Farming And The Rural Community In Ontario An Introduction:

Farming and the Rural Community in Ontario Anthony M. Fuller, Foundation for Rural Living, 1985 **The Geography of Agriculture in Developed Market Economies** I.R. Bowler, 2014-10-13 First published in 1993 The broad objective of this book is to describe and explain the contemporary geography of agriculture in developed market economies The objective has been approached by a team of agricultural geographers each writer contributing an analysis of a particular topic *And on that Farm He Had a Wife* Monda M. Halpern, 2001 Focusing on white Anglo Protestant farm women in southern and southwestern Ontario Monda Halpern argues that many Ontario farm women were indeed feminist and that this feminism was more progressive than their conservative image has suggested In *And On That Farm He Had a Wife* Halpern demonstrates that Ontario farm women adhered to social feminism a feminism that focused on values and experiences associated with women and that emphasized the differences between women and men promoting female specificity solidarity and separatism These principles were informed by farm women's overlapping roles as wives and unpaid farm labourers

Water, Energy, Food and People Across the Global South Larry A. Swatuk, Corrine Cash, 2017-10-16 This collection critically engages the resource use nexus Clearly a nexus approach to resource policy planning and practice is essential if sustainable development goals are to be met In particular in an era of climate change an integrated approach to water energy and agriculture is imperative Agriculture accounts for 70% of global water withdrawals food production accounts for 30% of global energy use and a rising global population requires more of everything As shown in this collection scholars of resource development governance and management are nexus sensitive utilizing a sort of nexus sensibility in their work as it focuses on the needs of people particularly but not only in the global South Importantly a nexus approach presents academics and practitioners with a discursive space in which to shape policy through research to deepen and improve understandings of the interconnections and impacts of particular types of resource use and to critically reflect on actions taken in the name of the nexus **Rural Change and Sustainability** Stephen Essex, 2005-01-01 1 Rural change and sustainability key themes

Agriculture in the City's Countryside C. R. Bryant, Thomas Robert Roy Johnston, 1992 Agriculture and urbanisation are often considered to be mutually antagonistic land uses But in an increasingly urban orientated world agriculture depends on city markets and often has to operate within the complex mosaic of the urban fringe This book provides a broad analysis of the nature structure and relationships of farming in the countryside surrounding cities From the perspective of resource management and land use planning the authors explore the biophysical and human dimensions of the organisation of

periurban agriculture and identify four main elements around which they present their analysis the resource base the market the farmer and the role of government Bryant and Johnston use case study material mainly from the developed world to demonstrate how conflicts and problems can be resolved to the benefit of farmer and city dweller By applying systems theory they provide a synthesis for understanding how modern agriculture functions under urban influence and how these trends are likely to develop in the future in the context of conservation economic factors and technological change An essential and stimulating study of a key issue this book will appeal to students and researchers in urban studies rural geography agricultural economics land use studies and planning

Environmental Impact V J. Casares, 2020-08-18 Formed of a collection of papers from the 5th International Conference on Environmental and Economic Impact on Sustainable Development the included works examine the most serious problems affecting sustainable development The papers consider the impact of economic constraints on the environment taking into account the social aspects as well as the over use of natural resources Uncontrolled development can also result in damage to the environment in terms of the release of toxic substances and hazardous waste Therefore decisions have to be made as to whether some forms of development are compatible with environmental protection particularly in cases of possible serious contamination and toxicity More constructive and progressive approaches are required to ensure sustainability A major motivation is to learn from past failure to avoid repeating similar mistakes while attempting to prevent emerging threats to environmental and ecological systems Fundamental to these concepts is the analysis of the inherent risk and the development of appropriate strategies

Agricultural Gazette of Canada Canada.

Department of Agriculture,1915 Agricultural Gazette of Canada Canada. Dept. of Agriculture,1922 **Farming in a Global Economy** Frans Schryer,2006-06-01 Using a Canadian case study this book demonstrates that Dutch immigrant farmers have a global competitive advantage It also deals with the implications both beneficial and harmful of positive stereotyping in this case the reputation of the Dutch as successful farmers Farming in a Global Economy consists of three parts The first provides an overview of farming and migration in the Netherlands and Ontario Part two deals with Dutch farmers in Ontario from a historical and a sociological perspective telling the story of postwar farm immigrants much of it in their own words The last part covers the Dutch presence in and impact on Ontario agriculture *Agricultural Gazette of Canada* ,1922 *Harvesting Labour* Edward Dunsworth,2022-09-15 In recent decades an increasing share of Canada s agricultural workforce has been made up of temporary foreign workers from the Global South These labourers work difficult and dangerous jobs with limited legal protections and are effectively barred from permanent settlement in Canada In *Harvesting Labour* Edward Dunsworth examines the history of farm work in one of Canada s underrecognized but most important crop sectors Ontario tobacco Dunsworth takes aim at the idea that temporary foreign worker programs emerged in response to labour shortages or the unwillingness of Canadians to work in agriculture To the contrary Ontario s tobacco sector was extremely popular with workers for much of the twentieth century with high wages attracting a diverse workforce and enabling thousands to establish themselves as small farm owners By the end of the century however the sector had become something entirely different a handful of mega farms relying on foreign guest workers to produce their crops Taking readers from the leafy fields of Ontario s tobacco belt to rural Jamaica Barbados and North Carolina and on to the halls of government Dunsworth demonstrates how the ultimate transformation of tobacco and Canadian agriculture writ large was fundamentally a function of the capitalist restructuring of farming *Harvesting Labour* brings together the fields of labour migration and business history to reinterpret the historical origins of contemporary Canadian agriculture and its workforce

The Journal of Agriculture and Horticulture ,1921 Rainfed Farming Systems Philip Tow,Ian Cooper,Ian Partridge,Colin Birch,2011-09-16 While a good grasp of the many separate aspects of agriculture is important it is equally essential for all those involved in agriculture to understand the functioning of the farming system as a whole and how it can be best managed It is necessary to re assess and understand rain fed farming systems around the world and to find ways to improve the selection design and operation of such systems for long term productivity profitability and sustainability The components of the system must operate together efficiently yet many of the relationships and interactions are not clearly understood Appreciation of these matters and how they are affected by external influences or inputs are important for decision making and for achieving desirable outcomes for the farm as a whole This book analyses common rain fed farming systems and defines the principles and practices important to their effective functioning and management
