

On the wings of the night  
As the daytime is stirring  
Where the speechless unite  
In a silent accord  
Using words you will find are strange  
Mesmerized as they light the flame  
Feel the new wind of change  
On the wings of the night

**The Nature of Shamanism and the Shamanic Story** Michael Berman,2009-03-26 The book makes out a case for the introduction of a new genre of tale the shamanic story which has either been based on or inspired by a shamanic journey or contains a number of the elements that are typical of such a journey The stories featured are the Book of Jonah from the Old Testament two traditional stories from the Republic of Georgia *The Earth will take its Own* and *Davit* a contemporary German tale *Bundles* and the Korean story of *Shimchong the Blindman s Daughter* By making use of textual material from a number of different cultures and times the intention is to highlight the pervasive influence shamanism has had and to show how the new genre being proposed is a universal one The research questions addressed include 1 defining what shamanism is deciding whether it should be classified as a religion a methodology or a way of life 2 considering whether a case can be

made out for the introduction of a new genre of tale and if so what its characteristics are It is hoped the book will be of interest not only to those involved in the study of shamanism but also to those whose interest is in the study of literary texts Since the old bearers of shamanic traditions quite often were and even today are illiterate the study of their folklore epic songs laments narratives undoubtedly provides a rich source for research
