Fast Friends:

Fast Friends Stuart Kaufman, 2005-02-25 FAST FRIENDS is the story of Dr Ernest Berger a college English professor and his pal Bobby Taylor a tennis player and playboy that takes place up in the woods of Vermont The novel would have to be considered a picaresque a tale of rogues and rascals and a recounting of their various adventures and incidents It is a series of incidents and episodes connected chronologically with little or no motivation or complication of plot it is simply a realistic unfolding of many lives their trials and tribulations and their ultimate redemption and salvation The book is about Dr Berger a frustrated married English professor and poet who is totally bored with teaching the rich progeny of Americas finest families up in the green mountains of Vermont and longs to go out to Hollywood and become a scriptwriter and live the glamorous tabloid existence that he has dreamed of He loves his wife and young sons but is seduced by the flesh of many a young eager and confused coed And of course part of his dream is to be rich and cavort with Hollywood stars and leave the drab world of teaching behind The catalyst as it turns out is Mr Bobby Taylor a swinging handsome down to earth Vermonter who is a stark contrast to all the snobby snooty writers and artist types that people the world of the infamous Endington College in southern Vermont To Dr Berger his wife and young children Bobby is a breath of fresh air Then things begin to unravel and the dream goes through various cycles of destruction and disruption His odyssey finally comes full circle as Dr Berger learns many lessons about love and loss and battles desperately to regain the idyllic life that he gave away for a hollow fantasy

for the difference between the right and wrong way to respect young people and avoid frustrating patterns of miscommunication and conflict Yeager explains how to adopt what he terms the mentor mindset which is a leadership style that is attuned to young people's need for status and respect Anyone can adopt the mentor mindset by following a few highly effective and easy to learn practices such as validating young people's perspectives rather than dismissing them asking them questions rather than telling them what to do being transparent about your beliefs and goals rather than assuming that they will accurately guess your thoughts and holding them to high standards rather than coddling them Yeager's scientific experiments have shown these practices reduce a wide variety of behavior problems including school dropout unhealthy eating stress purposelessness mental health problems and more One of the biggest misconceptions about mentoring is that it takes up too much time On the contrary those who use the mentor mindset end up with more time Through back and forth conversations young people feel empowered and managers can transfer responsibility to them Young people in this age group are poised to learn grow and accomplish incredible things if only we can tap into the basic neurobiological systems that drive their motivation and behavior An essential read for anyone who interacts with young people 10 to 25 is a groundbreaking book that offers long term strategies to help nurture well adjusted independent accomplished young people who contribute to society in positive ways all while making our own lives easier The Dictionary of Modern Proverbs
