Fiore, 2012-05-31 In an era of standards and norms where assessment tends to minimize or dismiss individual differences and results in punitive outcomes or no action at all *Assessment of Young Children* provides teachers with an approach to assessment that is in the best interest of both children and their families Author Lisa B Fiore explores a variety of ways to study and assess young children in their natural environments while stressing the importance of bringing children and families into the process This lively text helps the reader learn how to cultivate developmentally appropriate practice create appropriate expectations examine children's work interact in groups and improve their teacher behavior Accounts of real experiences from children families teachers and administrators provide on the ground models of assessment strategies and demonstrate how children are affected *Assessment of Young Children* explores both standardized and authentic assessment work sampling systems and observation skills Readers will walk away with strategies for communicating information about children and portfolio assessment and how the use of formal and informal methods of observation documentation and assessment are connected to teacher and student inquiry *Assessment of Young Children* encourages an assessment strategy where the child remains the focus and explores how collaboration with children families and colleagues creates an image not
