalez looks closely at the work of three of the most important contemporary Cuban authors to write in the post 1959 diaspora Guillermo Cabrera Infante 1929 2005 who left Cuba for good in 1965 and established himself in London Antonio Benitez Rojo 1931 2005 who settled in the United States and Leonardo Padura Fuentes b 1955 who still lives and writes in Cuba Through the positive experiences of exile and wandering that appear in their work these three writers exhibit what Gonzalez calls Romantic authorship a deep connection to the Romantic spirit of irony and complex sublimity crafted in literature by Lord Byron Thomas De Quincey and Samuel Taylor Coleridge In

Gonzalez's view a writer becomes a belated Romantic by dint of exile adopted creatively with comic or tragic irony Gonzalez weaves into his analysis related cinematic elements of myth folktale and the grotesque that appear in the work of filmmakers such as Alfred Hitchcock and Pedro Almodovar Placing the three Cuban writers in conversation with artists and thinkers from British and American literature anthropology philosophy psychoanalysis and cinema Gonzalez ultimately provides a space in which Cuba and its literature inside and outside its borders are deprovincialized

Porous Becomings Andreas Bandak, Daniel M. Knight, 2024-02-23 The contributors to *Porous Becomings* draw on the work of French philosopher of science Michel Serres 1930-2019 to show how it opens new pathways for anthropological knowledge

Exploring the Interplay of Edward Sapir's Anthropology and Lacanian Psychoanalysis Lenart Kodre, 2025-03-15 Was Edward Sapir's perspective on culture and personality groundbreaking or should we regard it as just one more theory that reached a scientific dead end *Exploring the Interplay of Edward Sapir's Anthropology and Lacanian Psychoanalysis* Culture and Subjectivity introduces a fresh perspective to traditional anthropological discourse by exploring Edward Sapir's insights into culture and personality relationship alongside Jacques Lacan's theories on the individual and collective This book reassesses the dynamics between subjective and social realms paving the way for potentially a new anthropological model of subjectivity and the definition of culture *Exploring the historical context of anthropology psychoanalysis relationships* this book synthesizes diverse conceptions of culture and personality through an interdisciplinary lens By leveraging Lacan's theoretical framework to interpret Sapir's bold ideas on the culture personality dyad it assesses integrating Lacanian subjectivity into the culture individual relationship bridging commonalities between the two fields and introducing insights into their interdisciplinary interplay This book summarizes key findings from Lacanian subjectivity theory and examines a new perspective on the process of cultural transmission and socialization by highlighting Sapir's pioneering view on the relationship between the individual and society It also addresses ontological epistemological and methodological questions in anthropology through Lacanian dynamics of desire
