**Supreme Court of the State of New York , Official Reports of the Supreme Court** United States. Supreme Court,1999 **Murdering Indians** Peter G. Beidler,2013-10-31 In February of 1897 a family of six four generations including twin infant sons and their aged great grandmother was brutally murdered in rural North Dakota The weapons used were a shotgun an axe a pitchfork a spade and a club Several Dakota Indians from the nearby Standing Rock reservation were arrested and one was tried pronounced guilty and sentenced to be hanged The conviction was reversed by the state supreme court which ordered a new trial Only a week later however a mob of thirty angry men broke into the county jail in the middle of the night dragged three of the five accused Indians out and hanged them from a butcher s windlass These events were fodder for hundreds of newspaper articles letters and legal documents Many of those documents including the transcript of the trial convicting one of the Indians and the statement by the state supreme court reversing the conviction are collected in this work and with the author s commentary tell a disturbing tale of racism and revenge in the pioneer West one that provided the basic story line for Ojibwe novelist Louise Erdrich s acclaimed novel *The Plague of Doves* Criminal Procedure Matthew Lippman,2015-12-08 This contemporary comprehensive case driven textbook from award winning teacher Matthew Lippman covers the constitutional foundation of criminal procedure and includes numerous cases selected for their appeal to today s students Organized around the challenge of striking a balance between rights and liberties *Criminal Procedure Third Edition* emphasizes diversity and its impact on how laws are enforced Built in learning aids including You Decide scenarios Legal Equations and *Criminal Procedure in the News* features engage students and help them master key concepts Fully updated throughout the Third Edition includes today s most recent legal developments and decisions *The Psychology and Law of Criminal Justice Processes* Roger J. R. Levesque,2006 Psychological science now reveals much about the law s response to crime This is the first text to bridge both fields as it presents psychological research and theory relevant to each phase of criminal justice processes The materials are divided into three parts that follow a comprehensive introduction The introduction analyses the major legal themes and values that guide criminal justice processes and points to the many psychological issues they raise Part I examines how the legal system investigates and apprehends criminal suspects Topics range from the identification searching and seizing to the questioning of suspects Part II focuses on how the legal system establishes guilt To do so it centres on the process of bargaining and pleading cases assembling juries providing expert witnesses and considering defendants mental states Part III focuses on the disposition of cases Namely that part highlights the process of sentencing defendants predicting criminal tendencies treating and controlling offenders and determining eligibility for such extreme punishments as the death penalty The format seeks to give readers a feeling for the entire criminal justice process and for the role psychological science has and can play in it
