History of Photography Laurent Roosens, Luc Salu, 1989-01-01 The fourth volume in a history of photography this is a bibliography of books on the subject The Originality of the Avant-Garde and Other Modernist Myths Rosalind E. Krauss, 1986-07-09 Co founder and co editor of October magazine a veteran of Artforum of the 1960s and early 1970s Rosalind Krauss has presided over and shared in the major formulation of the theory of postmodernism In this challenging collection of fifteen essays most of which originally appeared in October she explores the ways in which the break in style that produced postmodernism has forced a change in our various understandings of twentieth century art beginning with the almost mythic idea of the avant garde Krauss uses the analytical tools of semiology structuralism and poststructuralism to reveal new meanings in the visual arts and to critique the way other prominent practitioners of art and literary history write about art In two sections Modernist Myths and Toward Postmodernism her essays range from the problem of the grid in painting and the unity of Giacometti's sculpture to the works of Jackson Pollock Sol Lewitt and Richard Serra and observations about major trends in contemporary literary criticism *Florence Henri* , Dictionary of Women Artists: Introductory surveys ; Artists, A-I Delia Gaze, 1997 First Published in 1997 Routledge is an imprint of Taylor Francis an informa company **Bauhaus Women** Elizabeth Otto, Patrick Rössler, 2019-03-21 Forty five key women of the Bauhaus movement Bauhaus Women A Global Perspective reclaims the other half of Bauhaus history yielding a new understanding of the radical experiments in art and life undertaken at the Bauhaus and the innovations that continue to resonate with viewers around the world today The story of the Bauhaus has usually been kept narrow localised to its original time and place and

associated with only a few famous men such as Walter Gropius Marcel Breuer Paul Klee Wassily Kandinsky and L szl Moholy Nagy Bauhaus Women A Global Perspective bursts the bounds of this slim history by revealing fresh Bauhaus faces Forty five Bauhaus women unjustifiably forgotten by most history books This book also widens the lens to reveal how the Bauhaus drew women from many parts of Europe and beyond and how through these cosmopolitan female designers artists and architects it sent the Bauhaus message out into the world and to a global audience **Florence HENRI (70 Photographies 1928 -**

Kriebel, 2022-04-21 Bringing together an international team of scholars this book offers new perspectives on the impact that the Bauhaus and its teaching had on a wide range of artistic practices Three of the fields in which the Bauhaus generated immediately transformative effects were housing typography and photography Contributors go further to chart the surprising relation of the school to contemporary developments in hairstyling and shop window display in unprecedented detail New scholarship has detailed the degree to which Bauhaus faculty and students set off around the world but it has seldom paid attention to its impact in communist East Germany or in countries like Ireland where no Bauh usler settled This wide ranging collection makes clear that a century after its founding many new stories remain to be told about the influence of the twentieth century s most innovative arts institution The book will be of interest to scholars working in art history design history photography and architectural history **Jewellery in the Age of Modernism 1918-1940** Simon Bliss, 2018-11-15 Why has jewellery and body adornment often been marginalized in studies of modernist art and design This study explores the relationship between jewellery modernism and modernity from the jazz age to the second world war in order to challenge the view that these portable art forms have only a minor role to play in histories of modernism From the masterworks of the Parisian jewellery houses to the film and photography of Man Ray this study seeks to present jewellery in a new light where issues of representation and display are considered to be as important in the creation of a modern jewellery culture as the objects themselves Drawing on material from museums archives contemporary journals memoirs literary and theoretical texts this study shows how the emergence of modern jewellery began to seriously question conventional notions of body adornment *Illuminations* Liz Heron, Val Williams, 2021-04-26 This selection of women s writings on photography proposes a new and different history demonstrating the ways in which women s perspectives have advanced photographic criticism over 150 years focusing it more deeply and with the advent of feminist approaches increasingly challenging its orthodoxies Included in the book are Rosalind Krauss Ingrid Sischy Vicki Goldberg and Carol Squiers
