## **Flightdeck Performance The Human Factor:**

*Flightdeck Performance* David O'Hare, Stanley Nelson Roscoe, 1990 En gennemgang af kontroversielle og vigtige forhold i forbindelse med klargøring og gennemførelse af flyvningen i moderne luftfart herunder samarbejdet i cockpit ved godt airmanship og korrekt udnyttelse af hjælpemidler til rådighed

**Human Performance on the Flight Deck** Don Harris, 2016-12-05 Taking an integrated systems approach to dealing exclusively with the human performance issues encountered on the flight deck of the modern airliner this book describes the interrelationships between the various application areas of human factors recognising that the human contribution to the operation of an airliner does not fall into neat pigeonholes The relationship between areas such as pilot selection training flight deck design and safety management is continually emphasised within the book It also affirms the upside of human factors in aviation the positive contribution that it can make to the industry and avoids placing undue emphasis on when the human component fails The book is divided into four main parts Part one describes the underpinning science base with chapters on human information processing workload situation awareness decision making error and individual differences Part two of the book looks at the human in the system containing chapters on pilot selection simulation and training stress fatigue and alcohol and environmental stressors Part three takes a closer look at the machine the aircraft beginning with an examination of flight deck display design followed by chapters on aircraft control flight deck automation and HCI on the flight deck Part four completes the volume with a consideration of safety management issues both on the flight deck and across the airline the final chapter in this section looks at human factors for incident and accident investigation The book is written for professionals within the aviation industry both on the flight deck and elsewhere for post graduate students and for researchers working in the area

**Human Factors on the Flight Deck** Katie J. Parnell, Victoria A. Banks, Rachael A. Wynne, Neville A. Stanton, Katherine L. Plant, 2023-05-01 This book presents the Human Factors methodologies and applications thereof that can be utilised across the design modelling and evaluation stages of the design lifecycle of new technologies entering future commercial aircraft As advances are made to the architecture of commercial aircraft cockpits Human Factors on the Flight Deck argues that it is vitally important that these new interfaces are safely incorporated and designed in a way that is usable to the pilot Incorporation of Human Factors is essential to ensuring that engineering developments to avionic systems are integrated such that pilots can maintain safe interactions while gaining information of value Case study examples of various technological advancements during their early conceptual stages are given throughout to highlight how the methods and processes can be applied across each stage The text will be useful for professionals graduate students and academic researchers in the fields of aviation Human Factors and ergonomics

**Human Factors for Civil Flight Deck Design** Don Harris, 2017-03-02 Human error is now the main cause of aircraft accidents However in many cases the pilot simply falls into a trap that has been left for him/her by the poor design of the flight deck This book addresses the human factors issues pertinent to the design of modern flight decks Comprising of

invited chapters from internationally recognised experts in human factors and flight deck design contributions span the world of industry government research establishments and academia The book brings together the practical experience of professionals across the human factors and flight deck design disciplines to provide a single all encompassing volume Divided into two main parts part one of the book examines the benefits of human engineering flight deck design process head down display design head up display design auditory warning systems flight control systems control inceptors and aircraft handling qualities flight deck automation and human computer interaction on the flight deck and anthropometrics for flight deck design Part two is concerned with flight deck evaluation the human factors evaluation of flight decks human factors in flight test and the regulatory viewpoint Of interest to all human factors professionals operating in high technology high risk dynamic industries as well as those engaged directly in aerospace activities the book will also be of key importance to engineers with an interest in human factors for flight deck design academics and third year and post graduate human factors ergonomics and psychology students
