From Migrants To Citizens Membership In A Changing World:

Multiple Citizenship as a Challenge to European Nation-states Devorah Kalekin-Fishman, Pirkko Pitkänen, 2007 This book focuses on clarifying and comparing how the rules of acquisition maintenance and revocation of dual citizenship have been modified and justified in eight states associated with the European Union Estonia Finland France Germany Greece Israel Portugal and the United Kingdom

Migration, Citizenship, Ethnos Y. Bodemann, G. Yurdakul, 2006-04-02 This collection of essays addresses three interrelated themes the basic issues in contemporary German and European Migration since 1945 with particular focus on new developments in the 80s the ways in which the citizenship debate has proceeded and how immigration and citizenship have been handled in Western Europe

Becoming a Citizen Irene Bloemraad, 2006 Becoming a Citizen is a terrific book Important innovative well argued theoretically significant and empirically grounded It will be the definitive work in the field for years to come Frank D Bean Co Director Center for Research on Immigration Population and Public Policy This book is in three ways innovative First it avoids the domestic navel gazing of U S immigration studies through an obvious yet ingenious comparison with Canada Second it shows that official multiculturalism and common citizenship may very well go together revealing Canada and not the United States as leader in successful immigrant integration Thirdly the book provides a compelling picture of how the state matters in making immigrants citizens An outstanding contribution to the migration and citizenship literature Christian Joppke American University of Paris

Contingent Citizenship Sandra Mantu, 2015-09-07 In Contingent citizenship Sandra Mantu examines the changing rules of citizenship deprivation in the UK France and Germany from the perspective of international and European legal standards In practice two grounds upon which loss of citizenship takes place stand out fraud in the context of fraudulent acquisition of nationality and terrorism in the context of national security Newly naturalised citizens and citizens of immigrant origin are mainly targeted by these measures The resurrection of the importance attached to loyalty as the citizen's main duty towards his/her state shows that the rules on loss of citizenship are capable of expressing ideals of membership and identity while the citizenship status of certain citizens remains contingent upon meeting these ideals

Language, Immigration and Naturalization Ariel Loring, Vaidehi Ramanathan, 2016-04-20 This volume focuses on the everyday legalities and practicalities of naturalization including governmental processes the language of citizenship tests and classes the labelling and lived experiences of immigrants outsiders and the media's interpretation of this process The book brings together scholars from a wide range of specialities who accentuate language and raise issues that often remain unarticulated or masked in the media The contributors highlight how governmental policies and practices affect native born citizens and residents differently on the basis of legal status Furthermore the authors observe that many issues that are typically seen as affecting immigrants such as language policies nationalist identities and feelings of belonging also impact first generation native born citizens who are seen as or see themselves as outsiders

Handbook of Citizenship Studies Engin F Isin, Bryan S Turner, 2002 The contributions of Woodiwiss Lister and Sassen are outstanding but not unrepresentative of the many merits of this excellent collection The British Journal of Sociology From women s rights civil rights and sexual rights for gays and lesbians to disability rights and language rights we have experienced in the past few decades a major trend in Western nation states towards new claims for inclusion This trend has echoed around the world from the Zapatistas to Chechen and Kurdish nationalists social and political movements are framing their struggles in the languages of rights and recognition and hence of citizenship Citizenship has thus become an increasingly important axis in the social sciences Social scientists have been rethinking the role of political agent or subject Not only are the rights and obligations of citizens being redefined but also what it means to be a citizen has become an issue of central concern As the process of globalization produces multiple diasporas we can expect increasingly complex relationships between homeland and host societies that will make the traditional idea of national citizenship problematic As societies are forced to manage cultural difference and associated tensions and conflict there will be changes in the processes by which states allocate citizenship and a differentiation of the category of citizen This book constitutes the most authoritative and comprehensive guide to the terrain Drawing on a wealth of interdisciplinary knowledge and including some of the leading commentators of the day it is an essential guide to understanding modern citizenship About the editors Engin F Isin is Associate Professor of Social Science at York University His recent works include *Being Political* Genealogies of Citizenship Minnesota 2002 and with P K Wood *Citizenship and Identity* Sage 1999 He is the Managing Editor of *Citizenship Studies* Bryan S Turner is Professor of Sociology at the University of Cambridge He has written widely on the sociology of citizenship in *Citizenship and Capitalism* Unwin Hyman 1986 and *Citizenship and Social Theory* Sage 1993 He is also the author of *The Body and Society* Sage 1996 and *Classical Sociology* Sage 1999 and has been editor of *Citizenship Studies* since 1997

Citizenship Peter Kivisto, Thomas Faist, 2015-08-12 A significant addition to the growing body of literature on citizenship this wide ranging overview focuses on the importance and changing nature of citizenship It introduces the varied discourses and theories that have arisen in recent years and looks toward future scholarship in the field Offers an analytical assessment of the various thematic discourses and provides guidance in pulling together those discrete themes into a larger more comprehensive framework Identifies the four broadly conceived themes that shape the many discourses on contemporary citizenship inclusion erosion withdrawal and expansion Includes a thorough introduction to the subject **The Human Face of Global Mobility** Adrian Favell, 2017-07-12 Alongside flows of trade and capital the free movement of professionals technical personnel and students is seen as a key aspect of globalization Yet not much detailed empirical research has been completed about the trajectories and experiences of these highly skilled or highly educated international migrants What little is known about these forms of global mobility and the politics that surround them contrasts with the abundant theories and accounts of other types of international migration such as low income economic migration from less developed to core countries in the international political economy Drawing on the work of a long standing discussion group at the Center for Comparative and Global Research of UCLA s International Institute this collection bridges conventional methodological divides bringing together political scientists sociologists demographers and ethnographers It explores the reality behind

assumptions about these new global migration trends It challenges widely held views about the elite characteristics of these migrants the costs and consequences of the brain drain said to follow from the migration of skilled workers the determinants of national policies on high skilled migrants and the presumed effortlessness of professional mobility in an integrating world The volume also sheds new light on international student migration the politics of temporary non immigrant workers in the United States new international forms of regulating movement and the realities of the everyday lives of multinational employees in the world s transnational cities Key differences between the regional contexts of this migration in Europe North America and the Asia Pacific are also emphasized

The Road to Citizenship Sofya Aptekar, 2015-03-18 Between 2000 and 2011 eight million immigrants became American citizens In naturalization ceremonies large and small these new Americans pledged an oath of allegiance to the United States gaining the right to vote serve on juries and hold political office access to certain jobs and the legal rights of full citizens In The Road to Citizenship Sofya Aptekar analyzes what the process of becoming a citizen means for these newly minted Americans and what it means for the United States as a whole Examining the evolution of the discursive role of immigrants in American society from potential traitors to morally superior supercitizens Aptekar s in depth research uncovers considerable contradictions with the way naturalization works today Census data reveal that citizenship is distributed in ways that increasingly exacerbate existing class and racial inequalities at the same time that immigrants own understandings of naturalization defy accepted stories we tell about assimilation citizenship and becoming American Aptekar contends that debates about immigration must be broadened beyond the current focus on borders and documentation to include larger questions about the definition of citizenship Aptekar s work brings into sharp relief key questions about the overall system

does the current naturalization process accurately reflect our priorities as a nation and reflect the values we wish to instill in new residents and citizens Should barriers to full membership in the American polity be lowered What are the implications of keeping the process the same or changing it Using archival research interviews analysis of census and survey data and participant observation of citizenship ceremonies *The Road to Citizenship* demonstrates the ways in which naturalization itself reflects the larger operations of social cohesion and democracy in America *Rethinking Ethnicity* Eric P.
