Winston, 2018-05-17 This book examines the scriptural concepts that apply to leading and managing people It begins with a chapter that contrasts leaders managers and administrators and the roles they each play The book then presents the seven virtues from the Beatitudes and how these virtues result in leaders and managers behaviors The book then reviews the 15 characteristics of what love is and what love is not from the 1 Corinthians 12 passage The book presents the four modalities of leaders as conveyed in the Ezekiel 1 and 10 chapters as well as Revelations 4 where Ezekiel and John describe the four faces of the winged beings The modalities are described in terms of contemporary leaders interacting with employees in the workplace A chapter follows based on the Parable of the Vineyard and how leaders should provide a minimum living wage The book then compares the wife in Proverbs 31 to a good leader manager in today's contemporary organization The book ends with an admonition from Ecclesiastes 3:1 about the need for leaders managers to step away and not meddle when the leader manager's role is finished Throughout the book composite case examples provide practical application of the concepts to contemporary organizations

**Complex Adaptive Leadership** Nick Obolensky, 2024-11-01 Since its publication *Complex Adaptive Leadership* has become a Gower bestseller that has been taught in corporate leadership programmes business schools and universities around the world to high acclaim In this updated paperback edition Nick Obolensky argues that leadership should not be something only exercised by nominated leaders It is a complex dynamic process involving all those engaged in a particular enterprise The theoretical background to this lies in complexity science and chaos theory spoken and written about in the context of leadership for the last 20 years but still little understood We all seem intuitively to know leadership isn't what it used to be but we still cling to old assumptions which look anachronistic in changing and challenging times Nick Obolensky has practised researched and taught leadership in the public private and voluntary sectors In this exciting book he brings together his knowledge of theory his own experience and the results of 19 years of research involving 2 500 executives in 40 countries around the world The main conclusion from that research is that the more complex things become the less traditional directive leadership is needed Those operating in the real world nonetheless need ways of coping The book is focused on helping practitioners struggling to interpret and react to increasingly VUCA Volatile Uncertain Complex Ambiguous times The book will particularly appeal to practitioners wishing to improve their leadership effectiveness as well as for students and researchers in the field of leadership
