fiction cliché *Farscape* follows the adventures of the human astronaut John Crichton after he is shot through a wormhole into another part of the universe. Here Crichton is the only human being going from being a member of the most intelligent species on our planet to being frequently considered mentally deficient by the beings he encounters in his new environment. John Crichton befriends a group of beings from various species attempting to escape from imprisonment aboard a living spaceship. The series, which broke many of the so-called rules of science fiction, follows Crichton's attempts to survive in worlds that are often hostile to him and his friends. Their adventures center on each being's attempt to find a way home. The essays in this volume explore themes running throughout the series, such as good and evil, love and sex, and what it means to be a hero, as well as the various characters populating the series, including the villains and even the ship itself. *Farscape: House of Cards* Keith R. A. DeCandido, Rockne S. O'Bannon, 2001-05-15. The pleasure planet Liantac was once the greatest gambling resort in the Uncharted Territories. Even now, having fallen on hard times, it remains a spectacle of glitz and greed. Astronaut John Crichton and his fellow interstellar fugitives see Liantac as the source of much-needed supplies, except for Rygel, whose boundless avarice is tempted by the promise of easy riches. Imagine his shock then when he loses their starship, Moya, in a game of chance. To discharge the debt and liberate their ship from the planetary authorities, Crichton, Aeryn, and the others must take on a number of challenging assignments. But all is not what it seems, for treachery and deadly intrigue hides within this House of Cards. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. **The Greatest Cult Television Shows of All Time** Christopher J. Olson, Carrie Lynn D. Reinhard, 2020-05-29. Reaching back to the beginnings of television, *The Greatest Cult Television Shows* offers readers a fun and accessible look at the 100 most significant cult television series of all time, compiled in a single resource that includes valuable information on the shows and their creators. While they generally lack mainstream appeal, cult television shows develop devout followings over time and exert some sort of impact on a given community, society, culture, or even media industry. Cult television shows have been around since at least the 1960s, with *Star Trek* perhaps the most famous of that era. However, the rise of cable contributed to the rise of cult television throughout the 1980s and 1990s, and now, with the plethora of streaming options available, more shows can be added to this categorization. Reaching back to the beginnings of television, the book includes such groundbreaking series as *The Twilight Zone* and *The Prisoner*, alongside more contemporary examples like *Crazy Ex-Girlfriend* and *Hannibal*. The authors provide production history for each series and discuss their relevance to global pop culture. To provide a more global approach to the topic, the authors also consider several non-American cult TV series, including British, Canadian, and Japanese shows. Thus, Monty Python's *Flying Circus* appears alongside *Sailor Moon* and *Degrassi Junior High*. Additionally, to move beyond the conception of cult as a primarily white, heteronormative fanboy obsession, the book contains shows that speak to a variety of cult audiences and experiences, such as *Queer as Folk* and *Charmed*. With detailed arguments for why these shows deserve to be considered the greatest of all time, Olson and Reinhard

provide ideas for discussion and debate on cult television Each entry in this book demonstrates the importance of the 100 shows chosen for inclusion and highlights how they offer insight into the period and the cults that formed around them
