From Hegel To Terrorism:

From Hegel to Terrorism, and Other Essays on the Dynamic Nature of Philosophy James Kern Feibleman, 1985 *From Hegel to Marx* Sidney Hook, 1994 In this classic work originally published in 1932 Hook set out to demonstrate to the radical and conservative philosophers and activists of the 1920s and 1930s that Marx was a systematic thinker who developed a sound set of philosophical principles Bringing Normativity into Critical Terrorism Studies Alice Martini, 2020-12-17 This book explores and inquiries into the interrelation between normativity and Critical Terrorism Studies CTS from a wide range of critical views The volume draws together authors with very different positions and understandings of normativity and policy implementations in relation to countering terrorism to offer the reader a wide range of perspectives and views on this topic As such the book is aimed at interrogating the concept of normativity in CTS from a wide range of theoretical angles but also at incorporating within the CTS agenda new debates and critiques In its chapters the book covers debates that go from more philosophical theoretical and ethical discussions to questions revolving around the importance and need of being policy relevant for CTS scholars All in all this volume brings together chapters joining the debate on CTS main theoretical tenants and the role of critical scholars in counter terrorism and prevention policies Covering a broad spectrum of approaches and perspectives authors in this book give different answers to central questions such as how can we rethink CTS What is the role of the critical terrorism studies community in countering terrorism The chapters in this book were originally published in the journal Critical Studies on Terrorism **Hegel, History, and Interpretation** Shaun Gallagher, 1997-06-30 *Hegel History and Interpretation* is a collection of essays that extend critical discussions of Hegel into contemporary debates about the nature of interpretation and theories of philosophical hermeneutics Essays by Susan Armstrong John D Caputo William Desmond Robert J Dostal Shaun Gallagher Philip T Grier H S Harris Walter Lammi George R Lucas Jr Michael Prosch Tom Rockmore and P Christopher Smith explore difficult issues concerning historical interpretation the nature of hermeneutics at the end of metaphysics the social and critical function of reason and the inadequacy of Hegel's interpretation of the experience of otherness In the course of these essays Hegel is made to converse with Kierkegaard Nietzsche and Heidegger as well as with contemporary theorists such as Gadamer Habermas Foucault and Derrida Thus the contributors explore both the themes that form the common ground between Hegelian philosophy and contemporary interpretation theory and the mixed reception of Hegel's philosophy into contemporary discussions about history deconstruction critical theory and alterity **The Reason of Terror** Kem Crimmins, Herbert De Vriese, 2006 *The Reason of Terror* pursues the need for philosophical responses attuned to the complexity of terrorism Driven by the conviction that terrorism is a worthy topic for philosophical reflection the volume presents careful conceptual analyses of terrorism while demonstrating that the relation between reason and terrorism is deeply rooted in the history of philosophy In a series of historical essays that begins with Lucretius reflections on terror includes Machiavelli and Hegel's political analyses and

continues through Arendt's investigation of terror and ideology the authors counter a prevalent tendency to think that terrorism is irrational and hence beyond the pale of philosophical reflection The collection continues by investigating contemporary terrorism's impact upon subjectivity communication and rhetoric and the practice of philosophy Taken as a whole the essays demonstrate not only philosophy's ability to think terrorism but also terrorism's impact on philosophy

The relevance of Hegel's Phenomenology in conflict resolution theory Stefano Montaruli, 2017-11-10 TESTO IN INGLESE Il concetto di conflitto un tema cruciale e trasversale a vari ambiti ampiamente trattato sia in filosofia che nelle recenti teorie di gestione aziendale il cui problema della risoluzione costituisce l'argomento chiave della discussione socio politica moderna La presente tesi di ricerca condotta totalmente in inglese nel quadro di un Master in gestione internazionale delle risorse umane per la Business School francese ESC Rennes mette in luce la profonda connessione esistente tra la celebre teoria del conflitto di Thomas Kilmann in un contesto organizzativo e la precedente interpretazione dialettica delle relazioni data dal metodo fenomenologico di Hegel in ambito storico scientifico a cavallo tra il noto sistema triadico e una logica pentadica

Hegel's Political Philosophy Thom Brooks, 2012-11-30 A new and significantly expanded edition of the first systematic reading of Hegel's political philosophy Hegel on Political Identity Lydia L. Moland, 2011-04-30 In *Hegel on Political Identity* Lydia Moland provocatively draws on Hegel's political philosophy to engage sometimes contentious contemporary issues such as patriotism national identity and cosmopolitanism Moland argues that patriotism for Hegel indicates an attitude toward the state whereas national identity is a response to culture The two combine Hegel claims to enable citizens to develop concrete freedom Moland argues that Hegel's account of political identity extends to his notorious theory of world history she also proposes that his resistance to cosmopolitanism be reassessed in response to our globalized world By focusing on Hegel's depiction of political identity as a central part of modern life Moland shows the potential of Hegel's philosophy to address issues that lie at the heart of ethical and political philosophy *Routledge Handbook of Counterterrorism and Counterinsurgency in Africa* Usman A. Hegel's Grammatical Ontology Jeffrey Reid,2021-06-17 Reading The Phenomenology of Spirit through a linguistic lens Jeffrey Reid provides an original commentary on Hegel s most famous work Beginning with a close analysis of the preface where Hegel himself addresses the book s difficulty and explains his tortured language in terms of what he calls the speculative proposition Reid demonstrates how every form of consciousness discussed in The Phenomenology involves and reveals itself as a form of language Elucidating Hegel s speculative proposition which consists of the reversal of the roles of the subject and predicate in such a way that the copula of the proposition becomes the lively arena of dialogical ambiguity and hermeneutical openness this book offers new onto grammatical readings of every chapter of The Phenomenology Not only does this bring a new understanding to Hegel s foundational text but the linguistic approach further allows Reid to unpack its complexity by relating it to contemporary contexts that share the same language structures that we discover in Hegel Amongst many others this includes Hegel s account of sense certainty and the critique of the immediacy of consumer culture today

Hegel's Philosophy of Spirit Peter G. Stillman,1987-01-01 This book focuses on Hegel s philosophy of spirit his major concept and the core of his mature system It does not so much define Geist as it does illustrate its many forms and manifestations It is a broad ranging examination of Volume III of Hegel s Encyclopedia delineating his radical break with previous philosophy and illuminating the heart of his thought Several themes recur the meaning and content of recognition and intersubjectivity religion Hegel s predecessors and his contemporary successors or contrasts Hegel s intentions and his audacity are made both clear and sharp in this work

Consciousness and Reality: Hegel's Philosophy of Subjectivity J.L. Navickas,2012-12-06 With the rise of analytical philosophy the criticism against Hegelianism has become increasingly shrill and signs of an embarrassment that Hegel s philosophy should ever have arisen are noticeable in such influential works as those of Karl Popper and Hans Reichenbach to mention but a few However many contemporary philosophers stress what is called subjectivity conceiving reality as susceptible of methodical analysis only to the extent that it is in and for the subject What is more they not only insist on the importance of the subject for philosophy but maintain that the subject must be conceived as the principal determinative of true objectivity Since knowledge depends for its possibility on the inseverable correlatives of consciousness and reality they would grant that a proper importance must be given to both subject and object Still exemplifying the relational principle

within the unity of a dual structure the subject serves as an exclusive agent that provides ingress into the meaning of the object

Hegel's Philosophy Of Politics Harry Brod, 2019-04-05 This valuable book makes a significant contribution to the current revival of interest in Hegel Brod demonstrates the central unifying role the collective historical social consciousness plays in Hegel's thought But far from leading to totalitarian conclusions this emphasis upon the social actually leads Hegel toward a third way between the an

The Making of a Terrorist Jeffrey Champlin, 2014-12-31 In *The Making of a Terrorist* Jeffrey Champlin examines key figures from three canonical texts from the German language literature of the late eighteenth and early nineteenth centuries Goethe's *Gotz von Berlichingen* Schiller's *Die Rauber* and Kleist's *Michael Kohlhaas* Champlin situates these readings within a larger theoretical and historical context exploring the mechanics aesthetics and poetics of terror while explicating the emergence of the terrorist personality in modernity In engaging and accessible prose Champlin explores the ethical dimensions of violence and interrogates an ethics of textual violence

Divergent Paths: The Hegelian foundations of Marx's method Norman Levine, 2006-01-01 *Divergent Paths* is the first in a series of three volumes that explores the historiography of the relationship between Hegel and Marx it sets the terms of the relationship between Marx and Engels and explores the genesis of the theories of Marxism and Engelsism from the late 19th century to the present day Given the vast pool of contemporary post Marxist theoretical work a study like this is sorely needed This is the most thorough exploration of Marx's ideas from Hegel through to the present day and is absolutely essential reading

The Essence of Islamist Extremism Irm Haleem, 2011-11-23 This book provides a critical and a conceptual analysis of radical Islamist rhetoric drawn from temporally and contextually varied Islamist extremist groups challenging the popular understanding of Islamist extremism as a product of a clash of civilizations Arguing that the essence of Islamist extremism can only be accurately understood by drawing a distinction between the radical Islamist explanations and justifications of violence the author posits that despite the radical Islamist contextualization of violence within Islamic religious tenets there is nothing conceptually or distinctly Islamic about Islamist extremism She engages in a critical analysis of the nature of reason in radical Islamist rhetoric asserting that the radical Islamist explanations of violence are conceptually reasoned in terms of existential Hegelian struggles for recognition as fundamentally struggles against oppression and the radical Islamist justifications of violence are conceptually reasoned in terms of moral consequentialism With a detailed analysis of Islamist extremist discourse spanning a wide range of contexts this book has a broad relevance for scholars and students working in the field of Islamic studies religious violence philosophy and political theory
