Adaptation in Visual Culture Julie Grossman, R. Barton Palmer, 2017-12-06 This book gathers together essays written by leading scholars of adaptation studies to explore the full range of practices and issues currently of concern in the field The chapters demonstrate how content and messaging are shared across an increasing number of platforms whose interrelationships have become as intriguing as they are complex Recognizing that a signature feature of contemporary culture is the convergence of different forms of media the contributors of this book argue that adaptation studies has emerged as a key discipline that unlike traditional literary and art criticism is capable of identifying and analyzing the relations between source texts and adaptations created from them Adaptation scholars have come to understand that these relations not only play out in individual case histories but are also institutional and this collection shows how adaptation plays a key role in the functioning of cinema television art and print media The volume is essential reading for all those interested both in adaptation studies and also in the complex forms of intermediality that define contemporary culture in the 21st century

Cosmopolitan Style Rebecca L. Walkowitz, 2006-04-25 In this broad ranging and ambitious intervention in the debates over the politics ethics and aesthetics of cosmopolitanism Rebecca L. Walkowitz argues that modernist literary style has been crucial to new ways of thinking and acting beyond the nation While she focuses on modernist narrative Walkowitz suggests that style conceived expansively as attitude stance posture and consciousness helps to explain many other nonliterary formations of cosmopolitanism in history anthropology sociology transcultural studies and media studies Walkowitz shows that James Joyce Joseph Conrad Virginia Woolf Salman Rushdie Kazuo Ishiguro and W G Sebald use the salient features of literary modernism in their novels to explore different versions of transnational thought question moral and political norms and renovate the meanings of national culture and international attachment By deploying literary tactics of naturalness triviality evasion mix up treason and vertigo these six authors promote ideas of democratic individualism on the one hand and collective projects of antifascism or anti imperialism on the other Joyce Conrad and Woolf made their most significant contribution to this critical cosmopolitanism in their reflection on the relationships between narrative and political ideas of progress aesthetic and social demands for literalism and sexual and conceptual decorousness Specifically Walkowitz considers Joyce's critique of British imperialism and Irish nativism Conrad's understanding of the classification of foreigners and Woolf's exploration of how colonizing policies rely on ideas of honor and masculinity Rushdie Ishiguro and Sebald have revived efforts to question the definitions and uses of naturalness argument utility attentiveness reasonableness and explicitness but their novels also address a range of new ethnicities in late twentieth century Britain and the different internationalisms of contemporary life They use modernist strategies to articulate dynamic

conceptions of local and global affiliation with Rushdie in particular adding playfulness and confusion to the politics of antiracism In this unique and engaging study Walkowitz shows how Joyce Conrad and Woolf developed a repertoire of narrative strategies at the beginning of the twentieth century that were transformed by Rushdie Ishiguro and Sebald at the end Her book brings to the forefront the artful idiosyncrasies and political ambiguities of twentieth century modernist fiction
