frequently taught poems from the six volume Longman Annotated edition of Shelley's poems. Each poem is fully annotated, explained and contextualised along with a comprehensive list of abbreviations, an inclusive bibliography of material relating to the text and interpretation of Shelley's poetry, plus an extensive chronology of Shelley's life and works. Headnotes and footnotes furnish the personal, literary, historical and scientific information necessary for an informed reading of Shelley's richly varied and densely allusive verse, making this an ideal anthology for students' classroom use and anyone approaching Shelley's poetry for the first time. However, the level and extent of commentary and annotation will also be of great value for researchers and critics.

The New Pacific Charles Brunsdon Fletcher, 1917 A Dictionary of Literary Pseudonyms in the English Language T.J. Carty, 2015-12-03

In its first edition, Dictionary of Literary Pseudonyms established itself as a comprehensive dictionary of pseudonyms used by literary writers in English from the 16th century to the present day. This new Second Edition increases coverage by 35%. There are two sequences: Part I, which now includes more than 17 000 entries, is an alphabetical list of pseudonyms followed by the writer's real name; Part II is an alphabetical list of writers cited in Part I, more than 10 000 writers included, providing brief biographical details followed by pseudonyms used by the writer and titles published under those pseudonyms. Dictionary of Literary Pseudonyms has now become a standard reference work on the subject for teachers, students and public, high school and college, universal librarians. The Second Edition will, we believe, consolidate that reputation.
