*Far from Shore* Sophie Webb, 2011 From whales to plankton scope out the marvels of deep sea creatures      Global Strategy Andrew Inkpen, Kannan Ramaswamy, 2005-11-24 There are few industries if any untouched by global competitive forces Firms and countries long accustomed to dominance in their respective international markets must now reckon with aggressive and innovative competitors from all corners of the world As the cross border flow of people knowledge ideas products services and management practices accelerates the notion of home based advantage is becoming weaker Unlike their domestic counterparts firms competing across borders must deal with differences in political legal financial cultural governance and macroeconomic contexts These contextual differences shape competition in international strategy and make the study of international strategy more than just a simple extension of classic strategic analysis Global Strategy deals with the question of how firms can compete in a global environment Andrew Inkpen and Kannan Ramaswamy examine the issues considered central to the study of strategic management in a global context such as the nature of global advantage strategic alliances competing in emerging markets international corporate governance global knowledge management and ethical issues in international business Much as been written about the relevance of global regional and domestic strategies to counter competition from overseas and as a means to enter foreign markets However loba Strategy takes a broader view organizing itself around a set of strategic management issues that arise specifically because a firm is international While there is obviously some overlap between domestic strategic management and global strategic management it is Inkpen and Ramaswamy's contention that the differences between domestic and global strategy warrant specific attention By integrating academic research with practical examples and case studies they inform students and managers of global business about a diverse set of important strategic issues      *Numbered Discourses* Bhikkhu Sujato, SuttaCentral, SuttaCentral has published an entirely new translation of the four Pali Nikayas by Bhikkhu Sujato which is the first complete and consistent English translation of these core texts This is an ebook version of Bhikkhu Sujato's translation of the A guttara Nikaya which can also be read at SuttaCentral website The Numbered or Numerical Discourses are usually known as A guttara Nikaya in Pali abbreviated AN However the Pali tradition also knows the form Ekottara one up or incremental and this is the form usually found in the northern collections These collections organize texts in numbered sets from one to eleven Compared to the other nikayas they are more oriented to the lay community The Ekottarik gama EA in Chinese is a highly unusual text which features a range of variations within itself when it comes even to basic doctrines It shares considerably less in common with the Pali A guttara than the other collections do with their counterparts In addition there is a partial Ekottarik gama in Chinese as well as a variety of individual discourses and fragments in Chinese and Sanskrit This translation of A guttara Nikaya was updated on March 6th 2023      The Far Shore of Time Frederik Pohl, 2000-03-15 Federal agent Dan Dannerman is captured by aliens cloned twice and made to undergo painful experiments Dannerman all three of him escapes to Earth and
