Floods Of Fear:

Flood Planning Jeroen Warner,2011-02-28 Floods are amongst the most common and devastating natural disasters In the wake of such an event the pressure to initiate flood protection schemes that will provide security is enormous and politicians promise quick solutions in the national interest Jeroen Warner examines a number of such projects from around the world the Middle East South Asia and Western Europe aimed at the prevention of serious flooding Each provoked a level of controversy unforeseen by its initiators with the result that schemes were shelved were not completed or simply failed The author shows how such projects inevitably become politicized as different stakeholders seek to promote their interests
