Fundamentals of Gnostic Education Samael Aun Weor, 2025-02-01 The fundamental education is the science of the consciousness that allows us to discover our relationship with human beings nature and all things The Greek word gnosis means knowledge The higher meaning of gnosis is knowledge of facts acquired from personal experience Gnosis is genuine knowledge of the truth To understand truth one must experience it The greatest human beings in every field philosophy science art and religion did not imitate memorize or remain limited by popular ideas instead they sought gnosis to know the facts for themselves and in finding the facts they changed the world for the better Unfortunately such people are rare The problems afflicting individuals and society today have a simple root cause we have not yet learned how to think Instead people today are taught to memorize and imitate Schools teachers and parents today emphasize what we should think rather than teaching how to think question and analyze so we can recognize the facts deal with them intelligently and experience the truth for ourselves What is the value of accumulating much knowledge within our minds if we continue to be confused What is the value of technical and industrial skills if we use them for the destruction of our fellows It is worthless to receive instruction to attend classes to study if in the process of our daily living we are miserably destroying one another Indeed the true objective of a fundamental education must be to create true men and women who because of their psychological integration are cognizant and intelligent When our consciousness is liberated from the conditioning and restrictions imposed upon it by imitation bad

habits defects vices and mistaken beliefs then we can see and experience the truth for ourselves In this way we no longer need to believe anything or follow anyone but are free to express our fundamental nature and realize our full potential This book guides us towards that experience that gnosis We need the union of superior logic and tremendous love heart and mind balanced by conscious awareness of facts This psychological equilibrium empowers us to alter the painful conditions that we suffer within Therefore we need a gnostic education an education based on personal experience of the truth **The Gelug/Kagyu Tradition of Mahamudra** H.H. the Fourteenth Dalai Lama,Alexander Berzin,1997-01-01 Mahamudra the great sealing nature refers to systems of meditation on both the conventional and ultimate natures of the mind These have been transmitted through the Kagyu Sakya and Gelug traditions of Tibetan Buddhism Within the Gelug Mahamudra teachings occur in a combined Gelug Kagyu tradition exemplified in the First Panchen Lama s Root Text for the Precious Gelug Kagyu Tradition of Mahamudra The work presented here contains two brilliant commentaries by the Dalai Lama The first is a teaching based directly on the First Panchen Lama s root text In the second His Holiness bases his discussion on the First Panchen Lama s own commentary to this text The book opens with an overview of Mahamudra by Alexander Berzin that discusses the relation of mind appearances and reality and offers practical techniques for overcoming problems of excessive worry anxiety and disturbing thoughts This treasury of practical instruction contains extensive teachings on the nature of mind the development of shamata sutra and tantra levels of Mahamudra and the compatibility of Dzogchen and Anuttarayoga Tantra **Mind Sky** Jakusho Kwong-roshi,2022-05-10 A collection of talks photos and calligraphy by Jakusho Kwong roshi exploring the profound beauty of Zen history and practice nature and the philosophy of the ancient Zen master Eihei Dogen In Zen meditation anything that comes in your mind will eventually leave because nothing is permanent A thought is like a cloud moving across the blue sky Nothing can disturb that all encompassing vastness This is the Dharma In a collection of talks and anecdotes Jakusho Kwong roshi a Dharma successor of Shunryu Suzuki roshi presents his approach to Buddhist teaching Containing photos of Kwong roshi with his teachers as well as a selection of his vibrant calligraphy Mind Sky explores the profound beauty of Zen history and practice nature and the philosophy of the ancient Zen master Eihei Dogen With an elegant simplicity Jakusho Kwong roshi shows how Zen is experiential rather than intellectual And with persistent practice realization is already yours **Buddhist Funeral Cultures of Southeast Asia and China** Paul Williams,Patrice Ladwig,2012-04-26 Death rituals and Buddhist imagery of the afterlife have been central to the development and spread of Buddhism as a social and textual tradition Bringing together ethnographic historical and theoretically informed accounts the book presents in depth studies of the Buddhist funeral cultures of mainland Southeast Asia and China Who, in Fact, You Really Are Cosmic Awareness,2008-10-28 Ever wonder about the meaning of life Why we re here What the Universe is all about The force that expressed itself through Jesus Buddha Krishna Mohammed Edgar Cayce and other great avatars who served as channels for what is commonly referred to as God communicates again today as the world begins to enter a period
