Individual chapters on SFT from Korean Czech Finnish and eleven other source languages feature an introduction by an expert in the language's speculative fiction tradition and its present day output. Cordasco then breaks down each chapter by subgenre including science fiction fantasy and horror to guide readers toward the kinds of works that most interest them. Her discussion of available SFT stands alongside an analysis of how various subgenres emerged and developed in a given language. She also examines the reasons a given subgenre has been translated into English. An informative and one of a kind guide.
