Far Flung America:

Far Flung America Allan Carpenter, 1966 THE NEW ENCHANTMENT OF AMERICA Allan Carpenter, 1979 *The United States of America* Emil Otto Hoppé, 1927 The Tribes of America Paul Cowan, 2008 This volume is an empathetic work based on seven years of reporting from the front lines of the culture wars that continue to divide America. The author sets out to cross the sound barrier of dogma and test his beliefs against the realities of American life by investigating what he called the professional religious ethnic and racial tribes the Tribes of America. From reporting on a vicious battle over school textbooks in West Virginia the school busing crisis in Boston and the miners strike in Harlan County Kentucky to the fight over low income housing in Forest Hills Queens and the 1972 conspiracy trial of Eqbal Ahmad Father Philip Berrigan and others the author journeys deep into misunderstood communities across the nation to depict American struggles prejudices and hopes.

The American Review of Reviews Albert Shaw, 1920 *American Monthly Review of Reviews* Albert Shaw, 1920 **Religious Schooling in America** Steven L. Jones, 2008-07-30 Advocates of religious schooling have frequently had to answer the charge that what they supported was un-American. In a book that is more than just a history Jones tries to make sense of that charge by tracing the development of religious schooling in America over the last 125 years. He explores the rationale for religious schooling on the part of those who choose it for their children and in terms of its impact on communities and he considers the arguments of those who criticize such schools for undermining efforts to promote national unity. The book focuses on the gradual embrace of sectarian schooling by different religious communities in America particularly Catholics Jews and later conservative Protestants mainly in the form of homeschooling. It also considers Muslim schools not currently a force in private schooling or the subject of much debate but perhaps next in line to make their case for a place in America's educational landscape. Near the end of the 19th century publicly financed publicly administered schooling emerged as the default educational arrangement for American children. But this supremacy has not gone unchallenged. The sectarian schools that in fact predate public education in America have survived even thrived over the past century. Multiple religious communities including those that opposed sectarian schooling in earlier generations have now embraced it for their children.

American Hegemony and the Trilateral Commission Stephen Gill, 1991-11-07 Dr Stephen Gill examines the extent and nature of America as a hegemonic state. *Church, State, and Race* Ryan P. Jordan, 2012-04-12 This book uses the discourse of religious liberty often expressed as one favoring a separation between church and state to explore racial differences during an era of American empire building 1750-1900. Discussions of religious liberty in America during this time often revolved around the fitness of certain ethnic or racial groups to properly exercise their freedom of conscience. Significant fear existed that groups outside the Anglo Protestant mainstream might somehow undermine the American experiment in ordered republican liberty. Hence repeated calls could be heard for varying forms of assimilation to normative Protestant ideals about religious expression. Though Americans pride themselves on their secular

society it is worth interrogating the exclusive and even violent genealogy of such secular values. When doing so it is important to understand the racial limitations of the discourse of religious freedom for various aspects of American political culture. The following account of the history of religious liberty seeks to destabilize the widespread assumption that the dominant American culture inevitably trends toward greater freedom in the realm of personal expression.

Magazines and the Making of America Heather A. Haveman, 2020-08-04. From the colonial era to the onset of the Civil War, *Magazines and the Making of America* looks at how magazines and the individuals, organizations, and circumstances they connected ushered America into the modern age. How did a magazine industry emerge in the United States where there were once only amateur authors, clumsy technologies for production and distribution, and sparse reader demand? What legitimated magazines as they competed with other media such as newspapers, books, and letters? And what role did magazines play in the integration or division of American society? From their first appearance in 1741, magazines brought together like-minded people wherever they were located and whatever interests they shared. As America became socially differentiated, magazines engaged and empowered diverse communities of faith, purpose, and practice. Religious groups could distinguish themselves from others and demarcate their identities. Social reform movements could energize activists across the country to push for change. People in specialized occupations could meet and learn from one another to improve their practices. Magazines built translocal communities, collections of people with common interests who were geographically dispersed and could not easily meet face to face. By supporting communities that crossed various axes of social structure, magazines also fostered pluralistic integration. Looking at the important role that magazines had in mediating and sustaining critical debates and diverse groups of people, *Magazines and the Making of America* considers how these print publications helped construct a distinctly American society.

Annals of the American Academy of Political and Social Science, 1921 **Forbes** Bertie Charles Forbes, 1925. This business magazine covers domestic and international business topics. Special issues include Annual Report on American Industry, Forbes 500 Stock Bargains, and Special Report on Multinationals.

The Annals of the American Academy of Political and Social Science, 1921 *The Future of Judaism in America* Jerome A. Chanes, Mark Silk, 2023-04-19. This book explores the state of the American Jewish world in the early 21st century after decades of accelerating change that has transformed it and all other religious groups in the United States. It reveals a community in an unparalleled state of flux, grappling with a society in which religious identity is more and more considered an individual choice rather than an inheritance and where fewer adults feel impelled to identify with any religious tradition at all. In chapters written by leading experts, the book examines the community's evolving demographics, the direction of the principal denominational movements, contemporary religious trends, interactions with other American religious communities and engagements in the country's secular politics. This text uniquely covers all these aspects of Judaism in America, making it appealing to students and researchers in such fields as the sociology of religion, Judaism, and American history.

Encyclopedia of U.S. Political

History Andrew Robertson, Michael A. Morrison, William G. Shade, Robert Johnston, Robert Zieger, Thomas Langston, Richard Valelly, 2010-04-01 Unparalleled coverage of U S political development through a unique chronological framework Encyclopedia of U S Political History explores the events policies activities institutions groups people and movements that have created and shaped political life in the United States With contributions from scholars in the fields of history and political science this seven volume set provides students researchers and scholars the opportunity to examine the political evolution of the United States from the 1500s to the present day With greater coverage than any other resource the Encyclopedia of U S Political History identifies and illuminates patterns and interrelations that will expand the reader s understanding of American political institutions culture behavior and change Focusing on both government and history the Encyclopedia brings exceptional breadth and depth to the topic with more than 100 essays for each of the critical time periods covered With each volume covering one of seven time periods that correspond to key eras in American history the essays and articles in this authoritative encyclopedia focus on the following themes of political history The three branches of government Elections and political parties Legal and constitutional histories Political movements and philosophies and key political figures Economics Military politics International relations treaties and alliances Regional histories Key Features Organized chronologically by political eras Reader s guide for easy topic searching across volumes Maps photographs and tables enhance the text Signed entries by a stellar group of contributors VOLUME 1 Colonial Beginnings through Revolution 1500 1783 Volume Editor Andrew Robertson Herbert H Lehman College The colonial period witnessed the transformation of thirteen distinct colonies into an independent federated republic This volume discusses the diversity of the colonial political experience a diversity that modern scholars have found defies easy synthesis as well as the long term conflicts policies and events that led to revolution and the ideas underlying independence VOLUME 2 The Early Republic 1784 1840 Volume Editor Michael A Morrison Purdue University No period in the history of the United States was more critical to the foundation and shaping of American politics than the early American republic This volume discusses the era of Confederation the shaping of the U S Constitution and the development of the party system VOLUME 3 Expansion Division and Reconstruction 1841 1877 Volume Editor William Shade Lehigh University emeritus This volume examines three decades in the middle of the nineteenth century which witnessed the emergence of the debate over slavery in the territories which eventually led to the Civil War the military conflict itself from 1861 until 1865 and the process of Reconstruction which ended with the readmission of all of the former Confederate States to the Union and the withdrawal of the last occupying federal troops from those states in 1877 VOLUME 4 From the Gilded Age through the Age of Reform 1878 1920 Volume Editor Robert Johnston University of Illinois at Chicago With the withdrawal of federal soldiers from Southern states the previous year 1878 marked a new focus in American politics and it became recognizably modern within the next 40 years This volume focuses on race and politics economics labor and capitalism agrarian politics and populism national politics progressivism foreign affairs

World War I and the end of the progressive era VOLUME 5 Prosperity Depression and War 1921 1945 Volume Editor Robert Zieger University of Florida Between 1921 and 1945 the U S political system exhibited significant patterns of both continuity and change in a turbulent time marked by racist conflicts the Great Depression and World War II The main topics covered in this volume are declining party identification the Roosevelt Coalition evolving party organization congressional inertia in the 1920s the New Deal Congress during World War II the growth of the federal government Franklin D Roosevelt s presidency the Supreme Court s conservative traditions and a new judicial outlook VOLUME 6 Postwar Consensus to Social Unrest 1946 1975 Volume Editor Thomas Langston Tulane University This volume examines the postwar era with the consolidation of the New Deal the onset of the Cold War and the Korean War It then moves into the 1950s and early 1960s and discusses the Vietnam war the era of John F Kennedy the Cuban Missile Crisis the Civil Rights Act Martin Luther King and the Voting Rights Act antiwar movements The War Powers Act environmental policy the Equal Rights Amendment Roe v Wade Watergate and the end of the Vietnam War VOLUME 7 The Clash of Conservatism and Liberalism 1976 to present Volume Editor Richard Valelly Swarthmore College The troubled Carter Administration 1977 1980 proved to be the political gateway for the resurgence of a more ideologically conservative Republican party led by a popular president Ronald Reagan The last volume of the Encyclopedia covers politics and national institutions in a polarized era of nationally competitive party politics and programmatic debates about taxes social policy and the size of national government It also considers the mixed blessing of the change in superpower international competition associated with the end of the Cold War Stateless terrorism symbolized by the 9 11 attacks the continuing American tradition of civil liberties and the broad change in social diversity wrought by immigration and the impact in this period of the rights revolutions are also covered

Clad in Iron Howard J. Fuller, 2007-12-30 This work addresses many persistent misconceptions of what the monitors were for and why they failed in other roles associated with naval operations of the Civil War such as the repulse at Charleston April 7 1863 Monitors were ironclads not fort killers Their ultimate success is to be measured not in terms of spearheading attacks on fortified Southern ports but in the quieter much more profound strategic deterrence of Lord Palmerston s ministry in London and the British Royal Navy s potential intervention The relatively unknown Cold War of the American Civil War was a nevertheless crucial aspect of the survival or not of the United States in the mid 19th century Foreign intervention explicitly in the form of British naval power represented a far more serious threat to the success of the Union blockade the safety of Yankee merchant shipping worldwide and Union combined operations against the South than the Confederate States Navy Whether or not the North or South would be clad in iron thus depended on the ability of superior Union ironclads to deter the majority of mid Victorian British leaders otherwise tempted by their desire to see the American experiment in democratic class structures and popular government finally fail Discussions of open European involvement in the Civil War were pointless as long as the coastline of the United States was virtually impregnable Combining extensive archival research on both sides of the Atlantic

this work offers an in depth look at how the Union Navy achieved its greatest grand strategic victory in the American Civil War Through a combination of high tech machines armed with monster guns intensive coastal fortifications and a new fleet of high speed Union commerce raiders the North was able to turn the humiliation of the Trent Affair of late 1861 into a sobering challenge to British naval power and imperial defense worldwide *Dun's Review* ,1928 *America Becomes Urban* Eric H. Monkkonen,2024-06-04 America s cities celebrated by poets courted by politicians castigated by social reformers In their numbers and complexity they challenge comprehension Why is urban America the way it is Eric Monkkonen offers a fresh approach to the myths and the history of US urban development giving us an unexpected and welcome sense of our urban origins His historically anchored vision of our cities places topics of finance housing social mobility transportation crime planning and growth into a perspective which explains the present in terms of the past and offers a point from which to plan for the future This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1988 with a paperback in 1990 **Cities of North America** Lisa Benton-Short,2013-12-12 This timely textprovides a comprehensive overview of the dramatic and rapidly evolving issues confronting the cities of North America Metropolitan areas throughout the United States and Canada face a range of dynamic and complex concerns including the redistribution of economic activities the continued decline of manufacturing and a global growth in services The contributors provide compelling examples Inner cities have experienced both gentrification and continued areas of segregation and poverty Downtown revitalization has created urban spectacles that include festivals marketplaces and sports stadiums Older inner ring suburbs now confront decline and increased poverty while the outer ring suburbs and exurbs continue to expand devouring green space The book explores how the combined processes of urbanization and globalization have added new responsibilities for city governments at the same time leaders are grappling with planning economic development and finance justice equity and social cohesion Cities have become the stage upon which new forms of ethnic racial and sexual identities are constructed and reconstructed They are also connected to wider ecological processes as urban spaces are compromised by manmade and natural disasters alike Introducing contemporary spatial arrangements and distributions of activities in metropolitan areas this clear and accessible book covers economic social political and ecological changes It is also the only text to include the physical geography of urban areas Bringing together leading geographers it will be an ideal resource for courses on urban geography and geography of the city Contributions by Matthew Anderson Lisa Benton Short Geoff Buckley Christopher DeSousa Bernadette Hanlon Amanda Huron Yeong Hyun Kim Nathaniel M Lewis Robert Lewis Deborah Martin Lindsey Sutton John Tiefenbacher Thomas J Vicino Katie Wells and David Wilson **Industrial Management** ,1927
