Bibliografía española, 2004 **La infancia de Jesús** J.M. Coetzee, 2013-09-05 La nueva novela del Premio Nobel J M Coetzee es una hermosa historia sobre la identidad la amistad y la fuerza de los lazos familiares Tras cruzar el océano un hombre y un niño llegan a un nuevo país donde se les asigna nombre y edad y se les anima a olvidar su pasado Extraños en una tierra extraña aprenden español el idioma del lugar mientras aguardan a ser trasladados a la ciudad de Novilla donde tienen la esperanza de encontrar a la madre del niño Ya con sus nuevos nombres Simón y David llegan al centro de reubicación de la ciudad Allí el funcionariado los trata con educación pero no son muy serviciales Tras mucha confusión Simón consigue un alojamiento para ambos y encuentra un trabajo en el puerto Las tareas de estibador le resultan tremendamente agotadoras pero enseguida se gana el aprecio de sus compañeros que durante los descansos mantienen diálogos filosóficos sobre la dignidad del trabajo En este país nadie parece particularmente feliz o infeliz Todos cumplen sus funciones pero no van más allá y no parecen esperar ni querer más de lo que tienen En medio de la extrañeza que le produce esta actitud Simón decide retomar la misión de encontrar a la madre del niño con una dificultad añadida todos los que llegan al nuevo país parecen haber dejado atrás sus recuerdos La crítica ha dicho Este libro hace justicia a la gran reputación del autor The Guardian Uno de los mejores novelistas vivos The Sunday Times Un artista supremo del matiz y la fábula The Independent Uno de los escritores más sobresalientes de la lengua inglesa The Times Un escritor consumado Observer La calidad de la escritura de Coetzee reside en su visión interior oscura apasionadamente compasiva preocupada por la naturaleza humana Financial Times **En mi jardín interior** Mar Pérez Jiménez, 2016-06-22 El libro que tienes en tus manos es un proyecto de interioridad y de educación espiritual y emocional para la etapa de Educación Infantil La interioridad permite trabajar los elementos propios de la inteligencia espiritual permitiendo así la preparación del terreno para que la propuesta cristiana tenga raíz y profundidad La propuesta que se ofrece en este libro además de aportar ejercicios adecuados a las edades comprendidas en Educación Infantil presenta una estructura coherente y organizada adaptada a distintos momentos que logra la consecución de los objetivos previstos Es decir está totalmente integrada en el ritmo de la educación de esta etapa y lo que es más importante está avalada por la experiencia práctica de varios años en el aula He aquí pues un proyecto que aborda de forma sistemática y global la interioridad en la etapa de Educación Infantil Javier Morata Gutiérrez Coordinador de Pastoral de los colegios capuchinos en España El pasado invisible Carolina Redondo, 2023-11-09 Karen y su hijo llegan a una isla polar tratando de encontrar respuestas sobre la muerte de su padre ocurrida hace más de veinte años Allí conocen a Finn un escritor en busca de inspiración que sufre una extraña enfermedad y a Eva una pintora italiana que trata de escapar de una tragedia a través de sus cuadros Todos ellos huyen de su pasado y tratan de reinventarse de tener una segunda oportunidad No saben que la isla es una madre posesiva Un lugar de pérdida El hogar del Olvido No saben que tan solo somos la sombra que proyecta nuestro pasado *El Bernarrdo* Bernardo de Balbuena, 1852 El Vernardo Bernardo de Valbuena, 1852 **Words of the True**

La antinomia amor poder Pablo Población, 2019-10-21 A partir del t tulo Antinomia amor poder Pablo POBLACI N se coloca en un proceso bipolar presente de modo constante en el pensamiento humano En este caso la palabra amor remite a la existencia de un verdadero yo definido desde factores biol gicos se trata de un ente biopsicosocial Cuando un sujeto o un grupo funcionan desde el centro del amor implica una posici n pro vida de b squeda de una mejor articulaci n y estructuraci n para la vida mientras que opuesto a l se describe un centro del poder que implica una posici n egoc ntrica de b squeda del manejo para los componentes de este ente a n en detrimento de los dem s Esta posici n antin mica implica un juego vital y existencial que fluye en cada momento con mayor predominancia de la fuerza de cada polo Por eso el tener en cuenta de modo constante su presencia es imprescindible para la comprensi n no solo de los movimientos saludables sino tambi n la patolog a desde cualquier punto de vista Otro aspecto que tiene que ver con la antinomia es el de la identidad individual o grupal Podemos hablar de una verdadera identidad cuando predominan las fuerzas del amor y de una falsa identidad cuando predominan las del poder en concreto en el individuo cuando lo que est en primer plano es el personaje que este se crea Adem s de la identidad individual hay que contar con la identidad social que refleja el concepto del grupo hacia el individuo No se deja de lado otros factores cuya comprensi n nace desde la aceptaci n del paradigma de la antinomia amor poder como son los importantes conceptos de la tica y la est tica del psicodrama y el psicodramatista Con todo ello la antinomia amor poder se constituye en un paradigma abierto a la comprensi n del ser humano no solo desde el psicodrama sino desde cualquier modelo del mismo

Tres cuentos mágicos Alejandro

Jodorowsky, 2015-03-13 Memorias de un niño bombero historia de un niño que desea ser bombero es más la historia de un aprendizaje la de aprender a ser uno mismo La sabiduría Filovera hace comprender al joven que Nada ni nadie hay que no sea doble La realidad es lo que es al mismo tiempo que es lo que no es Tan importante es lo que sientes como lo que no sientes Las ideas fijas del padre chocan con la voluntad del niño que tendrá que enfrentarse a él y a los demás para poder alcanzar su objetivo Lo del cielo cuenta la relación que durante la dictadura del loco y perverso Horzatt mantienen un hombre mayor y Lo es una niña que no se parece a ningún mortal y que quizá vino del cielo La increíble mosca humana es una reflexión que narra la metamorfosis que realiza una mosca en ser humano poniendo en evidencia la huida que las personas hacemos para no ser quienes en realidad somos huyendo de nuestra propia espiritualidad **El Bernardo** Bernardo de Balbuena, 1852 *Técnicas y recursos de animación en actividades de tiempo libre. Waldmann, 2017-12-12 Causality is one of the core concepts in any attempt to make sense of the world and the explanations people come up with shape their judgments emotions intentions and actions This renders causal cognition a core topic for the social as well as the cognitive sciences In the past however research has been split into diverging paradigms each pertaining to a distinct sub discipline and focusing on a specific domain thus creating a rather fragmented picture of causal cognition Furthermore most of this previous research paid only incidental attention to culture as a possibly constitutive factor leaving important questions unanswered Is causality always perceived in the same way Are causal explanations affected by the concepts to which people refer and or the language they use Is causal cognition domain specific and if so how does it differ from agency construal Is causal reasoning always based on the same cognitive mechanisms or does the cultural background of people shape how they process respective information and perhaps even their willingness to search for causal explanations in the first place By soliciting contributions that address questions like these this research topic aimed at assessing the extent to which causal cognition may vary across species cultures or individuals at various stages of their development and at integrating different perspectives across a broad range of disciplines Originating from the work of a research group funded by the Center for Interdisciplinary Research ZiF at Bielefeld University Germany the scope of this research topic was broadened by inviting additional contributions from researchers with expertise in different fields of causal cognition agency construal and or cultural impacts on cognition In order to fully exploit the potential of cognitive science we explicitly encouraged submissions from scholars from all its classic sub disciplines i e anthropology artificial intelligence linguistics neuroscience philosophy psychology as well as scholars from comparative psychology cognitive archeology economics and any other discipline interested in causal cognition We welcomed empirical findings as well as theoretical contributions with an emphasis on those factors that do or may constrain trigger or shape the way in which humans and other primates think about causal relationships and inform us about both the diversity and the universality of causal cognition El Gráfico ,1917
