marginalization and exploitation *American Beauty* Stephen Tapscott, 1984 Home to the New York Yankees the Bronx Zoo and the Grand Concourse the Bronx was at one time a haven for upwardly mobile second generation immigrants eager to leave the crowded tenements of Manhattan in pursuit of the American dream Once hailed as a wonder borough of beautiful homes parks and universities the Bronx became during the 1960s and 1970s a national symbol of urban deterioration Thriving neighborhoods that had long been home to generations of families dissolved under waves of arson crime and housing abandonment turning blocks of apartment buildings into gutted graffiti covered shells and empty trash filled lots In this revealing history of the Bronx Evelyn Gonzalez describes how the once infamous New York City borough underwent one of the most successful and inspiring community revivals in American history From its earliest beginnings as a loose cluster of commuter villages to its current status as a densely populated home for New York's growing and increasingly more diverse African American and Hispanic populations this book shows how the Bronx interacted with and was affected by the rest of New York City as it grew from a small colony on the tip of Manhattan into a sprawling metropolis This is the story of the clattering of elevated subways and the cacophony of crowded neighborhoods the heady optimism of industrial progress and the despair of economic recession and the vibrancy of ethnic cultures and the resilience of local grassroots coalitions crucial to the borough's rejuvenation In recounting the varied and extreme transformations this remarkable community has undergone Evelyn Gonzalez argues that it was not racial discrimination rampant crime postwar liberalism or big government that was to blame for the urban crisis that assailed the Bronx during the late 1960s Rather the decline was inextricably connected to the same kinds of social initiatives economic transactions political decisions and simple human choices that had once been central to the development and vitality of the borough Although the history of the Bronx is unquestionably a success story crime poverty and substandard housing still afflict the community today Yet the process of building and rebuilding carries on and the revitalization of neighborhoods and a resurgence of economic growth continue to offer hope for the future **The Near and Distant God** Ian Cooper, 2017-12-02 Poetry and philosophy from the time of Kant to the mid twentieth century are centrally concerned with the question of how the Spirit or the Holy Spirit is present in the world This book argues that the development of modern poetry in German and English can be seen as a protracted response to the religious crises of post Idealist thought The German tradition develops through poets such as Holderlin as much as through philosophers such as Hegel and Nietzsche and in England German ideas profoundly influenced the British Idealist school Cooper's compelling study makes parallel readings of German and English writers with deeper historically based affinities than has previously been realised Eduard Morike and Gerard Manley Hopkins both churchmen each studied Idealism as undergraduates in their respective countries each responded to it in his spiritual verse And we find similar parallels in two of the defining works of twentieth century poetry between Rilke's response to Nietzsche in the Duino Elegies and Eliot's response to Bradley in the Four Quartets Ian Cooper is Centenary Research Fellow at Selwyn College Cambridge **The**

Icons in Time, Persons in Eternity C.A. Tsakiridou,2016-05-13 Icons in Time Persons in Eternity presents a critical interdisciplinary examination of contemporary theological and philosophical studies of the Christian image and redefines this within the Orthodox tradition by exploring the ontological and aesthetic implications of Orthodox ascetic and mystical theology It finds Modernist interest in the aesthetic peculiarity of icons significant and essential for re evaluating their relationship to non representational art Drawing on classical Greek art criticism Byzantine ekphraseis and hymnography and the theologies of St Maximus the Confessor St Symeon the New Theologian and St Gregory Palamas the author argues that

the ancient Greek concept of enargeia best conveys the expression of theophany and theosis in art The qualities that define enargeia inherent liveliness expressive autonomy and self subsisting form are identified in exemplary Greek and Russian icons and considered in the context of the hesychastic theology that lies at the heart of Orthodox Christianity An Orthodox aesthetics is thus outlined that recognizes the transcendent being of art and is open to dialogue with diverse pictorial and iconographic traditions An examination of Chinese Zen art theory and a comparison of icons with paintings by Wassily Kandinsky Pablo Picasso Mark Rothko and Marc Chagall and by Japanese artists influenced by Zen Buddhism reveal intriguing points of convergence and difference The reader will find in these pages reasons to reconcile Modernism with the Christian image and Orthodox tradition with creative form in art **Flowerrevolution** Katie Hess,2016-11-15

To the Lighthouse Virginia Woolf,2023-01-03 A beautiful hardcover edition of Virginia Woolf s groundbreaking novel Though its fame as an icon of twentieth century literature rests primarily on the brilliance of its narrative technique and the impressionistic beauty of its prose To the Lighthouse is above all the story of a quest and as such it possesses a brave and magical universality Observed across the years at their vacation house facing the gales of the North Atlantic Mrs Ramsay and her family seek to recapture meaning from the flux of things and the passage of time Though it is the death of Mrs Ramsay on

which the novel turns her presence pervades every page in a poetic evocation of loss and memory that is also a celebration of domestic life and its most intimate details Virginia Woolf's great book enacts a powerful allegory of the creative consciousness and its momentary triumphs over fleeting material life **MEDEDEELINGEN** Wageningen (Netherlands) LANDBOUWHOOGESCHOOL,1921 **Flower's Fang** Madison Keller,2014-09-13 Can an unlikely friendship save the day Arara's ears flatten to her head and her lips pull back into a snarl Kerka chuckles and tries to kick her but Arara hears the thought coming and dodges easily The rest of the hunting party classmates their own age snicker and wag their tails in amusement She longs to run away but today is special Their hunting trial Leave and she'll still be considered a pup and be stuck here another year at least Prince Sels walks at the head of a grand procession up to the stage where a dozen furry pups wait It's so cold he can't even get his flowers to open Sels longs for the hot humid plains of the capital city He can't go home until he finds at least one candidate yet his lack of magic means he can't feel their potential One pup of the group catches his eye Tiny and white she looks as out of place as he feels and he feels a jolt of connection with her But what kind of difference can one magicless prince and a runt puppy make **Stilling the Mind** B. Alan Wallace,2011-08-16 Across more than a millennium the lamas meditators and scholars of Tibet created a vast literature dedicated to revealing the profound truths about who we are and how we should make use of our lives Sages living in mountain caves and monastics pursuing their daily rituals used these texts to wear down their obscurations and make space for innate clarity and wisdom to manifest For those of us in the modern world with hectic lives however such teachings from another time and place can be nearly impenetrable To approach them we need a guide a helping hand from someone who is like ourselves but who has spent years learning the ins and outs of the sometimes secretive world of Tibetan Buddhist practice Bestselling author and former Buddhist monk Alan Wallace is one such guide With his trademark enthusiasm and keen intelligence he introduces us here to one of the most cherished works of the Nyingma school of Tibetan Buddhism Dudjom Lingpa's Vajra Essence Written in the nineteenth century the Vajra Essence presents the practice of Dzokchen the Great Perfection the highest of all the meditation traditions and its contents have only been revealed to those with the requisite training With permission from his teachers Alan reveals here the work's opening section which presents the methods for calming the mind and bringing it to a state of effortless concentration the practice of shamatha In his earlier book *The Attention Revolution* Alan guided readers through the stages of shamatha step by step Here he uses the wisdom of the Dzokchen teachings to open up this practice into a space of freedom from hope and fear He makes obscure concepts intelligible to contemporary readers and allows us to glimpse the profound realizations of a great spiritual adept **Flower O' the Orange and Other Stories** Agnes Castle,Egerton Castle,1908 **A Flower's Shade** Ye Zhaoyan,2016-05-24 A decadent family drama of incest addiction and crime this seductive novel set in small towns south of the Yangtze River in the 1920s was the basis for the film *Tempress Moon*
