Bucket Head and Friends Big Adventure Jim Johnson, 2008-04-17 Life is a journey and adventure May your journey and adventure in life be good Thank you Jim *The Animal Book* Michael Harren, 2018-06-22 Composer performer Michael Harren's multi media performance *The Animal Show* blends humor with candor to convey the importance of keeping all animals safe from harm Through stories music and video from his residency at Tamerlaine Farm Animal Sanctuary *The Animal Show* takes the audience on a ride that will inspire us to think differently about our relationships with all kinds of animals *The Animal Book* contains the entire text of the show along with performance photos video stills and stories of the show's tour and Harren's activism on the road *Nature's Web* Peter Marshall, 2015-02-12 This powerful book provides the first comprehensive overview of the intellectual roots of the worldwide environmental movement from ancient religions and philosophies to modern science and ethics and synthesizes them into a new philosophy of nature in which to ground our moral values and social action It traces the origins and evolution of the dominant worldview that has built our industrial technocratic man centered civilization and brought us to the current ecological crisis At the same time it uncovers an alternative cultural tradition in the world's different religions and philosophies and describes how these ideas are now surfacing and coalescing to form an ecological sensibility and a new vision of nature which recognizes the inter relatedness of all living things Finally this book integrates these varied traditions with modern physics and the science of ecology into a larger philosophical whole that provides the environmental movement with a comprehensive vision of an organic and sustainable society in harmony with nature As ecological disasters continue to threaten our planet becoming worse with

every passing moment of indifference it has become clear that we must take action We must change our relationship with nature and return to the days when our lives were intimately connected to and dependent upon the natural world Nature s Web lays the foundations for that change by explaining where our complex ideas about nature come from why they are wrong and what we can do to change them **Animals and Human Society** Aubrey Manning,James Serpell,2002-11-01 Modern society is beginning to re examine its whole relationship with animals and the natural world Until recently issues such as animal welfare and environmental protection were considered the domain of small idealistic minorities Now these issues attract vast numbers of articulate supporters who collectively exercise considerable political muscle Animals both wild and domestic form the primary focus of concern in this often acrimonious debate Yet why do animals evoke such strong and contradictory emotions in people and do our western attitudes have anything in common with those of other societies and cultures Bringing together a range of contributions from distinguished experts in the field Animals and Society explores the importance of animals in society from social historical and cross cultural perspectives The Pig Who Became President Alana Johnson,2017-05-15 Growing up on a farm full of chaos prejudices and unfair treatment Freddy a shy third grader believed that if he could become President of Calpernia he could really bring forth a positive change to his Gabby Land community Although doubtful of his abilities at first Freddy finally convinced himself that he was just as good as any other Presidential candidate including Farmer John who was not only jealous of Freddy but was also Freddy s competition in the election Despite Farmer John s angst and opposition Freddy s continued campaign momentum and genuine concern for the unification of all Calpernians resonated throughout the countryside Through his confidence Freddy gained the support of the people and not only won the election but also became the most successful President ever in Calpernia s history The people of Calpernia lived happily ever after just as Freddy had wanted united and without prejudice Alana Johnson s The Pig Who Became President A Story About Courage and Friendship is a book creatively written to show and prove how anyone even a pig can make a difference in their community if they only tried Doctors and Ethics ,2020-01-29 Medical ethics has been a constant adjunct of Western medicine from its origins in Greek times Although the Hippocratic Oath has been intensely studied until recently there has been very little historical work on medical ethics between the Oath and Thomas Percival s Medical Ethics of 1803 which is commonly thought of as the first treatise on modern medical ethics This volume brings together original research which throws new light on how standards of behaviour for medical practitioners were articulated in the different religious political and social as well as medical contexts from the classical period until the nineteenth century Its ten essays will place the early history of medical ethics into the framework of the new social and intellectual history of medicine that has been developed in the last ten years Donkey Ollie - Illustrated stories. Subcommittee on Crime, Terrorism, and Homeland Security, 2009 Born for This Re'Dina L. Frazier, 2020-09-11 Born for this is a tale about a young calf named Jasper whose strong willed free spirited and independent nature would soon lead him on the journey of a lifetime that would bring him to forming an unlikely friendship with Emily Rose a wise cautious and faithful whooping crane Their story began in the early part of a beautiful Sunday morning But this wasn't just any Sunday morning it was the first day of Spring A day when everyone's expectations are high and their hope for the future is renewed For farm animals Spring meant venturing out exploring new things and meeting new friends along the way And this Spring would prove to be one of the most exciting and adventurous Springs ever for Mr Pritchard's farm animals *Land Reform Revisited* Femke Brandt, Grasian Mkodzongi, 2018-03-12 Land Reform Revisited engages with contemporary debates on land reform and agrarian transformation in South Africa The volume offers insights into post apartheid transformation dynamics through the lens of agency and state making The chapters written by emerging scholars are based on extensive qualitative research and their analysis highlights the ways in which people negotiate and contest land reform realities and politics By focusing on the diverse meanings of land and competing interpretations of what constitutes success and failure in land reform Brandt and Mkodzongi insist on looking beyond the productivity discourses guiding research and policy making in the field towards an informed view from below Contributors are Kezia Batisai Femke Brandt Sarah Bruchhausen Nerhene Davis Elene Cloete Tariro Kamuti Tarminder Kaur Grasian Mkodzongi Camalita Naicker Fani Ncapayi Mnqobi Ngubane and Chizuko Sato **Animals and the Environment** Lisa Kemmerer, 2015-05-01 Contemporary Earth and animal activists rarely collaborate perhaps because environmentalists focus on species and ecosystems while animal advocates look to the individual and neither seems to have much respect for the other This diverse collection of essays highlights common ground between earth and animal advocates most notably the protection of wildlife and personal dietary choice If earth and animal advocates move beyond philosophical differences and resultant divergent priorities turning attention to shared goals both will be more effective and both animals and the environment will benefit Given the undeniable seriousness of the environmental problems that we face including climate change and species extinction it is essential that activists join forces Drawing on a wide range of issues and disciplines ranging from wildlife management hunting and the work of NGOs to ethics ecofeminism religion and animal welfare this volume provides a stimulating collection of ideas and challenges for anyone else who cares about the environment or animals *The Farmer's Son* John Connell, 2019 Farming

has been in John Connell's family for generations but he never intended to follow in his father's footsteps. Until one winter after more than a decade away he finds himself back on the farm. *The Farmer's Magazine*, 1879
