Levander,Robert S. Levine,2007-10-04 This landmark collection brings together a range of exciting new

comparative work in the burgeoning field of hemispheric studies Scholars working in the fields of Latin American studies Asian American studies American studies American literature African Diaspora studies and comparative literature address the urgent question of how scholars might reframe disciplinary boundaries within the broad area of what is generally called American studies The essays take as their starting points such questions as What happens to American literary political historical and cultural studies if we recognize the interdependency of nation state developments throughout all the Americas What happens if we recognize the nation as historically evolving and contingent rather than already formed Finally what happens if the fixed borders of a nation are recognized not only as historically produced political constructs but also as component parts of a deeper more multilayered series of national and indigenous histories With essays that examine stamps cartoons novels film art music travel documents and governmental publications Hemispheric American Studies seeks to excavate the complex cultural history of texts and discourses across the ever changing and stratified geopolitical and cultural fields that collectively comprise the American hemisphere This collection promises to chart new directions in American literary and cultural studies

Earthquake and the Invention of America Anna Brickhouse, 2024-09-17 *Earthquake and the Invention of America* The Making of Elsewhere Catastrophe explores the role of earthquakes in shaping the deep timeframes and multi hemispheric geographies of American literary history Spanning the ancient world to the futuristic continents of speculative fiction the earthquake stories assembled here together reveal the emergence of a broadly Western cultural syndrome that became an acute national fantasy elsewhere catastrophe an unspoken but widely prevalent sense that catastrophe is somehow un American Catastrophe must be elsewhere because it affirms the rightness of here where conquest according to the syndrome s logic did not happen and is not occurring The psychic investment in elsewhere catastrophe coalesced slowly across centuries varieties of it can be found in various European traditions of the modern Yet in its most striking modes and resonances elsewhere catastrophe proves fundamental to the invention of US America which is why earthquake as the exemplary elsewhere catastrophe is the disaster that must always happen far away or be forgotten The book s eight chapters and epilogue range from Plato to the Puritans from El Inca Garcilaso de la Vega and Voltaire to Herman Melville and N K Jemisin examining along the way the seismic imaginings of Edgar Allan Poe James Fenimore Cooper Frederick Douglass Emily Dickinson and Jose Mart among other writers At the core of the book s inquiries are the earthquakes historical and imagined that act as both a recurrent eruptive force and a provocation for disparate modes of critical engagement with the long and catastrophic history of the Americas

Knights of Spain, Warriors of the Sun Charles Hudson, 2018-01-15 The 20th anniversary edition of the study that first revealed De Soto s path across the 16th century American South includes a forward by Robbie Ethridge Between 1539 and 1542 the Spanish explorer Hernando de Soto led a small army on an expedition of almost four thousand miles across Southeastern America De Soto s path had been one of history s most intriguing mysteries until the publication of *Knights of Spain Warriors of the Sun* Using a new route

reconstruction anthropologist Charles Hudson maps the story of the de Soto expedition tying the route to a number of specific archaeological sites De Soto's journey cut a bloody and indelible swath across both the landscape and native cultures in a quest for gold and glory The desperate Spanish army followed the sunset from Florida to Texas before abandoning its mission De Soto's one triumph was that he was the first European to explore the vast region that would be the American South But in 1542 he died a broken man on the banks of the Mississippi River In this classic text Hudson masterfully chronicles both De Soto's expedition and the native societies he visited The narrative unfolds against the exotic backdrop of a now extinct social and geographic landscape A blending of archaeology history and historical geography this is a monumental study of the sixteenth century Southeast Writers of the Spanish Colonial Period David William Foster, Daniel Altamiranda, 1997 These critical studies propose innovative readings and overall reformulations of the texts and authors that stand as representative of the period for the contemporary reader The first group of articles refers to reports chronicles and Renaissance epics a vast block of texts that fall in most cases halfway between history and narrative fiction and examine the experiences of the discovery the conquest and the colonization of the new territories The second group concentrates on regionally marked texts from the Baroque period especially those of the central figure of the Mexican nun poet and intellectual Sor Juana In's de la Cruz Finally there are some essays on representative texts of the latter part of the colonial period Publisher's description Expedition of Hernando de Soto West of the Mississippi, 1541-1543: Symposia (p) Gloria A. Young Michael P. Hoffman, 1993 **The Animals of Spain** Abel Alves, 2011-07-14 An overlooked area in the burgeoning field of animal studies is explored the way nonhuman animals in the early modern Spanish empire were valued companions as well as economic resources Montaigne was not alone in his appreciation of animal life *Encyclopedia of Historians and Historical Writing* Kelly Boyd, 2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies *Cultural Encounters Indians and Europeans in Arkansas(c)* , These stories of unique and distinct peoples their interactions and their influences on Arkansas and the South fill a void in the literature examining French and Spanish encounters with the Indians Using historical anthropological and archaeological approaches these essays collectively cover the European Indian experience in the region from DeSoto's first contact in 1541 through the Louisiana Purchase of 1803 Certificate of Commendation American Association of State and Local History Renaissance

Humanism ,2014-03-14 By far the best collection of sources to introduce readers to Renaissance humanism in all its many guises What distinguishes this stimulating and useful anthology is the vision behind it King shows that Renaissance thinkers had a lot to say not only about the ancient world one of their habitual passions but also about the self how civic experience was configured the arts the roles and contributions of women the new science the new world and so much more Christopher S Celenza Johns Hopkins University

Image - Object - Performance Astrid Windus,Eberhard Crailsheim,2013 Images objects and performances represent essential forms of mediality which frequently escape our traditional understanding of historical communication This volume discusses from an interdisciplinary perspective the varying structures and media of communication and representation in transcultural spaces of Latin America and the Philippines Based on different topics and methodological approaches of the contributors the articles reflect on the perspectives and problems of the integration of visibility materiality and performance as categories of cultural analysis in historical settings between the sixteenth and nineteenth centuries In that regard both the methodological and regional comparative approaches of this volume claim to contribute beyond the regional focus of the studies to the general debate about cultural theories and to make general statements about the mechanisms of cross cultural communication in cultural contact zones of the modern period
