spaces and spatial transparency's capacity for promoting and enabling graded interflowing environmental transactions Using historical and contemporary examples it catalogs some of the most common and recurring configurations that manifest these characteristics Over 20 international case studies from the Americas to Japan are presented to argue that environments exist in porous mediums and that by studying the openings voids light and materials of layered and or permeable organizations important insights about space making can be revealed Written for students and academics this book explores various expressions of spatial transparency in architecture and helps connect their abstract ideas with significant built works analytical drawings and comparison charts

Decodificando sejima-sanaa Aida González-Llavona, 2021-05-19 Este libro ofrece un análisis de la obra de Sejima Sanaa desde la Casa Platform I 1989 hasta el Centro Rolex 2010 centrado en aspectos relativos a la forma arquitectónica la estructura portante y las relaciones de ambas entre sí y con otros aspectos de su arquitectura Dicho análisis dibuja dos trayectorias una relativa a la forma y otra a la estructura Ambas parten de preceptos heredados de la modernidad arquitectónica del S XX que se van paulatinamente transgrediendo hasta que las lógicas formales y estructurales de la mayoría de las obras de Sejima Sanaa del S XXI no se pueden explicar sólo desde la lógica del proyecto moderno El análisis formal se aborda de modo sugerente intentando imaginar y describir la posible génesis proyectual de la forma cómo desde que pensamiento con qué estrategias instrumentos y desarrollo las propuestas formales que propone Sejima Sanaa podrían haber sido pensadas La respuesta a estas preguntas se traduce en el despliegue de una serie de hipotéticos procesos proyectuales lo que podemos llamar decodificaciones de la forma que verosímilmente podrían haber dado lugar a los proyectos realizados por Sejima Sanaa El proceso de decodificación ha operado con dos premisas solo se entienden las cosas cuando se entiende como han podido ser originadas pensadas construidas y no cabe el perseguir descubrir los procesos reales sino proponer y describir procesos verosímiles cuyo interés está en su alcance pedagógico no en la identificación de ninguna verdad biográfica o histórica Este libro ofrece además otras lecturas y análisis sobre aspectos inevitablemente relacionados con lo anterior referidos sobre todo a la naturaleza del espacio arquitectónico y al emplazamiento de la arquitectura en el lugar Espera servir para entender mejor las lógicas inherentes a las propuestas proyectuales de Sejima Sanaa y para encontrar algunas claves sobre un proyectar contemporáneo que estando arraigado en la modernidad arquitectónica del S XX también la trasciende El Croquis, 2006 Sanaa José Jaraiz, 2021-06-01 En los últimos tiempos el estudio japonés SANAA ha realizado una serie de obras que le han puesto en el punto de mira de la arquitectura internacional y que se ha visto reflejado en la concesión en el año 2010 del premio Pritzker a Kazuyo Sejima y Ryue Nishizawa por toda una carrera de trabajo interrumpido SANAA ha construido una serie de edificios que han supuesto una gran influencia en el contexto de la arquitectura mundial y que están contribuyendo al trabajo de muchos arquitectos jóvenes tanto en Japón como fuera de él y su trabajo se estudia y analiza en las escuelas de arquitectura de medio mundo Este libro estudia el parque de SANAA desde las diversas formas en las que este se presenta parques por continuidad o parques por acumulación como una excusa para el estudio de los que se basa su modo de proyectar Dichos mecanismos forman parte ya de una forma de proyectar contemporánea y su estudio permite la comprensión de algunos de los fenómenos arquitectónicos más interesantes que se están produciendo en la arquitectura de nuestro tiempo La revelación de estos mecanismos supone el sacar a la luz gran parte de los procesos y desarrollos de proyecto que por la clásica manera de dibujar de visita lenta y pausada por el edificio El libro se convierte entonces en una investigación en la que el autor como un detective rastrea los proyectos de SANAA buscando aquellos mecanismos que permiten discernir el verdadero significado de conceptos como laberinto jerarquía orden atmósfera o experiencia a lo largo de
