law school casebook analyzes the Constitution of the State of Florida It begins with the idea of a state being a laboratory of  
democracy where rights may be expanded or invented within the minimum requirements of the federal constitution It  
explores the question of how a state constitution can produce its own jurisprudence in light of the supremacy of the United  
States Constitution It outlines the canons of construction for the Florida Constitution It introduces the concept that a state  
constitution can be a source of heightened civil liberties and fundamental rights It explores this issue in greater detail by  
using the Florida Constitution as an example It identifies Florida Constitutional rights without an exact parallel to those in  
the text of the US Constitution and asks whether Florida has taken its own path in interpreting or implementing the  
identified constitutional rights It introduces rights enumerated in the text of the Florida Constitution that are not embodied  
in the text of the US Constitution In so doing it compares Florida s approach to those of other state constitutions It addresses  
the familiar refrain that unlike the federal constitution a state s constitution is a restriction upon power not a grant of power  
It looks at state constitutional criminal procedure by examining the ancient origin of the jury and the recent origin of Florida  
criminal procedure Finally it examines the US Supreme Court s acceptance of a state s inherent police power and state by

state differences in zoning and nuisance law so as to better understand how eminent domain and inverse condemnation may differ under state constitutions such as Florida's **Southern Reporter**, 1927 Includes the decisions of the Supreme Courts of Alabama Florida Louisiana and Mississippi the Appellate Courts of Alabama and Sept 1928 Jan 1929 Jan Mar 1941 the Courts of Appeal of Louisiana
