**Multilingual America** Werner Sollors, 1998-08 Aside from the occasional controversy over Official English campaigns language remains the blind spot in the debate over multiculturalism Considering its status as a nation of non English speaking aborigines and of immigrants with many languages America exhibits a curious tunnel vision about cultural and literary forms that are not in English How then have non English speaking Americans written about their experiences in this country And what can we learn about America immigration and ethnicity from them Arguing that multilingualism is perhaps the most important form of diversity Multilingual America calls attention to and seeks to correct the linguistic parochialism that has defined American literary study By bringing together essays on important works by among others Yiddish Chinese American German American Italian American Norwegian American and Spanish American writers Werner Sollors here presents a fuller view of multilingualism as a historical phenomenon and as an ongoing way of life At a time when we are just beginning to understand the profound effects of language acquisition on the development of the brain Multilingual America forces us to broaden what in fact constitutes American literature

**The Intimate Frontier** Ignacio Martínez, 2019-10-22 For millennia friendships have framed the most intimate and public contours of our everyday lives In this book Ignacio Martínez tells the multilayered story of how the ideals logic rhetoric and emotions of friendship helped structure an early yet remarkably nuanced fragile and sporadic form of civil society *societas civilis* at the furthest edges of the Spanish Empire Spaniards living in the isolated borderlands region of colonial Sonora were keen to develop an ideologically relevant and socially acceptable form of friendship with Indigenous people that could act as a functional substitute for civil law and governance thereby regulating Native behavior But as frontier society grew in complexity and sophistication Indigenous and mixed raced people also used the language of friendship and the performance of emotion for their respective purposes in the process becoming skilled negotiators to meet their own best interests In northern New Spain friendships were sincere and authentic when they had to be and cunningly malleable when the circumstances demanded it The tenuous origins of civil society thus developed within this highly contentious social laboratory in which friendships authentic and feigned set the social and ideological parameters for conflict and cooperation Far from the coffee houses of Restoration London or the lecture halls of the Republic of Letters the civil society illuminated by Martínez stumbled forward amid the ambiguities and contradictions of colonialism and the obstacles posed by the isolation and violence of the Sonoran Desert
