

A large, bright white circle representing the Moon dominates the center of the image. Inside the circle, a faint map of South America is visible. The background is a dark space filled with small white stars. Two astronauts in white suits are floating in the upper corners, and one astronaut in a dark suit stands on the lunar surface in the lower left. The lunar surface is depicted with reddish-brown hills and small cacti.

## **El Día De La Luna:**

**Los héroes y las maravillas del mundo** Diego de Mora y Casarissa, 1855      **Climate and Literature** Janet Pérez, Wendell M. Aycock, 1995 With the rise of a succession of sophisticated approaches that largely disregard literature's traditional role as a mirror of life climate and other environmental factors have been generally disregarded in the interpretation of literary texts during recent decades For that reason it is only fitting that the climatological dimension be re-explored after a forty year hiatus Climate and Literature embraces a significant revision of the original telluric notions about the determinist relationship between climate and the attitudes and behavior of literary characters set in particular surroundings In place of such vague notions we find within these pages interesting and stimulating examples of true applied science and contemporary literary theory that more often than not treat literary depiction of climate not so much as a reflection of influence of particular geographic environments but as a powerful symbol for psychological or textural processes undergone by the novels characters narrators or readers Dr Thomas Franz Ohio State University      **Anuario Del Observatorio de La Plata Para El Año ...** Observatorio de La Plata, Universidad Nacional de La Plata.
