The Flowering New England Van Wyck Brooks, 1940 **First Editions of New England Authors, 1815-1865** Goodspeed's Book Shop (Boston, Mass.), 1937 First Edition of New England Authors, 1815-1865 Goodspeed's Book Shop (Boston, Mass.), Literature in New England Van Wyck Brooks, 1944 *Historical Dictionary of New England* Peter C. Holloran, 2017-05-01 New England the most clearly defined region in the United States includes the six states of Connecticut Maine Massachusetts New Hampshire Rhode Island and Vermont First colonized by the French in 1604 and the British in 1607 the New England colonies were the first to secede from the British Empire and were among the first states admitted to the union No region has claimed more presidents as native sons seven or produced more men and women of exceptional accomplishment and fame Many Americans see New England as a touchstone for the founding ideas of the nation and the region served as a source of inspiration for many artists and writers This second edition of Historical Dictionary of New England contains a chronology an introduction appendix and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities places institutions and events This book is an excellent resource for

students researchers and anyone wanting to know more about New England **Of Herds and Hermits** Terry Reed,2009

On the Battlefield of Merit Daniel R. Coquillette,Bruce A. Kimball,2015-10-23 Harvard Law School pioneered educational ideas including professional legal education within a university Socratic questioning and case analysis and the admission and training of students based on academic merit On the Battlefield of Merit offers a candid account of a unique legal institution during its first century of influence The Character of God Thomas E. Jenkins,1997-12-04 Educated people have become bereft of sophisticated ways to develop their religious inclinations A major reason for this is that theology has become vague and dull In The Character of God author Thomas E Jenkins maintains that Protestant theology became boring by the late nineteenth century because the depictions of God as a character in theology became boring He shows how in the early nineteenth century American Protestant theologians downplayed biblical depictions of God s emotional complexity and refashioned his character according to their own notions stressing emotional singularity These notions came from many sources but the major influences were the neoclassical and sentimental literary styles of characterization dominant at the time The serene benevolence of neoclassicism and the tender sympathy of sentimentalism may have made God appealing in the mid 1800s but by the end of the century these styles had lost much of their cultural power and increasingly came to seem flat and vague Despite this both liberal and conservative theologians clung to these characterizations of God throughout the twentieth century Jenkins argues that a way out of this impasse can be found in romanticism the literary style of characterization that supplanted neoclassicism and sentimentalism and dominated American literary culture throughout the twentieth century Romanticism emphasized emotional complexity and resonated with biblical depictions of God A few maverick religious writers such as Harriet Beecher Stowe W G T Shedd and Horace Bushnell did devise emotionally complex characterizations of God and in some cases drew directly from romanticism But their strange and sometimes shocking depictions of God were largely forgotten in the twentieth century s use theological as a pejorative term implying that an argument is needlessly Jenkins urges a reassessment of their work and a greaterin understanding of the relationship between theology and literature Recovering the lost literary power of American Protestantism he claims will make the character of God more compelling and help modern readers appreciate the peculiar power of the biblical characterization of God

Nature and the American Hans Huth, *Nature and the American* Hans Huth,1990-01-01 Hans Huth was for many years Curator of Decorative Arts at the Art Institute of Chicago and a consultant for the U S National Park Service For this new Bison Book edition Douglas H Strong has written an introduction discussing recent developments in the environmental movement and the contribution of Nature and the American to the burgeoning crusade for nature **Puritan Boston and Quaker Philadelphia** E. Digby Baltzell,2017-07-28 Based on the biographies of some three hundred people in each city this book shows how such distinguished Boston families as the Adamses Cabots Lowells and Peabodys have produced many generations of men and women who have made major contributions to the intellectual educational and political life of their

state and nation At the same time comparable Philadelphia families such as the Biddles Cadwaladers Ingersolls and Drexels have contributed far fewer leaders to their state and nation From the days of Benjamin Franklin and Stephen Girard down to the present what leadership there has been in Philadelphia has largely been provided by self made men often like Franklin born outside Pennsylvania Baltzell traces the differences in class authority and leadership in these two cities to the contrasting values of the Puritan founders of the Bay Colony and the Quaker founders of the City of Brotherly Love While Puritans placed great value on the calling or devotion to one's chosen vocation Quakers have always placed more emphasis on being a good person than on being a good judge or statesman Puritan Boston and Quaker Philadelphia presents a provocative view of two contrasting upper classes and also reflects the author's larger concern with the conflicting values of hierarchy and egalitarianism in American history

Writers of the American Renaissance Denise Knight, 2003-12-30 The American literary canon has undergone revision and expansion in recent years and our notions of the 19th century renaissance have been reevaluated Mainstream anthologies have been revised to reflect the expanding literary canon yet resources for readers have remained widely scattered This book expands earlier definitions of the 19th century American Renaissance as represented by canonical writers such as Emerson and Poe covering writers who published popular fiction and dominated the literary marketplace of the day Included is generous coverage of women writers and writers of color The volume provides alphabetically arranged entries for more than 70 writers of the period including Louisa May Alcott Emily Dickinson Frederick Douglass Margaret Fuller Nathaniel Hawthorne Herman Melville Harriet Beecher Stowe Henry David Thoreau Walt Whitman and many more Each entry was written by an expert contributor and includes a brief biography a discussion of major works and themes a survey of the writer's critical reception and primary and secondary bibliographies
