Farm Policy, 1984      Sustainable Agriculture in Temperate Zones Charles A. Francis, Cornelia Butler Flora, Larry D. King, 1991-01-16 This timely work reviews the best current thinking on practicing sustainable agriculture with contributions from agricultural biological environmental and social scientists The emphasis is on temperate zones with many of the contributions addressing U S agriculture However the principles explored here have application in any climatic or geographical region The book discusses stewardship biodiversity reliance on mixed food systems and other approaches always with a view toward reducing environmental degradation maintaining economic viability and stabilizing rural communities      *Handbook of Law and Economics* A. Mitchell Polinsky, Steven Shavell, 2007-11-07 Law can be viewed as a body of rules and legal sanctions that channel behavior in socially desirable directions for example by encouraging individuals to take proper precautions to prevent accidents or by discouraging competitors from colluding to raise prices The incentives created by the legal system are thus a natural subject of study by economists Moreover given the importance of law to the welfare of societies the economic analysis of law merits prominent treatment as a subdiscipline of economics This two volume Handbook is intended to foster the study of the legal system by economists The two volumes form a comprehensive and accessible survey of the current state of the field Chapters prepared by leading specialists of the area Summarizes received results as well as new developments      **Automatic Government** R. Kent Weaver, 2010-12-01 One of the most dramatic and least studied policy changes of the past twenty years is the increased use of indexing automatic adjustments for inflation in federal programs Currently programs comprising more than one third of the federal budget have indexing provisions The growth of indexing is all the more remarkable since it appears to conflict with the electoral interests of most politicians Without indexing legislators can vote for popular increases in social security benefits federal pay and other programs during election years and claim credit with their constituents for doing so Indexing tends to keep such votes off the agenda Why would politicians renounce these credit claiming opportunities instead of embracing them R Kent Weaver examines the reasons for the growth of indexing in federal programs and its consequences for current policy He focuses on indexing debates in six policy areas social security food stamps congressional pay dairy price supports the minimum wage and federal income tax brackets Weaver argues that to understand indexation policy and policymaking in general we must broaden our understanding of policymakers motivations They have often given up opportunities to claim credit because they are even more concerned with avoiding blame for unpopular decisions and outcomes Politicians efforts to avoid blame for unpopular actions not only have determined whether indexing proposals were adopted but have also shaped the effects of indexing on programs where it was adopted Weaver shows that the effects of indexing have varied substantially across programs and he suggests guidelines for the future use of indexing in federal programs      **Together at the Table** Patricia Allen, 2004-01-01 Everywhere you look people are more aware of what they eat and where their food comes from In a

cafeteria in Los Angeles children make their lunchtime food choices at fresh fruit and salad bars stocked with local foods In a community garden in New York low income residents are producing organically grown fruits and vegetables for their own use and to sell at market In Madison Wisconsin shoppers select their food from a bounty of choices at a vibrant farmers market Together at the Table is about people throughout the United States who are building successful alternatives to the contemporary agrifood system and their prospects for the future At the heart of these efforts are the movements for sustainable agriculture and community food security Both movements seek to reconstruct the agrifood system the food production chain from the growing of crops to food production and distribution to become more ecologically sound economically viable and socially just Allen describes the ways in which people working in these movements view the world and how they see their place in challenging and reshaping the agrifood system She also shows how ideas and practices of sustainable agriculture and community food security have already woven their way into the dominant agrifood institutions Allen explores the possibilities this process may hold for improving social and environmental justice in the American agrifood system Together at the Table is an important reminder that much work still remains to be done Now that the ideas and priorities of alternative food movements have taken hold it is time for the next even more challenging step Alternative agrifood movements must acknowledge and address the deeper structural and cultural patterns that constrain the long term resolution of social and environmental problems in the agrifood system

**The Cigarette** Sarah Milov, 2019-10-02 Los Angeles Times Book Prize Finalist Winner of the Willie Lee Rose Prize Winner of the PROSE Award in United States History Hagley Prize in Business History Finalist A Smithsonian Best History Book of the Year Vaping gets all the attention now but Milov's thorough study reminds us that smoking has always intersected with the government for better or worse New York Times Book Review From Jamestown to the Marlboro Man tobacco has powered America's economy and shaped some of its most enduring myths The story of tobacco's rise and fall may seem simple enough a tale of science triumphing over corporate greed but the truth is more complicated After the Great Depression government officials and tobacco farmers worked hand in hand to ensure that regulation was used to promote tobacco rather than protect consumers As evidence of the connection between cigarettes and cancer grew scientists struggled to secure federal regulation in the name of public health What turned the tide Sarah Milov reveals was a new kind of politics a movement for nonsmokers rights Activists took to the courts the streets city councils and boardrooms to argue for smoke free workplaces and allied with scientists to lobby elected officials The Cigarette puts politics back at the heart of tobacco's rise and fall dramatizing the battles over corporate influence individual choice government regulation and science A nuanced and ultimately devastating indictment of government complicity with the worst excesses of American capitalism New Republic An impressive work of scholarship evincing years of spadework A well told story Wall Street Journal If you want to know what the smoke filled rooms of midcentury America were really like this is the book to read Los Angeles Review of Books

**Encyclopedia of Interest Groups and Lobbyists in the United States** Immanuel Ness, 2015-07-17 A comprehensive general reference on major American interest groups This encyclopedia provides information on the lobbies and interest groups that dominate modern American politics It provides descriptions of 13 categories of groups followed by A Z entries on the groups within that category Congressional Quarterly Weekly Report, 1985

**A Republic No More** Jay Cost, 2016-07-12 After the Constitutional Convention Benjamin Franklin was asked Well Doctor what have we got a Republic or a Monarchy Franklin's response A Republic if you can keep it This book argues we couldn't keep it A true republic privileges the common interest above the special interests To do this our Constitution established an elaborate system of checks and balances that disperses power among the branches of government which it places in conflict with one another The Framers believed that this would keep grasping covetous factions from acquiring enough power to dominate government Instead only the people would rule Proper institutional design is essential to this system Each branch must manage responsibly the powers it is granted as well as rebuke the other branches when they go astray This is where subsequent generations have run into trouble we have overloaded our government with more power than it can handle The Constitution's checks and balances have broken down because the institutions created in 1787 cannot exercise responsibly the powers of

our sprawling immense twenty first century government The result is the triumph of special interests over the common interest James Madison called this factionalism We know it as political corruption Corruption today is so widespread that our government is not really a republic but rather a special interest democracy Everybody may participate yes but the contours of public policy depend not so much on the common good as on the push and pull of the various interest groups encamped in Washington DC *South Dakota Law Review* ,1988 *The Politics of Problem Definition* David A. Rochefort,Roger W. Cobb,1994 At the nexus of politics and policy development lies persistent conflict over where problems come from what they signify and based on the answers to those questions what kinds of solutions should be sought Policy researchers call this process problem definition Written for both scholars and students this book explains how and why social issues come to be defined in different ways how these definitions are expressed in the world of politics and what consequences these definitions have for government action and agenda setting dynamics The authors demonstrate in two theoretical chapters and seven provocative case studies how problem definition affects policymaking for high profile social issues like AIDS drugs and sexual harassment as well as for problems like traffic congestion plant closings agricultural tax benefits and air transportation By examining the way social problems are framed for political discussion the authors illuminate the unique impact of beliefs values ideas and language on the public policymaking process and its outcomes In so doing they establish a common vocabulary for the study of problem definition review and critique the insights of existing work on the topic and identify directions for future research **Agricultural Policy** Richard E.
