Chikubushima Andrew Mark Watsky,2004 In this meticulous and lucid study Andrew Watsky keenly illustrates how private belief and political ambition influenced artsitic production at the intersection of institutional Buddhism and Shinto during this tumultuous period of rapid and radical political social and aesthetic changes He offers

substantial conclusions not only about the specific site but also more broadly about the nature of art production in Japan and how perceptions of the sacred shaped the concerns and actions of the secular rulers Watsky has had unique access to the island and many of the images included here have not previously been published Book Jacket **Real and Imagined** Heather Blair, 2020-05-11 During the Heian period 794-1185 the sacred mountain Kinpusen literally the Peak of Gold came to cultural prominence as a pilgrimage destination for the most powerful men in Japan the Fujiwara regents and the retired emperors Real and Imagined depicts their one hundred kilometer trek from the capital to the rocky summit as well as the imaginative landscape they navigated Kinpusen was believed to be a realm of immortals the domain of an unconventional bodhisattva and the home of an indigenous pantheon of kami These nominally private journeys to Kinpusen had political implications for both the pilgrims and the mountain While members of the aristocracy and royalty used pilgrimage to legitimate themselves and compete with one another their patronage fed rivalry among religious institutions Thus after flourishing under the Fujiwara regents Kinpusen's cult and community were rent by violent altercations with the great Nara temple Kōfukuji The resulting institutional reconfigurations laid the groundwork for Shugendō a new movement focused on religious mountain practice that emerged around 1300 Using archival sources archaeological materials noblemen's journals sutras official histories and vernacular narratives this original study sheds new light on Kinpusen positioning it within the broader religious and political history of the Heian period **Embracing Illusion** Francisca Cho, 1996-07-03 Embracing Illusion is an interdisciplinary study of a classic Korean novel It argues that a work of narrative fiction can be taken seriously as Buddhist philosophical discourse The capacity of fiction to speak on behalf of Buddhist truths is set in the larger context of how the literary imagination approaches the exploration of reality *Hokkeji and the Reemergence of Female Monastic Orders in Premodern Japan* Lori R. Meeks, 2010-04-30 Hokkeji an ancient Nara temple that once stood at the apex of a state convent network established by Queen Consort Komyō 701-760 possesses a history that in some ways is bigger than itself Its development is emblematic of larger patterns in the history of female monasticism in Japan In *Hokkeji and the Reemergence of Female Monastic Orders in Premodern Japan* Lori Meeks explores the revival of Japan's most famous convent an institution that had endured some four hundred years of decline following its establishment With the help of the Ritsu Vinaya revivalist priest Eison 1201-1290 privately professed women who had taken up residence at Hokkeji succeeded in reestablishing a nuns' ordination lineage in Japan Meeks considers a broad range of issues surrounding women's engagement with Buddhism during a time when their status within the tradition was undergoing significant change The thirteenth century brought women greater opportunities for ordination and institutional leadership but it also saw the spread of increasingly androcentric Buddhist doctrine Hokkeji explores these contradictions In addition to addressing the socio-cultural economic and ritual life of the convent Hokkeji examines how women interpreted used and talked past canonical Buddhist doctrines which posited women's bodies as unfit for buddhahood and the salvation of women to be unattainable without the mediation

of male priests. Texts associated with Hokkeji Meeks argues suggest that nuns there pursued a spiritual life untroubled by the so called soteriological obstacles of womanhood. With little concern for the alleged karmic defilements of their gender the female community at Hokkeji practiced Buddhism in ways resembling male priests they performed regular liturgies offered memorial and other priestly services to local lay believers and promoted their temple as a center for devotional practice. What distinguished Hokkeji nuns from their male counterparts was that many of their daily practices focused on the veneration of a female deity their founder Queen Consort Komyo whom they regarded as a manifestation of the bodhisattva Kannon. Hokkeji rejects the commonly accepted notion that women simply internalized orthodox Buddhist discourses meant to discourage female practice and offers new perspectives on the religious lives of women in premodern Japan. Its attention to the relationship between doctrine and socio cultural practice produces a fuller view of Buddhism as it was practiced on the ground outside the rarefied world of Buddhist scholasticism.

Currents in Japanese Culture Amy Vladeck Heinrich, 1997

These twenty nine original essays focuses on how cultural and literary genres and norms have developed in response to historical and cross cultural influences.

Tracing the Itinerant Path Caitilin J. Griffiths, 2016-10-31

Women have long been active supporters and promoters of Buddhist rituals and functions but their importance in the operations of Buddhist schools has often been minimized. Chin ichib 1344 a nun who taught male and female disciples and lived in her own temple is therefore considered an anomaly. In *Tracing the Itinerant Path* Caitilin Griffiths meticulous research and translations of primary sources indicate that Chin ichib is in fact an example of her time a learned female who was active in the teaching and spread of Buddhism and not an exception. Chin ichib and her disciples were jish members of a Pure Land Buddhist movement of which the famous charismatic holy man Ippen 1239-1289 was a founder. Jish distinguished by their practice of continuous nembutsu chanting gained the support of a wide and diverse populace throughout Japan from the late thirteenth century. Male and female disciples rarely cloistered themselves behind monastic walls preferring to conduct ceremonies and religious duties among the members of their communities. They offered memorial and other services to local lay believers and joined itinerant missions traveling across provinces to reach as many people as possible. Female members were entrusted to run local practice halls that included male participants. Griffiths study introduces female jish who were keenly involved not as wives daughters or mothers but as partners and leaders in the movement. Filling the lacunae that exists in our understanding of women's participation in Japanese religious history Griffiths highlights the significant roles female jish held and offers a more nuanced understanding of Japanese Buddhist history. Students of Buddhism scholars of Japanese history and those interested in women's studies will find this volume a significant and compelling contribution.

Theatricalities of Power

Steven T. Brown, 2001

Through an extended reading of the noh play *Aoi no Ue* as well as briefer examinations of several other plays this book sheds new light on the circulation of power and desire in the middle and late medieval periods in Japan. It argues that these plays constituted an active force in the theater of the medieval cultural imaginary by engaging specific

sociopolitical issues and problems

The Origins of Japan's Medieval World Jeffrey P. Mass, 1997 This pioneering collection of 15 essays argues that Japan's medieval age began in the 14th century rather than the 12th and marks the beginning of a fundamentally new debate about how Japan's lengthy classical period finally ended

Facing Images Kristopher W. Kersey, 2024-08-06 If we want to decolonize the history of art argues Kristopher Kersey we must rethink our approach to the historical record This means dispensing with Eurocentric binaries divisions between Western and non Western modern and premodern and making a commitment to artworks that challenge the perspectives we build upon them In Facing Images the question takes elegant and intriguing form If the aesthetic hallmarks of modernity can be found in twelfth century art what does it really mean to be modern Kersey's answer to this question models a new historiography Facing Images begins by tracing the turbulent discourse surrounding the emergence of Japanese art history as a modern field In lieu of examining canonical works from the twelfth century Kersey foregrounds the elusive and the enigmatic in artworks little known and understudied outside Japan the manuscripts he selects defy traditional art historical narratives by exhibiting decidedly modern techniques including montage self reference reuse noise dissonance and chronological disarray Kersey weaves these medieval case studies together with insights from a wide range of interdisciplinary scholarship using a methodology that will prove important for historians Facing Images produces a history of non Western art in which diverse and anachronic works are brought responsibly and equitably into dialogue with the present without being subsumed under Eurocentric formalisms or false universals A timely intervention in the history of medieval Japanese art art historiography and the history of global modernism Facing Images redefines the relationship of the premodern non West to modern art It will be of particular interest to scholars of medieval Japanese art and of modernism

Gerald Groemer,2016-03-21 In a tradition extending from the medieval era up through the middle of the 19th century visually disabled Japanese women known as Goze would tour the Japanese countryside as professional singers contributing to the vitality of rural musical culture Gerald Groemer shows that the solidarity these singers achieved through narrative and music was based on the convergence of their desire to achieve social autonomy and the wish of lower class to mitigate the cultural deprivation to which they were subject **Ritualizing the Disposal of the Deceased** William W. McCorkle,2010

Ritualizing the Disposal of the Deceased traces mortuary behavior from the early fossil record to modern religious contexts in diverse cultural settings By using archival and ethnographic evidence from Buddhist traditions the author highlights the disparity between doctrines that contradict actual practices performed by Buddhists themselves By appealing to the evolved cognitive architecture of human minds this book argues that ritualized disposal behavior is the by product of mental systems designed to handle living people Due to complex social intelligence humans are compelled to handle dead people in ritualized behaviors and to represent them in counterintuitive ways The author also examines the professional religious guilds that have taken advantage of these ritualized compulsions over the last several thousand years by giving and controlling the meanings behind these actions Furthermore experimental evidence is given to support this hypothesis providing the first mature cognitive and evolutionary theory for mortuary behavior by humans
