Flowers of the Himalaya Adam Stainton, 1988 This supplement to Flowers of the Himalaya Oxford 1984 covers species that were not included in the previous book with much new photographic material that has since become available It also includes illustrations of species that were given only a written description or which were illustrated by simple drawings Many tropical species and some exotics are included In all 584 species are described and illustrated in color In conjunction with the previous volume which covered more than a thousand species this supplement provides the most comprehensive field guide available for the plants of the Himalayan region **Wildflowers** Carol Kopolow, 1992 **Flowers of the Himalaya** Adam Stainton, 1988 584 species are described and illustrated in this supplement to Flowers of the Himalaya which was published in 1984 This book contains recent photographic material of species not previously covered or not previously illustrated and includes many tropical species and some exotics Bioprospecting of Tropical Medicinal Plants Karuppusamy

Arunachalam, Xuefei Yang, Sreeja Puthanpura Sasidharan, 2023-08-30 This book focuses on natural products in particular medicinal plants and their derived products as an indispensable source of bioactive molecules that serve as either drug candidates or lead compounds for drug design and discovery There are several advantages for plant derived therapeutics including wide availability diverse pharmacological actions and a generally good profile of safety and tolerability Over the recent years there have been numerous reports from clinical studies testifying the efficacy and safety of medicinal plants and phytochemicals in treating human diseases A plethora of basic studies has also unraveled molecular mechanisms underlying the health benefits of herbal medicines Nevertheless issues such as identification of bioactive ingredients standardization of the products and drug interactions remain to be systematically documented Bioprospecting of Tropical Medicinal Plants represents a comprehensive analysis of natural products mainly medicinal plants and phytochemicals It includes detailed medicinal properties and pharmacological action from in vitro models to clinical trials The goal is to present the readers a carefully curated collection of plant derived natural products and their underlying molecular mechanisms Ethnobotany of the Himalayas Ripu M. Kunwar, Hassan Sher, Rainer W. Bussmann, 2021-07-29 Research in recent years has increasingly shifted away from purely academic research and into applied aspects of the discipline including climate change research conservation and sustainable development It has by now widely been recognized that traditional knowledge is always in flux and adapting to a quickly changing environment Trends of globalization especially the globalization of plant markets have greatly influenced how plant resources are managed nowadays While ethnobotanical studies are now available from many regions of the world no comprehensive encyclopedic series focusing on the world's mountain regions is available in the market Scholars in plant sciences worldwide will be interested in this website and its dynamic content The field and thus the market of ethnobotany and ethnopharmacology has grown considerably in recent years Student interest is on the rise attendance at professional conferences has grown steadily and the number of professionals calling themselves ethnobotanists

has increased significantly the various societies like the Society for Economic Botany the International Society of Ethnopharmacology the Society of Ethnobiology and the International Society for Ethnobiology currently have thousands of members Growth has been most robust in BRIC countries This new MRW on Ethnobotany of the Himalayas takes advantage of the increasing international interest and scholarship in the field of mountain research It includes the best and latest research on a full range of descriptive methodological theoretical and applied research on the most important plants in the Himalayas Each contribution is scientifically rigorous and contributes to the overall field of study
