Flowing Like A River:

Flowing Like a River Ashley Aurthurton Massicotte, 2004-09-03 *Flowing Like A River* is a poetic expression of true life experiences. It covers four separate areas: Love, Friendship, Romance, Spiritual, Children, and Nature, and General poetry. Combining humor with deep, true feelings, Ashley invites all readers to be entertained, educated, and to also reflect on their own personal experiences. Though deep and thoughtful, each poem is so simple that persons of almost every age can read, understand, and enjoy. If you want to express your true feelings to loved ones, there are many to suit you. You can even find a few for spiritual occasions or simply to reflect on the goodness of God in your life. You can entertain a child, encourage comfort, make someone stop and think by simply choosing one of these poems. You had a hard day and work and need to relax. Then read one of the Mosquito poems; you will surely feel better. You are cordially invited. Come on in, be like a boat and flow along on that river of words as they gently flow from my lips. These poems are nothing short of being real. Take some time to sit, relax, and enjoy.

Spirit of Singing Mardi Tindal, Kate Middleton, 1994. Familiar songs that might have been sung around the campfires of our youth.

Constructional and Cognitive Explorations of Contrastive Linguistics Annalisa Baicchi, Cristiano Broccias, 2024-02-22. This book approaches the field of contrastive linguistics from a comparative and robust perspective that combines the tenets of construction grammar and cognitive linguistics. In doing so, it shows how their integration can help to successfully enhance research on contrastivity by means of updated theoretical frameworks and applied methodologies that combine language and thought. It compares ten different languages and offers analyses of constructions at all levels of the linguistic organization, identifying the cognitive motivations that instantiate the linguistic data retrieved from corpora. Relevant to both cognitive and non-cognitive linguists interested in variation and contrastive approaches, as well as graduate students in these areas, this book makes a significant contribution to existing work on the various types of constructional and discourse-based phenomena in modern languages.
