

FASCIST ITALY AND NAZI GERMANY

Comparisons and contrasts

EDITED BY RICHARD BEESE

Fascist Italy And Nazi Germany Comparisons And Contrasts

Patricia Knight

Fascist Italy And Nazi Germany Comparisons And Contrasts:

Fascist Italy and Nazi Germany Richard Bessel, 1996-03-28 A collection of essays comparing key aspects of Nazi Germany and Fascist Italy *Fascist Italy and Nazi Germany : Comparisons and Contrasts* Richard Bessel, 1998 A comparison of fascist Italy and Nazi Germany **Fascist Italy and Nazi Germany** Richard Bessel, 2000 **Italian Fascism and Spanish Falangism in Comparison** Giorgia Priorelli, 2020-07-01 This book compares the Italian Fascist and the Spanish Falangist political cultures from the early 1930s to the early 1940s using the idea of the nation as the focus of the comparison It argues that the discourse on the nation represented a common denominator between these two manifestations of the fascist phenomenon in Mussolini's Italy and Franco's Spain Exploring the similarities and differences between these two political cultures this study investigates how Fascist and Falangist ideologues defined and developed their own idea of the nation over time to legitimise their power within their respective countries It examines to what extent their concept of the nation influenced Italian and Spanish domestic and foreign policies The book offers a four level framework for understanding the evolution of the fascist idea of the nation the ideology of the nation the imperial projects of Fascism and Falangism race and the nation and the place of these cultures in the new Nazi continental order In doing so it shows how these ideas of the nation had significant repercussions on fascist political practice **Fascism and the Right in Europe 1919-1945** Martin Blinkhorn, 2014-07-22 This new text places interwar European fascism squarely in its historical context and analyses its relationship with other right wing authoritarian movements and regimes Beginning with the ideological roots of fascism in pre 1914 Europe Martin Blinkhorn turns to the problem torn Europe of 1919 to 1939 in order to explain why fascism emerged and why in some settings it flourished while in others it did not In doing so he considers not just the major fascist movements and regimes of Italy and Germany but the entire range of fascist and authoritarian ideas movements and regimes present in the Europe of 1919 1945 Hitler's Germany Roderick Stackelberg, 2002-01-22 Hitler's Germany provides a comprehensive narrative history of Nazi Germany and sets it in the wider context of nineteenth and twentieth century German history Roderick Stackelberg analyzes how it was possible that a national culture of such creativity and achievement could generate such barbarism and destructiveness This second edition has been updated throughout to incorporate recent historical research and engage with current debates in the field It includes an expanded introduction focusing on the hazards of writing about Nazi Germany an extended analysis of fascism totalitarianism imperialism and ideology a broadened contextualisation of antisemitism discussion of the Holocaust including the euthanasia program and the role of eugenics new chapters on Nazi social and economic policies and the structure of government as well as on the role of culture the arts education and religion additional maps tables and a chronology a fully updated bibliography Exploring the controversies surrounding Nazism and its afterlife in historiography and historical memory Hitler's Germany provides students with an interpretive framework for understanding this extraordinary episode in German and European history *The Totalitarian*

Experiment in Twentieth Century Europe David Roberts, 2006-04-27 By developing a long term supranational perspective this ambitious multi faceted work provides a new understanding of totalitarianism the troubling common element linking Soviet communism Italian fascism and German Nazism The book s original analysis of antecedent ideas on the subject sheds light on the common origins and practices of the regimes Through this fresh appreciation of their initial frame of mind Roberts demonstrates how the three political experiments yielded unprecedented collective mobilization but also a characteristic combination of radicalization myth making and failure Providing deep historical analysis the book proves that totalitarianism best characterizes the common features in the originating aspirations the mode of action and even the outcomes of Soviet communism Italian fascism and German Nazism By enhancing our knowledge of what totalitarianism was and where it came from Roberts affords important lessons about the ongoing challenges possibilities and dangers of the modern political experiment

The Third Reich Sourcebook Anson Rabinbach, Sander L. Gilman, 2013-07-10 No documentation of National Socialism can be undertaken without the explicit recognition that the German Renaissance promised by the Nazis culminated in unprecedented horror World War II and the genocide of European Jewry With *The Third Reich Sourcebook* editors Anson Rabinbach and Sander L. Gilman present a comprehensive collection of newly translated documents drawn from wide ranging primary sources documenting both the official and unofficial cultures of National Socialist Germany from its inception to its defeat and collapse in 1945 Framed with introductions and annotations by the editors the documents presented here include official government and party pronouncements texts produced within Nazi structures such as the official Jewish Cultural League as well as documents detailing the impact of the horrors of National Socialism on those who fell prey to the regime especially Jews and the handicapped With thirty chapters on ideology politics law society cultural policy the fine arts high and popular culture science and medicine sexuality education and other topics *The Third Reich Sourcebook* is the ultimate collection of primary sources on Nazi Germany

Fascists Michael Mann, 2004-05-24 *Fascists* presents a theory of fascism based on intensive analysis of the men and women who became fascists It covers the six European countries in which fascism became most dominant Italy Germany Austria Hungary Romania and Spain It is a comprehensive analysis of who fascists actually were what beliefs they held and what actions they committed The book suggests that fascism was essentially a product of post World War I conditions in Europe and is unlikely to re appear in its classic garb in the future Nonetheless elements of its ideology remain relevant to modern conditions and are now re appearing though mainly in different parts of the world

The Inter-War Crisis Richard Overly, 2014-06-11 The inter war years were at the time perceived to be years of crisis across the world The First World War the war to end all wars had solved nothing and its legacy was a world full of unresolved disputes and manifest ambiguities Overly examines the Russian Revolution and its aftermath the Wall Street Crash of 1929 and the subsequent economic crisis which struck at the very foundations of the capitalist world and seeks to explain why dictatorships came to supplant democracy in Italy Spain

Germany the Baltic States and the Balkans and why the world slid into war once more in 1939 **The Third Reich** David G. Williamson, 2018-01-29 The Third Reich is a succinct comprehensive examination of the major debates surrounding this crucial period in modern German history The character and operation of the Nazi state and of its global consequences have been discussed and disputed since 1933 David G Williamson's Seminar Studies text now in its fifth edition provides students with a lucid introduction to the Third Reich and highlights the relevant research scholarship and controversies The new edition has been expanded to give increased coverage to such topics as ethnic cleansing in Poland and Russia the role of the Wehrmacht the Holocaust attitudes of ordinary Germans to the Third Reich the German opposition Nazi foreign policy and the German economy Accompanied by a wide range of primary sources a timeline maps and a glossary The Third Reich remains the best available introduction to this short lived but enormously impactful period in world history **The Second World War** Chris Bambery, 2014-05-08 The Second World War casts a long shadow portrayed as a necessary and paradigmatic war that defeated fascism During recent wars in Iraq Afghanistan and elsewhere US presidents and British prime ministers have tried to claim they were following in the footsteps of Winston Churchill by standing up to dictators In The Second World War Chris Bambery tests this position in a thorough account of the war and demonstrates why it continues to dominate TV history channels and school history books Arguing that the conflict was as much about a division of the world between the great powers as it was as a rising of ordinary people against fascism he offers a nuanced and radical analysis that sets the book apart from conventional histories of the war *Twentieth Century Italy* Jonathan Dunnage, 2014-09-25 Following a historically chronological approach and with a clear focus on the marked regional diversity characterising Italy this volume analyses the impact of social economic cultural and political transformation on the lives of Italians It assesses their living standards their health and education their working conditions and their leisure activities The final part of the book examines contemporary Italian society in the light of the political and moral crisis of the early 1990s **Feminist Transformations and Domestic Violence Activism in Divided Berlin, 1968-2002** Jane Freeland, 2024-07-19 This is the first in depth historical study of feminist activism against domestic violence in divided Berlin between 1968 and 2002 Starting in the 1970s feminists in West and then East Berlin campaigned against domestic violence as a key issue of women's inequality They exposed the harmful gender norms that left women unprotected and vulnerable to abuse in the home and called for this to change Indeed domestic violence has been one of the issues most effectively addressed by the women's movement in Germany Since the first shelter opened in West Berlin in 1976 women's shelters have spread throughout the country and today up to 45 000 women a year turn to emergency housing in Germany with many more accessing helplines and crisis centres Situating domestic violence activism within a broader history of feminism in post war Germany Feminist Transformations traces the evolution of this movement both across political division and reunification and from grassroots campaign to established professionalised social service In doing so it brings the histories of feminism in East and West Berlin

together for the first time and explores how feminism successfully changed women's rights in Germany. But it also asks what popular and political support for domestic violence activism has meant for feminism and the advancement of women's rights more broadly. Examining the trajectory of feminism in Germany, Jane Freeland reveals the limitations of gender equality as advancements in women's rights were often built on the reassertion of patriarchal gender roles.

Modern Germany in Transatlantic Perspective Michael Meng, Adam R. Seipp, 2017-10-01 Bringing together incisive contributions from an international group of colleagues and former students, *Modern Germany in Transatlantic Perspective* takes stock of the field of German history as exemplified by the extraordinary scholarly career of Konrad H. Jarausch. Through fascinating reflections on the discipline's theoretical, professional, and methodological dimensions, it explores Jarausch's monumental work as a teacher and a builder of scholarly institutions. In this way, it provides not merely a look back at the last fifty years of German history but a path forward as new ideas and methods infuse the study of Germany's past.

Germany since 1789 David G. Williamson, 2015-12-17 This essential text provides a clear and engaging introduction to the history of modern Germany. The updated and expanded new edition now takes the story back to 1789 and brings it right up to the present day, adopting a controversy-led approach throughout. Visual evidence, maps, documents, and key event boxes support the text and aid learning.

War, Massacre, and Recovery in Central Italy, 1943-1948 Victoria Belco, 2010-01-01 The Second World War wreaked unprecedented devastation throughout Europe, necessitating monumental reconstruction efforts that burdened not only governments but the lives of ordinary citizens. *War, Massacre, and Recovery in Central Italy, 1943-1948* examines this transitional period in the province of Arezzo by detailing the daily experiences of civilians through the traumas of war and the difficulties of recovery. Studying the aftermath of war in a new and insightful way, Victoria C. Belco shifts the perspective from the national to the local level. With this localized focus, she provides valuable insight into the ways in which civilians coped with an overwhelming range of problems from adjusting to Allied occupation and widespread displacement to rampant unemployment and the restructuring of local administrations and institutions after fascism. Recreating the post-war atmosphere of disorder, need, and political upheaval, Belco shows how the competing community interests caused social fragmentations that impeded change while the unity of a shared past prevented civil war.

Mussolini and Fascism Patricia Knight, 2013-10-08 The early twentieth century in Italy was a crucial period in its history. *Mussolini and Fascism* surveys all the important issues and topics of the period, including the origins and rise of Fascism, Mussolini as Prime Minister and Dictator, the Totalitarian state, foreign policy, and the Second World War. It also examines how Italian Fascism compared to other inter-war dictatorships.

Modern Italy Denis Mack Smith, 1997 A new edition of the classic historical text on Italy.

Home After Fascism Anna Koch, 2023-10-03 *Home after Fascism* draws on a rich array of memoirs, interviews, correspondence, and archival research to tell the stories of Italian and German Jews who returned to their home countries after the Holocaust. The book reveals Jews' complex and often changing feelings toward their former homes and highlights the

ways in which three distinct national contexts East German West German and Italian shaped their answers to the question is this home Returning Italian and German Jews renegotiated their place in national communities that had targeted them for persecution and extermination While most Italian Jews remained deeply attached to their home country German Jews struggled to feel at home in the country of murderers Yet some retained a sense of belonging through German culture and language or felt attached to a specific region or city Still others looked to the future socialist and communists of Jewish origin hoped to build a better Germany in the Soviet Occupied Zone In all three postwar states surviving Jews fought against persistent antisemitism faced the challenge of recovering lost homes and possessions struggled to make sense of their persecution and tried to find ways to reclaim a sense of belonging Wide ranging and moving Home after Fascism enriches our understanding of Jews homecoming experiences after 1945 It reveals the deep affection and persistent love people feel for their homes the suffering that comes with losing them and the challenges of a return

Fascist Italy And Nazi Germany Comparisons And Contrasts Book Review: Unveiling the Power of Words

In some sort of driven by information and connectivity, the energy of words has be more evident than ever. They have the ability to inspire, provoke, and ignite change. Such is the essence of the book **Fascist Italy And Nazi Germany Comparisons And Contrasts**, a literary masterpiece that delves deep into the significance of words and their affect our lives.
