Interventions 2020 Michel Houellebecq, 2022-03-02 The death of God in the West was the prelude to a metaphysical soap opera that continues to this day Christianity's masterstroke was to combine a fierce belief in the individual with the promise of eternal participation in the Absolute When that dream evaporated various attempts were made to offer the individual a minimum of being The latest of these attempts is advertising which seeks to arouse desire and transform the subject into a docile phantom doomed to follow advertising's every whim But like all previous attempts this superficial participation in the world fails and unhappiness and depression continue to spread We can all produce a cold revolution in ourselves however by stepping outside the flow of information and advertising We need to take some time out unplug the television turn off our smartphones stop buying stuff and adopt an aesthetic attitude to the world We just need to stay still for a few seconds This is one of the key themes developed by Michel Houellebecq in this collection of his texts and interviews from the last three decades Here he explains and elaborates his point of view discusses his novels and addresses a wide range of topics from politics religion and literature to suicide euthanasia and paedophilia An indispensable book for anyone interested in the work of one of the most widely read and controversial novelists of our time **Andy Warhol** Galerie Thaddaeus Ropac (Salzburg, Austria), 2006
